THE COMING ELECTION.

As might be anticipated, the newly-em-
franchised portion of the Local Board's
district is entering zealously into the question
of representation on the new Board, and last
night selected six gentlemen, by decided
majorities.

Mr. Thos. Oliver heads the list, a most
likely man, who has taken a large share
of public work in Carlton for many years.

Mr. George Armitage, also of Carlton,
is at present a member of the Local Board,
and has experience in its duties as well as
in other public matters.

Mr. Jas. Armitage, of Robin Hood, has
for a long time been a member of the School
Board, and the sole representative of Lof-
thouse and Carlton on the Wakefield Sanitary
Authority.

Mr. Walter Hargreaves, (Robin Hood)
has also had a long experience on the School
Board, and like the three other candidates
mentioned, has served on the Parochial
Committee, and worked hard to promote the
Amalgamation.

Mr. Thos. Hargreaves (Lofthouse) has
gained similar experience to his fellow
candidates, and is also well versed in com-
mercial matters, and financial questions.

Mr. Middleton (Loth use) is possessed of
practical and theoretical knowledge of an
engineering description, likely to prove most
valuable on a Board dealing with questions
of drainage, road making and buildings.

These are the six proposed members for
the new district, and unless some independent
candidate steps in, would just fill up the
seats supposed to be due to Lofthouse, Car-
lton and Robin Hood.

As regards Robin Hood district, little
appears to have been done yet. It is
generally supposed that the members now
composing the Board will be willing to stand
again for nomination. These comprise the
following:—

Mr. Wm. Hargreaves, of Rothwell Haigh,
who has served twenty years, for several
years chairman of the Board.

Mr. Jas. Hargreaves, of Rothwell, chairman
of the Board, and a member for sixteen
years.

Mr. John Oliver, of Rothwell Haigh,
(for thirty years a member), who has also
been chairman.

Mr. W. Lawton, of Rothwell Haigh, who
has had eight years experience.

Mr. G. Lockwood, of Rothwell, who has
served four years.

Mr. C. Ward, Rothwell (five years a
member of the Board).

Mr. G. Armitage, Westfield, is just com-
pleting his three years.

Mr. Jas. Ellis, Stourton, is also concluding
his first term of three years.

Mr. Hy. Nichols, Stourton, has been on
the Board two years.

Other names are mentioned, including
Mr. H. P. Newcome, Mr. J. Turner, Mr. S.
Bramley, Mr. Jas. Steel, Mr. W. Bykes, Mr.
J. R. Seaton, and Mr. Jos. Stead, senior, but
so far as we are aware, no public meeting has
yet taken place, and everything is very quiet.

As nominations must be made before the 1st
(next Feb.) the friends desiring to place their
friends in a position to contest the election
should be prepared.

If a compromise can be arranged so that
nine persons shall be agreed on for the old
district, these, with the six candidates
accepted by Lofthouse and Carlton, will
prevent the necessity coming.

One important question, however, would
remain thereby unsettled, viz.—which five
should retire at the end of the first year, as
required by the Order.

We fear, however, with such a list of
possible candidates that such difficulty is
not likely to arise, and everybody seems to
take it for granted that there will be a strong
contest.

**THE COMING
LOCAL BOARD ELECTION.**

**REPRESENTATION OF THE NEWLY-
ANNEXED AREA.**

**MEETING AT ROBIN HOOD
LAST NIGHT.**

PROBABLE NOMINATIONS.

The importance of the forthcoming election
for the amalgamated district of Rothwell,
Lofthouse, Carlton and Thorpe, is being fully
recognised by the ratepayers living in the
villages recently added to the Rothwell Local
Board district, and they are evidently intent
upon putting forth their best endeavour in order
to secure a fair representation on the new
governing body.

During the week, meetings have been held
in both Lofthouse and Carlton, of a semi-
public nature, in order to facilitate the busi-
ness of the district, and a meeting, held in
the Robin Hood Road School last night,
and over which Mr. J. Dobson again pre-
sided.

A letter was read from Mr. Walter Har-
greaves, regretting his inability to be present
at the meeting.

The Chairman intimated that at the meet-
ing last week, Messrs. T. Hargreaves, Jas.
Armitage, G. Armitage, T. Oliver and Walt.
Hargreaves had been nominated as suitable
candidates, and since that meeting he under-
stood a semi-private meeting had been held
at Lofthouse, where several additional names
were mentioned. He also understood that
since the first meeting was held, Mr. Thos.
Hargreaves had reconsidered his decision, and
was now prepared to go to the poll.

The meeting having been thrown open for
the discussion of the town and district, the
Rev. Mr. Nicholson, in his opening remarks,
expressed his sympathy with the efforts that
were being put forth to improve the town,
on a large scale, and villages, in order to
reclaim the down-trodden and degraded. He
also referred to the enterprise of other de-
nominations in this direction, and trusted
that the meeting might prove a stimulus
to those who had assembled to hear from the
speakers, an account of some of the work that
was being prosecuted.

The Rev. H. Nicholson, in addressing the
meeting referred to the special work that had
been started in the Norwich and Lynn dis-
trict, where he had been stationed before
coming to Normanton. This district, before
the home mission enterprise was started, was
looked upon as a "paul settlement."

A large grant of money assisted the workers
materially in their extraordinary endeavours;
desolate chapels, with high-backed seats had
been filled with eager congregations, the
places themselves had been modernised, and
the services of the workers were the result
of the home mission because it was a means
of expressing his sympathy with those who
could not find their way to the church, and
was glad to say was a distinct feature of Meth-
odism. The work so far had been principally
amongst the working classes, amongst whom
he preferred to labour rather than (nurse) the
big men of our town-suburbs, who in far too
many cases looked for the attention of the
ministers, instead of persons helping in
the great work of restoring the fallen.

The extermination of the lowest type was a
doctrine that had been set forth by many
books that had recently come from the press,
but it should not be forgotten that some of
their best men had been rescued from the
lowest of the low by the Methodists of the past.

It was possible for the very lowest to be
raised, the fall mistake made by many
being that they left out of consideration
altogether the lower they had in Jesus
Christ, by which it was possible to lift from
the bottom of the Rock of Ages. What was
wanted, was not the extermination of the
lowest type of humanity, but the extermina-
tion of their sin. The indolent neutrality of
many with regard to this great work of
rescuing the fallen is deeply deplored, but
the speaker was present to look up, and see
their method, and by united endeavour
make this wilderness a veritable "garden of
the Lord."

A comprehensive vote of thanks was pro-
posed to the speakers by the Rev. W. Stew-
art, and carried, and the meeting was then
closed, the collection taken during the services
amounted to £5 12s.

cheered. He at once stated that as he
entered the room he heard some warm words
said respecting himself, that had no business
to be said. Business men had business
engagements to attend to, and knowing that
it was probable that he would not be able to
be present at the commencement of the
meeting, he had written a letter to Mr. B.
Marshall stating this fact, and had ex-
pected that the contents of the letter would
have been imparted to the meeting. He did
not know whose voice it was, but as he came
into the room he heard the words "Mr.
Thos. Hargreaves has not shown up to-night."
Hard words ought never to have been uttered,
and should be at once withdrawn by the
speaker, whoever he was. He had pledged
himself at Lofthouse to go to the poll, and to
the poll he intended to go.

Mr. A. Beeton said he did not know that
he had said any hard words at all; the meet-
ing at Lofthouse was not binding in any way
on this meeting, and nothing had been said
as to Mr. Hargreaves' inability to be
present at the commencement of the meeting.

Mr. B. Marshall said that just as Mr. Har-
greaves entered the room, he was about to
inform the meeting that he had received a
letter from him stating that he would not be
present at the commencement of the meeting.

Mr. Hargreaves having been asked to state
his opinions to the meeting, said he had heard
there were likely to be very serious and
heavy claims made upon them by some of the
officials of the district, who he was given to
understand, were going to claim compensa-
tion. He also referred to the fact that he had
said at last week's meeting, as to the requirements
of the district, &c.

Mr. Marshall said that he had heard some-
thing of this matter already, but if the Roth-
well Local Board thought fit to engage him
in the same capacity, he would be glad to
forfeit all claims to compensation.

Mr. Jas. Armitage thought that the
remarks on this topic would have been better
left unsaid.

After further conversation, it was decided
to take the feeling of the meeting by vote,
the candidates generally being agreeable to
abide by the decision of the meeting, as there
was an unusually large number of ratepayers
present. It was understood that the six
candidates who received the highest number
of votes should be nominated, and supported
at the election by the ratepayers in the town-
ship.

The candidates having withdrawn, the
voting was proceeded with, and resulted as
follows:—

Mr. T. Oliver..... 96
Mr. Jas. Armitage..... 80
Mr. G. Armitage..... 78
Mr. Walter Hargreaves..... 75
Thos. Hargreaves..... 65
F. Middleton..... 65
T. Maddocks..... 35
J. Dawson..... 11

The several candidates, on hearing the
result of the voting, thanked the ratepayers
for their support, and after making some
arrangements for the united support of the
candidates throughout the township, the
meeting was formally concluded.

WESLEYAN HOME MISSIONS.

Last Sunday, special and well-attended
services were conducted in the Rothwell
Wesleyan Chapel, on behalf of the above
missions.

The Rev. H. Nicholson preached powerful
sermons both morning and evening, the
services on the latter occasion being unusually
impressive.

A public meeting was held in the Chapel
on Monday night. Mr. James Hargreaves
occupied the chair, and in his opening remarks
expressed his sympathy with the efforts that
were being put forth to improve the town,
on a large scale, and villages, in order to
reclaim the down-trodden and degraded. He
also referred to the enterprise of other de-
nominations in this direction, and trusted
that the meeting might prove a stimulus
to those who had assembled to hear from the
speakers, an account of some of the work that
was being prosecuted.

The Rev. H. Nicholson, in addressing the
meeting referred to the special work that had
been started in the Norwich and Lynn dis-
trict, where he had been stationed before
coming to Normanton. This district, before
the home mission enterprise was started, was
looked upon as a "paul settlement."

A large grant of money assisted the workers
materially in their extraordinary endeavours;
desolate chapels, with high-backed seats had
been filled with eager congregations, the
places themselves had been modernised, and
the services of the workers were the result
of the home mission because it was a means
of expressing his sympathy with those who
could not find their way to the church, and
was glad to say was a distinct feature of Meth-
odism. The work so far had been principally
amongst the working classes, amongst whom
he preferred to labour rather than (nurse) the
big men of our town-suburbs, who in far too
many cases looked for the attention of the
ministers, instead of persons helping in
the great work of restoring the fallen.

The extermination of the lowest type was a
doctrine that had been set forth by many
books that had recently come from the press,
but it should not be forgotten that some of
their best men had been rescued from the
lowest of the low by the Methodists of the past.

It was possible for the very lowest to be
raised, the fall mistake made by many
being that they left out of consideration
altogether the lower they had in Jesus
Christ, by which it was possible to lift from
the bottom of the Rock of Ages. What was
wanted, was not the extermination of the
lowest type of humanity, but the extermina-
tion of their sin. The indolent neutrality of
many with regard to this great work of
rescuing the fallen is deeply deplored, but
the speaker was present to look up, and see
their method, and by united endeavour
make this wilderness a veritable "garden of
the Lord."

A comprehensive vote of thanks was pro-
posed to the speakers by the Rev. W. Stew-
art, and carried, and the meeting was then
closed, the collection taken during the services
amounted to £5 12s.

ENTERTAINMENT AT OULTON.

On Friday evening, the attractive pro-
gramme of the Oulton W. M. T. Society was
repeated (with some changes) in the
School, and was even more successful than
the first effort. So crowded was the room
that many had unfortunately, to return
home disappointed, but those who managed
to get a seat were highly pleased. The
tableaux comprised three of the scenes given
the night before, one being "The babes in
the wood," in which Mr. Hale represented
the ruffian, and little Emily Cockerham and
J. W. Briggs, the children. "Tit for tat"
and "Where are you going, my pretty maid?"
were repeated exactly, by Mr. and Mrs. Fox,
and earned hearty applause. The new
tableaux were beautifully illustrated by the
Misses Lowther and friends, of Swillington
Hall, who were responsible for the whole of
the first part. "Cockles and Mussels" is a
seaside story, sung by Mrs. Lysley, in which
a bonny young lady appears with her
best belle, and two of the scenes given
the two young ladies and Mr. Lysley taking part
in the representation. The nursery rhyme
"Cinderella" provided for six different
scenes in that wonderful story of our child-
hood, and evoked continued interest and
applause, as the various incidents were
mately portrayed by the Misses Lowther
and Mr. Fox. Mrs. Whynay had kindly
promised to give two songs, with "string
obligato, but illness unhappily prevented her
appearance. Miss L. Lowther, however,
gave a tasteful performance on the violin-
cello, of the song "At the Threshold," and
was vigorously encored.

The repetition of the farce "A husband in
Clover" was looked forward to with much
interest, as the news of the success of the
previous evening had spread far and wide.
This pleasure was nearly ended in disappoint-
ment, as Mrs. Selwin Cartwright had caught
cold on Wednesday night, and it was only by
careful nursing and sundry precautions that
she was well enough to appear. However,
like a true woman, who managed to keep her
promise, and both Mr. and Mrs. Cartwright
went through their performance splendidly,
everyone retiring with the highest expressions
of satisfaction with the entertainment, as
well as pleasure that these ladies and gentle-
men should have entered into the scheme,
with such zest and generosity.

Friday, February 24, 1893.

ROTHWELL LOCAL BOARD.

FIRST ASSEMBLY.

The first meeting of the newly-elected Board for the amalgamated area of Rothwell, Letham, Carlton and Thorpe, was held on Friday night, in the Club-room of the Mechanics' Institute. The gentlemen present were Messrs. W. Hargreaves, J. Oliver, T. Hargreaves, G. Armitage, G. Lockwood, J. Armitage, Walter Hargreaves, T. Oliver, J. Hargreaves, F. E. Middleton, J. Turner, H. P. Newsome, W. Sykes, and J. Stead, with the clerk (Mr. N. Hargreaves), collector (Mr. Marshall), and surveyor (Mr. Greenwood).

Mr. Hargreaves, the Clerk, having read the Returning Officer's declaration as to the result of the election, asked some gentlemen to propose a member as chairman of the Board for the ensuing year.

Mr. Thos. Oliver said that it would be well to have a gentleman of experience in the chair, and in looking round he thought that Mr. Wm. Hargreaves was the most likely member. He had had something like twenty years' experience, was the representative of a large firm, and it would be nothing but right to offer him the honour of presiding over the Board for the first year of its existence. He had pleasure in proposing Mr. W. Hargreaves as chairman.

Mr. Stead seconded the resolution.

Mr. Turner supported the motion, for one reason especially. He had opposed Mr. Hargreaves on many matters in the past, but they had always been good friends afterwards, and this, he believed, was to Mr. Hargreaves' credit more than his own, and showed a large-hearted generosity on his behalf.

The motion was then carried unanimously.

Mr. Hargreaves, in taking the chair, thanked his fellow members very heartily for the unanimous manner in which they had placed him in that position. He anticipated the Board would have a hard year's work before them, as there would be no doubt the drainage of Letham, Carlton, and Thorpe, to carry out, and Letham, with Carlton required lighting. Another thing which the district very much needed, was a gentleman as magistrate, and he thought that the Board might very properly send up a requisition to the Home Secretary, asking that a magistrate be appointed for the district. Referring to the roads, he did not think that there would be much to do except at Thorpe, where considerable attention was required. The few Hospital and the new Board Offices would be amongst the important things to be carried out, and he hoped that all would work together for the common good of the district.

Mr. Lockwood having asked if it would be necessary to have a vice-chairman, the Clerk said it would be a convenience, but no provision was made by the Act of Parliament.

APPOINTMENT OF COMMITTEES.—On the motion of Mr. J. Hargreaves, and Mr. J. Oliver, Mr. N. Hargreaves, Mr. Hargreaves, J. Oliver, G. Lockwood, and G. Armitage, BUILDING.—Messrs. J. Hargreaves (chairman), G. Armitage, J. E. Leak, J. Stead, and F. E. Middleton.

SANITARY AND SEWAGE.—Messrs. Walter Hargreaves (chairman), W. Hargreaves, J. Armitage, F. Hargreaves, J. Oliver (chairman), J. Hargreaves, J. Oliver, G. Lockwood, and G. Armitage.

WATER WORKS.—Messrs. Newsome, (chairman), Middleton, Sykes, J. Armitage, and Thos. Hargreaves.

DAY AND NIGHT.—Messrs. Middleton, Lockwood, and Sykes.

ELECTION EXPENSES.—The Clerk asked the Board to pass a cheque for the expenses of the election, which amounted to £20 3s. 6d.

The Chairman—"I think it is Mr. Turner who should move the payment of this account."

Mr. Turner—"I don't see that it should be, Mr. Chairman, I had only two cigars and some tea." (Laughter.)

The cheque was unanimously agreed to be paid.

REMOVAL OF SEWAGE.—The Clerk informed that the contract for the above expires this month.

The Chairman remarked that the removal of the sewage contents at Stourton had this year being carried out by the Board's own workmen as an experiment, but the Rothwell had been done, and the experiment was in order to ascertain how the experiment was repaid, the question was adjourned, in order to give the surveyor an opportunity of ascertaining the cost, and making a comparison.

TIME AND PLACE OF MEETING.—This being the first time of business, Mr. Newsome asked if the Club room was to be the future place of meeting.

Mr. J. Hargreaves—"I see no better place than this; there is no other room in Rothwell that will suit us better, and I propose that the Mechanics' Committee be asked for the use of this room."

Mr. Lockwood seconded.

As an amendment, Mr. Turner proposed that measures be taken to secure Mr. Gurney's schoolroom. No books or documents would then have to be carried down to the Mechanics' Committee, and the room was not very suitable at present, it could be made so as a little expense.

Mr. Sykes seconded the amendment.

Mr. G. Armitage supported the resolution,

as he did not think Mr. Gurney's Schoolroom at all fit for the Board meetings to be held there.

Mr. Sykes—"If the room is not fit for us to spend two hours in, it is not fit for the children to spend their time in, and the sooner it is shut up the better."

Mr. Turner thought the Schoolroom might be made so comfortable as to become their permanent meeting place. He would oppose the Town Hall to his utmost, until they got Oulton and Woodlesford joined to the Board.

He did not think that the Inspector would sanction the spending of £3000 on these offices if he went round the district and saw the state of the saltpetre.

On the amendment being put to the meeting, there voted in favour, Messrs. Turner, Sykes and Newsome, the remaining members supporting the resolution.

The meeting nights were fixed for every alternate Wednesday, commencing on the 22nd inst.

INFECTIOUS DISEASES HOSPITAL.—The Clerk said he had nothing very particular to report on this head. The old Board had adjourned the matter in order that the new Board might take it up.

Mr. G. Armitage thought that it should be left with the Sanitary and Sewage Committee, and proposed a resolution accordingly.

Mr. J. Hargreaves thought that the erection of the Hospital ought to be left in the hands of the Sanitary and Sewage and the Building Committees.

Mr. J. Hargreaves said that Mr. G. Armitage and Mr. Lockwood had spent a lot of time in connection with this question and he thought that a special Committee ought to be appointed, as otherwise Mr. Lockwood would not be on the Committee.

It was subsequently agreed that the members of the Sanitary and Sewage and Building Committees form the Committee for carrying out the building of the Hospital.

SALE OF LAND.—It was decided to offer for sale the land belonging to the Board, situate near the beck in Gillet Lane.

THE NEW BOARD OFFICES.—The Chairman intimated that the old Board had purchased some land on which to erect the new

OUTLON-AND-WOODLESFORD SCHOOL BOARD.

The last meeting of the old Board was held on Tuesday night, present, the Rev. A. J. Irvin, (in the chair), Mr. Newsome and Mr. Downes, and the clerk (Mr. R. J. Smith). The minutes of the previous meeting were read and confirmed.

FINANCIAL STATEMENT.—The balance in the hands of the treasurer last month was £41 9s. 4d., and £100 had been received from the Overseers on account of precept. The following payments were agreed to, on the motion of Messrs. Newsome and Downes:—

Sundry Payments .. 3 7 6
Yorkshire Post advertisements 3 17 0
G. Clagg, and .. 3 3 3
J. Schofield, station expenses 21 14 0
R. J. Smith, salary .. 21 8 0
F. L. L. salary .. 21 8 0

Payment of out of loan and interest .. 125 10 11
VOTE OF CONDOLENCE.—The Rev. A. J. Irvin expressed his regret that all the members were not present, to join in the vote of condolence which he rose to propose. Since their last meeting, they had had to chronicle the death of their chairman, and he thought that it was their duty, as his fellow-members, to pass a vote of sincere condolence with his bereaved family. Had Dr. Nowell been present at this meeting, he would have taken the chair as usual, and it would have been the duty of one of the members to propose a vote of thanks to Dr. Nowell, for his services as chairman during the past three years. During his term of office, he had discharged his duties with very great care and judgement, and with the strictest impartiality. Dr. Nowell was a gentleman who served to enter thoroughly into the spirit of the Education Act, and was, in every sense of the word, a true educationist. He appeared to work and aim at obtaining efficiency in the schools, and he did not grudge a good staff to the head teachers, nor a good salary to those whom they employed.

The teachers under the Board, had, he believed, as high salaries as most teachers under other Boards. Perhaps they were in a position to pay higher salaries, as they had the advantage of having large ratepayers in the district, such as the Midland Railway Co., the Brewery Co., Mr. Calverley, the Alre and Calder Navigation Co., and others. The late chairman seemed to lay himself out in order to gain this efficiency in the schools, at whatever price he was able to obtain it, although some might sometimes think the price was a little too high. His policy had been very successful, and the schools showed as good a record as any in Yorkshire. He sincerely hoped that the members of Dr. Nowell's family would feel that the vote of condolence which the Board offered to be offered in all sincerity, as he was sure the Board would very severely feel the loss of the judgement, painstaking, and usefulness of their late chairman.

Mr. Downes, in seconding the resolution, said he heartily agreed with all that Mr. Irvin had said. Dr. Nowell was a gentleman whom he had known for many years, and although there was a difference in their positions, he was a gentleman whom he could easily approach and converse with. He had always shown an interest in the working men of the district, and had carried out his duties as chairman of the Board during the three years most satisfactorily.

The vote was carried in silence.
APPLICATION FOR ADVANCE OF SALARY.—A letter was read from Mr. Boyes, asking for an increase of salary. Mr. Boyes is at present receiving £55 per annum, and a few months ago applied for an advance, but the Board declined to entertain the application. This was the second application that had been made, and the Board decided that £55 was as much as they could give to an assistant master.

ATTENDANCE.—The Chairman stated that the last meeting of the Board was held on Monday night in the Fifth standard, was extremely bad, and the examination was within a fortnight's time.

The Attendance Officer also presented a list of bad attenders, against whom stronger measures will be taken, if an improvement is not at once effected.

VOYE OF THANKS.—A vote of thanks to the vice-chairman, Mr. Irvin, was passed for his services during the latter part of the Board's term of office; to which Mr. Irvin suitably replied.

The first meeting of the new Board will probably be held on Monday next.

HUNSLY BOARD OF GUARDIANS.
The fortnightly meeting of the above Board was held on Wednesday, present:—Mr. W. R. Ingens (chairman), Mr. K. J. Smith and Mr. H. B. Berr (secretaries), Messrs. J. Gravelly, J. Hargreaves, C. Grenovet, W. J. Wainson, A. Little, J. Parker, G. W. Flockton, W. Sutcliffe, J. W. Hirst, and the clerk (Mr. Schofield).

It was agreed that five children be sent out from the Workhouse to Canada, per Mr. Barker.

GOING TOO FAR.—In the case of a woman named Mawson, it appears that the Board had decided to allow her two shillings per week, but the relieving officer, Mr. Barker, was reported by Mr. Hargreaves to have said that he would not allow the amount to the woman, as she was able-bodied. He (Mr. Hargreaves) did not think that Mr. Barker had a right to make such a statement, especially in the presence of the person interested, and if such proceedings were going to be allowed, the sooner the Board was dissolved the better.

Mr. Barker, on coming before the Guardian, said that he could not make payment without being charged, as the woman was able-bodied.

In answer to a question by Mr. Hargreaves, the Clerk said that the woman was over 60 years of age, and could not therefore be considered able-bodied.

Mr. Barker denied having said that he would not make the payment, and after further discussion, the Board, by resolution, decided to allow the woman 2s. per week, as previously agreed upon.

ESTIMATED EXPENDITURE FOR THE HALF-YEAR ENDING MICHAELMAS, 1893.—The Clerk submitted the following estimate:—

COMMON CHARGES.	
Out-door Relief ..	2450 0 0
Non-resident Poor ..	85 0 0
Is maintenance ..	1400 0 0
Location to Asylums ..	245 0 0
Vaccination Expenses ..	70 0 0
Registration Expenses ..	180 0 0
Workhouse Expenses ..	1200 0 0
Salaries and Rates ..	895 0 0
Total ..	6003 1 8

REPARATE CHARGES.	
Salaries and Rates ..	172 10 0
Gravelly ..	900 0 0
School Attendance Officer's salary ..	5 0 0
Total ..	1067 10 0

AMOUNT REQUIRED.	
Amount required ..	6008 1 8
Salaries and Rates ..	172 10 0
Gravelly ..	900 0 0
School Attendance Officer's salary ..	5 0 0
Total ..	1067 10 0

The respective totals for the corresponding half-year were £5200 common charges, and £1161 5s. 4d. separate charges.

SUNDY DEATH.—A letter was read from the Local Board, asking for a notice of the death of Mr. Thomas, who was found dead on the steps of the heating apparatus chamber. It appears that the man was employed as a stoker for the heating apparatus, and on the 10th inst. he was missed, and a search being made he was found dead. An inquest had been held, and the following verdict returned:—"Found dead, fit from natural cause, and suffocated by carbonic acid gas from heating apparatus whilst in a fit."

THE COMMITTEE OF LADIES.—Mr. Flockton, in reply to a question, said that the number of ladies to form the Committee be fixed at six.

The Clerk:—"Should they not have six odd number: they will never agree."

Mr. Flockton:—"Well, I will say seven."

Mr. Hargreaves seconded seven, and the motion was carried.
Mr. Smith:—"Will they have power to appoint a chairman?"

Mr. Flockton then proposed the following six ladies as suitable to work on the Committee:—Mrs. Price, Mrs. Briddle, Mrs. Thackray, Mrs. Lawson, Mrs. Rawcliffe, Mrs. Myers. Several members thought that the religious interests of the district ought to be considered, and after some discussion, the matter was again adjourned for a fortnight.

INTERMENT OF BODIES OF POOR PERSONS.—The WOODLESFORD BURIAL SOCIETY.

Mr. Smith, having given notice of his intention to move a resolution on this subject, said that this question had been agitating the official members of the local community at Oulton, and Woodlesford for some time. There had been some serious headlines in the local papers, about a burial scandal at Woodlesford, the particulars of which are already well-known to our readers. Mr. Smith said that there appeared to be a doubt in the minds of the Overseers, Relieving officers, and others, as to the proper course to take in the burial of bodies taken out of the river, and in the cases of poor persons who die and have no relations or means to carry out their interment. The proper course appeared to him (Mr. Smith) to be for the Overseers to communicate with the Relieving Officer, and for the Relieving Officer to give instructions for interment. He would like Mr. Schofield to give them some information as to what is the course to adopt.

Mr. Schofield said that the Overseers, as such, have no power to interfere with such interments, and that it was for the Relieving Officer to pay the expenses. Any such payments by the Overseers would be surcharged. The only persons that could carry out the interments were the officers of the Guardians, when they had authority from the Board.

The Board, on the other hand, agreed and passed a resolution, authorising the Relieving Officer to inter, but he could not find the resolution, and the proper and best way would be to repeat this resolution.

Mr. Smith then proposed, and Mr. Hargreaves seconded a resolution, giving authority to the Relieving Officer to inter the bodies of these unknown and poor people.

The resolution was carried.
Mr. Schofield said that since the affair at Woodlesford, he had been in correspondence with the Coroner, who he said, was actioned for what he had said. The last time he had written to him, he had asked him (the Coroner) to point out what law had been transgressed, but he had not received any reply to his question.

ROTHWELL AND DISTRICT PATXON SOCIETY.

A crowded meeting of the Rothwell Patxon Society was held at the Mechanics Institute, on Saturday evening last, Mr. J. Flockton, vice-president, in the chair.

After the collection of the ordinary business, the Rev. B. Palmer, vicar of Rothwell, read a paper on "The Vegetation of the Coal Period." The essayist, after drawing attention to the interest attached to the carboniferous series of rock, for people living in this district, said that it is difficult, when a student, such as a fern, for instance, was placed by the side of a piece of coal, to understand how the coal could be produced from the plant. But would it not be just as difficult for us, the fabled "Man in the moon," to understand how a naked loaf could be produced from a green ear of wheat, if these two were placed side by side before him. After speaking of the beauty of the vegetation of the coal period, and of fluted trees like the columns of Grecian Temples, the Lecturer went on to describe the five great classes into which that vegetation was divided.

I. Ferns.—These were found in great abundance and of enormous size.
II. Lepidodendron.—This tree was a gigantic club-moss, reaching the height of 50 or 60 feet. The largest living representative of about 30 species existing at the present day, is only about three feet high.

III. Sigillaria.—This tree was nearly akin to the lepidodendron, and rose to a height of 30 or 40 feet; 25 species of this plant are found in the coal fields of Great Britain.

IV. Calamites.—These are the ancestors of the modern horsetail, found in marshes. Magnolia a horse tail still reaches 30 or 40 feet in height, and you have a plant similar to a Calamite.

V. Conifers.—These were somewhat similar to the Auricularia. Their fruit is very abundant in the coal.

The lecturer, in his remarks on the II and III termed Sigillaria, are found spread out in the under clay.

The lecturer then dealt with the purity of coal, and expressed his opinion that the climate of the carboniferous period was more equable than at present.

The lecturer, which was listened to with intense interest throughout, was illustrated by a capital collection of fossils, wood cuts, &c.

Questions were asked, and a long and animated discussion was taken part in by Messrs. J. G. B. Turner, Mr. Flockton, J. Turner, W. Wainson, T. Fielding, and H. J. Martin, during which Mr. J. Turner gave a graphic description of the delta of the Mississippi.

A hearty vote of thanks was accorded to the Vicar, on the proposition of Mr. B. Palmer, seconded by Mr. B. Palmer, whose suggestion that the discussion be adjourned for another evening, was unanimously agreed to.

Arrangements had been made for ladies to attend this meeting, but owing to the inclement weather, only one lady was present.

TARGET INSTITUTION AND COUGH.—Indigestion and dyspepsia, sticking and irritating, inducing cough and affecting the voice. For these symptoms, no remedy has been found so effective as the use of the "Target" Tablets. They are rapidly and permanently cured by a few simple applications made at home by the patient in one week. Some extraordinary cures of these diseases are on record. Sold only at 2/4 each, by H. HETTON, DRUGGIST, 41 & 43, East Street, W. Toronto, Canada. Scientific Analysis.

As a permanent and warranted cure of Cough, Asthma, and all other diseases of the Throat and Lungs, the "Target" Tablets are the only remedy that can be relied upon. Sold only at 2/4 each, by H. HETTON, DRUGGIST, 41 & 43, East Street, W. Toronto, Canada. Scientific Analysis.

THE OLD BAND CONCERT.

On Monday evening, the Mechanics' Hall was crowded to overflowing, in order to enjoy a programme provided by Mr. J. Sidney Jones, for the benefit of the Old Band. Mr. Jones' interest in the success of this Band is most pleasing, and his efforts on their behalf have been neither few nor small.

The main novelty and attraction on this occasion was the appearance of the Royal Navy Ladies' Orchestra, and certainly their performances were most successful. These young ladies are all competent musicians, and their combined efforts were a real treat, while the two or three solos were very good.

The Royal Navy Ladies' Orchestra consisted of the following:—Conductress, Miss Flo. Sidney; first violin, Miss Ethel Moulton; second violin, Miss Hawkesworth; violoncello, Miss Alice Lendale; drums, Miss Nelly Tolletton; triangle, bells, &c., Miss Dora Horsfield; piano, Miss Annie Dyson; the American organ was also played as a distinct improvement by another young lady.

The first appearance of the band provoked unanimous applause, their picturesque attire being both tasteful and appropriate. They wore costumes of blue serge, short skirts, loose jacket blouses, and small caps, all trimmed with braids of red, white and blue; they also wore "polonaises" made of Union Jack flag; the whole presenting a bright and pretty picture. The Orchestra played three selections, all of which were much enjoyed, and warmly applauded,—from "The Mountebanks," "William Tell," and the vocal waltz "Gypsies." Miss Hawkesworth sang "Gypsies," "La Serenata," with violin obligato, with fair success; but Miss Ethel Moulton's violin solo "Air Vari," was beautifully played, the notes being remarkably pure, and she well merited the encore she received. The comic song "Oh! Mr. Porter," by Miss Nelly Tolletton, took well, and was also well received. But little Dora Horsfield's "Daddy wouldn't you be a howl" was "not likely to be forgotten yet a bit, and the tiny singer was loudly recalled; her musical genius is certainly uncommon. The only gentleman appearing during the concert was Mr. A. Gawthrop, whose obliging song worked continually.

Of course the principal portion of the credit for this part of the entertainment is due to Miss Flo. Sidney, the talented violinist, who ably conducted the orchestra, and also played the obligatos, where required.

After a most successful, the pantomime burlesque "Robinson Crusoe" was played by Miss Flo. Sidney, Miss Nelly Tolletton, Mr. Tom Jones, Mr. Berry, and Mr. A. Gawthrop. The scenery, depicting the desert island, and the angry sea, as painted by Mr. Gawthrop, was very effective. The play introduced a number of caricatures, and took well with the large audience. The work is written by Mr. Wilton Jones, while the musical arrangements come from the pen of Mr. J. S. Jones, R.C.M.

The entire affair reflects great credit on Mr. J. Sidney Jones, whose musical ability is deservedly so popular, and the financial result will no doubt be very satisfactory to the members of the Rothwell Old Band, for whose benefit the entertainment was given.

LOFTHOUSE PARISH TEA.

When it came out that the "Colonel" was a woman, with ten-cent power, and its commander caused it to be named the "Colonel."

One day a friend saw the "beauty," smiled it so much, as to accept it as a gift after being told that it was "stolen" a few days after Mr. Weir received a letter the friend offering to return the lost cat.

"Give it to anyone you please, but don't let it go," was the reply.

The "Colonel" was given to a deaf and both were happy. —

THE READY MONEY STORES.

Friday, March 18, 1893.

Some time ago, we introduced the necessity of having resident magistrates in these out-lying districts, and urged the propriety of our Local Board taking up the question, and memorialising the Lord Chancellor. The Chairman of the Board also indicated this as one of the desiderata of the district, in making his inaugural speech.

From the current newspapers, it is clear that Rothwell is not the only neighbourhood which is experiencing this disadvantage, and already steps are being taken for appointing justices of the peace, where they are most needed. Our towns and cities swarm with them, but people living in such localities as ours, are overlooked. There is now a move all over the country, and we do trust our new and thoroughly competent Board, will approve a memorial for such an appointment at once. We have heard that some semi-private action is being taken, (which is all right) but by all means our governing Authority is the body which should move in its official capacity; and we would suggest the propriety of members taking steps for commemorating this new era of local history, by asking that their worthy Chairman should be the first recipient of the honorable title of J.P.

Since writing the above, we observe with satisfaction that the monopoly until recently held by Lord Lieutenant in the selection of magistrates is now removed, and applications can be made to the Lord Chancellor. Amongst the latest appointments, we observe the name of our neighbour, Mr. Jas. H. Cookson, of Stanley, and have pleasure in congratulating him on the honour.

The resignation of the Clerk to the Local Board has come on everybody as a surprise, and has been received with regret. Mr. Saml. Hargreaves has held the office ever since the Board was formed, just twenty years ago, April 2nd, 1873. He has watched and tended its growth and extension, and has necessarily exerted a large influence on the undertakings and general history. When we recall the rough and tumble manner in which public work used to be carried out under the old system of amateur surveyors, whose main object was to spend as little as possible, no matter what became of the public health and convenience, we must feel that Lord Government's decision to place the Local Board in the hands of the public, was a step towards the general public. The preparation and carrying out of the large and effective systems of drainage and water supply, the macadamising of our streets and roads, the flagging of our foot-paths, the lighting of our streets by night, and the cleansing of them by day, and many other minor improvements, have all been subject of serious and constant consideration for the Board, and necessarily for the Clerk. As Mr. Saml. Hargreaves has now definitely decided to retire, it is pleasant to everyone, that the retirement of his successor, whose service must afford him intense satisfaction, and that no flattery is needed to express the indebtedness of the townships to him. The fact that all this work has been accomplished without the expenditure of any unnecessary money on law, speaks volumes for the care and economy which have characterised Mr. Hargreaves' public life. As to the future, the Board would very well have done with his knowledge of the past, and the experience gained by constant communication with the Local Government Board, and adjoining Local Authorities. Seeing this cannot be, a somewhat difficult task lies before the Board, and there is no doubt that in the future there will be the necessity for a larger expenditure of the Clerk's time in his ordinary duties, and more frequent recourse to legal advice, in the early stages of the new public works to be undertaken. It will also be felt both by members of the Board, and by the ratepayers generally, that the Board officers and the Board's officials should be accessible at any time, during ordinary business hours. Let us hope that the next twenty years of our public history will be even more satisfactory than the last, and that our good old "village" of Rothwell may renew her youth, and by constant extensions of the various townships, become one active and influential "town," embracing the entire "ancient parish."

Now then for it, Rothwell! here is your chance to distinguish yourself in the football world. The result of the Cup Tie match last week between Rothwell and Leeds Institute, has proved a fruitful subject for comment amongst the partisans of the ever-popular winter pastime, and to-morrow's match on the Park side ground is looked forward to with great enthusiasm. Undoubtedly the match will attract an enormous large concourse of spectators, and the Rothwell team will be put fairly on their merits, as Cleckheaton is unquestionably the best team they will have played against, since the formation of the organisation. The longed-for opportunity of opposing a distinguished team is close at hand; and the match to-morrow will prove the calibre of our local exponents of the game. It is very unfortunate for the Rothwell team that they must necessarily be without the hard-working and valuable assistance of their half-back—Stretford, whose misfortune last week confines him in the Leeds Infirmary. However, the team as a whole is in good form, and have been in strict training during the past few weeks. Should they be successful in to-morrow's encounter they will either meet Sowerby Bridge, or Leeds, and will be successful in that encounter, will have the honour of playing either the semi-champions of Yorkshire—Leeds, or Hull, at Rothwell. Now for it, Rothwell! make a dashing bid for victory and fame.

HUNSLLET BOARD OF GUARDIANS.

The usual meeting of the above Board was held on Wednesday, present:—Mr. Ingham (chairman), Mr. R. J. Smith and Mr. Berry (vice-chairman), Messrs. J. Gravelly, J. Hargreaves, C. Grovernor, J. Parker, G. W. Flockton, W. Sutcliffe, Barnby, Hirst, Wainwright, and the clerk, Mr. Schofield.

From the minutes of the Visiting Committee, it appears there has been another case of small-pox in the house. The Doctor thought the only probable cause was that the patient has been assisting him in dispensing by distributing medicine.

Several of the members expressed their regret that this disease should continue to linger about so long.

EMIGRATION TO CANADA.—With regard to the five boys whom it was agreed at last meeting should be sent out to Canada, a letter from the Local Government Board has been received, in which the resolution of the Guardians on the matter is stated, and the conditions upon which they assented to the children's emigration. The Board also asked for several particulars as to the condition of the children, which the Clerk was instructed to forward along with a copy of the resolution.

LADIES' VISITING COMMITTEE.—The question of appointing a Ladies' Visiting Committee, which has several times been discussed by the Board, again came up for consideration, the Clerk intimating that he had suggested the Visiting Committee, the advisability of drawing up a code of regulations for the Committee's guidance, but these gentlemen did not seem to care to take the matter up.

Mr. Hargreaves: "The Visiting Committee seem to be afraid of the ladies." (Laughter.) Mr. Smith: "We had better pass on to the next business."

Mr. Berry: "We want to know what the Committee are expected to do."

Mr. Hargreaves: "The Local Government Board intended the Ladies to do something useful, or they would never have made the Order."

Mr. Grovernor: "If there is any difficulty in the Visiting Committee drawing up the regulations, would it not be well to recommend certain ladies to form the Committee, and let them devise a course of action."

Mr. W. Carr: "My opinion is that you had better appoint say three gentlemen to draw up the code of regulations, and then go in for appointing a Committee afterwards."

Mr. Sutcliffe proposed that the matter stand over.

Mr. Barnby seconded and Mr. Gravelly supported.

Mr. Smith objected to the matter standing over, if the Board could not settle the question themselves, they had better resign their position as guardians, and let a Board of ladies take their place; he was sure that if such a Board had a Committee of gentlemen to appoint they would not have so much trouble about it as the Board had in the question before them. The Board ought now to suggest certain ladies to be asked to work on the Committee.

The Chairman said that something had been said about only Wesleyan and dissenting ladies being named at a previous meeting. It was certainly not the fault of the gentlemen who named these ladies, but rather the fault of the other gentlemen who had not taken the question up. Some of the Guardians had done duty, other ladies had not.

Mr. Hargreaves proposed that a Committee consisting of Messrs. Flockton, Smith, Barnby, and the Clerk be appointed to draw up a code of regulations.

Mr. Berry seconded, and the resolution was carried; against Messrs. Sutcliffe and Barnby.

APPOINTMENT OF REGISTRATION OFFICER.—Mr. J. Cockerham was again appointed registration officer for the township of Oulton and Woodlesford, at a salary of £15 per annum.

ADVANCE OF COLLECTOR'S SALARY.—An application being made by Mr. Coop, collector for East Hunsllet, for an advance of salary, it was proposed according to notice by Mr. Berry, that Mr. Coop's salary be advanced.

Mr. Hargreaves said he was prepared to name an amount, Mr. Coop's salary was now £100, he proposed it be raised to £120.

Mr. Parker seconded the resolution.

Mr. Smith said that 10 years ago this salary was £130, the work had considerably increased since that time, and still the salary was only £100 per year. The work was never better done, and the present, and he proposed that Mr. Coop's salary be raised to £130.

Mr. Barnby seconded, and the resolution for £120 having been withdrawn, Mr. Smith's motion was carried unanimously.

SEQUESTRATION OF THE MIDDLETONS COLLEGE.—A letter had been received from the Local Government Board setting forth the explanation of Mr. Pollard to the Board, as to the circumstances upon which he had been suspended by the Guardians. The Board submitted the explanation to the Guardians, and asked to be informed as to how far the explanation was satisfactory. After the explanation had been read and discussed, it was agreed to recommend the Local Government Board to reinstate Mr. Pollard, with a caution. Mr. Pollard had stated in his letter to the Local Government Board that in the event of being reinstated he would be carried out with credit and punctuality.

EVAN'S CODE.—GRATEFUL AND COMFORTING.—By a careful study of the medical facts, which govern the operation of digestion and nutrition, and by a careful application of the law of proportion to each case, Dr. Evan's Code has been evolved, and is now being sold by a carefully-selected branch of the trade, which will save as many heavy doctors' bills. It is by the use of this Code that the most delicate and most delicate of the human system can be gradually built up again, and made to resist every tendency to disease. Hundreds of subtle maladies, which are ready to attack at any moment, are thus kept from troubling the system, and a weak and nervous system is made strong and healthy.

THE LANCET.—A full and complete list of the names of the medical men who have given evidence in the case of the late Mr. J. H. Hargreaves, is published in the LANCET, and is well worth perusal. It shows that the late Mr. Hargreaves was a man of high standing in the medical profession, and that his death was a great loss to the community.

LOTHOUSE CONSERVATIVE ASSOCIATION.

ANNUAL DINNER AND MEETING.

At a recent meeting of the above Association, it was unanimously resolved to endeavour to strengthen it in members, and to increase its usefulness, and with this object in view the minimum subscription of members was fixed at 1s. per year.

It was also resolved to hold the annual dinner and meeting at the "Elephant and Castle Inn," (Mr. W. Andrews) on Friday night last, on which date a very encouraging number assembled, and partook of an excellently-prepared supper.

At the subsequent meeting, Mr. Walter Hargreaves presided, and proposed the usual loyal toast to "Her Majesty, and the members of the Royal Family." Mr. Hargreaves said he need not offer any apology in any constitutional meeting, for making this toast the first item of the programme. It gave him great pleasure to see such a numerous gathering, which assured well for the future success of the Association. It was well known that they had had a Conservative Association at Lothhouse before, but it seemed to die a natural death, during the time politics were in the background. This meeting, however, showed a good front in launching once more the Association, in referring to the work of the present Parliament, in matters which it was anticipated would occupy their attention during the present session, he spoke of the Home Rule Bill as being a measure that would take its place, and one which would be considered by many to be worse than the proposals of 1886. Although he did not profess to be a very diligent student of politics, he considered the protection offered in the present Bill to the Protestants was below the Bill of 1886, and he could not see how it could be considered as a measure which would be considered by many to be worse than the proposals of 1886.

Mr. Hargreaves: "The Visiting Committee seem to be afraid of the ladies." (Laughter.) Mr. Smith: "We had better pass on to the next business."

Mr. Berry: "We want to know what the Committee are expected to do."

Mr. Hargreaves: "The Local Government Board intended the Ladies to do something useful, or they would never have made the Order."

ROTHWELL PRIMITIVE METHODIST SCHOOL. OLD SCHOLARS' TEA AND ENTERTAINMENT.

Mainly through the endeavours of Mr. S. Ellis, assisted by Mr. W. Bulmer, a very successful gathering took place on Saturday, of those who in the year were scholars at the Rothwell Primitive Sunday School.

In the first place a well-prepared tea was partaken of in the school-room, by numerous friends both young and old, past and present, the trays being attended to by Mesdames Adamson, Blakely, Dobson, Sidebottom, Curtis, and Ward, who were assisted by Messrs. G. Adamson, T. Hopton, and T. Lunn.

After tea, an entertainment took place in the Mechanics' Hall, at which Wm. Hargreaves, Esq., presided, and delivered a short but encouraging address. The choir rendered two anthems, "The Birth is the Lord's" and "Praise ye the Lord." Mr. L. Firth played a piano solo "Ye Banks and Brakes," with variations. Mr. J. Wade recited "Naboth's Vineyard." Miss Lunn "The Drunkard's Child," and Miss Bramley "That's a Fact," for which she was encouraged, and responded with a recitation in the Yorkshire dialect "That's a dufer." Miss Hampson was encouraged for "The Holy City," and substituted "Zuyder Zee;" the same young lady later in the programme, also rendered very effectively "The Last of the Stone." Miss C. Ellis sang "I dreamt that I dwelt," and Mrs. Firth gave a very pleasant interpretation of the song "Jessie's Dream." A clarinet solo was played by Mr. J. Harrison, a flute and clarinet duet "Lo! I hear the gentle lark," by Messrs. Lewis and Harrison, and a flute, clarinet, and piano trio by Messrs. Harrison, Lewis, and Firth. A vocal duet "When ye gang awa, Jamie," was rendered by Miss L. Ellis and Mr. W. Naylor, and the programme concluded with the chorus "God be with us."

The receipts nearly reach £12, and are in aid of the Renovation Fund.

ROTHWELL AND DISTRICT PAXTON SOCIETY.

A very interesting meeting of this Society was held on Saturday evening last in the Mechanics' Institute, when an essay on "Electric Horticulture" was given by Mr. Little, of Leeds, who showed how electricity (both atmospheric and current) could be, and was being applied, for promoting the growth of plants.

The lecturer gave several interesting facts to the meeting, showing what success had attended the application of electricity in horticulture. The discussion was taken part in by the chairman (Rev. J. B. Palmer), Mr. S. Senior, Mr. Martin and Mr. Flockton, who afterwards proposed a vote of thanks to the lecturer, which was passed unanimously. The meeting then decided to hold the next meeting in the National School-room, (subject to permission being obtained) when Mr. S. Morton will give an essay on "The Violin."

It was also decided to hold a singing down for April 8th, should be of a singing character to the musical evening held during the latter part of last year, which proved such a success, but as the funds will not again allow of light refreshments being provided for free, it was decided to make a charge to each person.

Mr. S. Morton was appointed auditor in place of Rev. R. E. Pownall, along with Mr. Alfred Richardson, and it was decided to call a special meeting for the consideration of the business of the next Flower Show.

During the evening, Mr. W. G. Francis, an old member, was in the room, and was accorded a very hearty reception.

LECTURE AT STOURTON WESLEYAN CHAPEL.

On Monday evening, by special request Mr. Anderson repeated a lecture given at Stourton, on the life of Philip P. Bliss. There was a very good number present when Mr. Webster opened the meeting. After singing and prayer, Mr. G. H. Child was introduced as chairman, and Mr. Anderson gave a very interesting account of the life of Philip P. Bliss, who was a very successful evangelist, and a very successful composer of hymns. Mr. Anderson said that he had been very much interested in the life of Philip P. Bliss, and that he had been very much interested in the life of Philip P. Bliss, and that he had been very much interested in the life of Philip P. Bliss.

THWAITE GATE CLARENCE V. WOODHOUSE HILL JUNIORS.

Played at Stourton, on Saturday, some Thwaite Gate 4 goals, 2 runs, to nil. The following scored for Thwaite Gate: W. Wessells 13, J. Wessells, W. Goodman and A. Taylor. Albert Lunn scored goal.

ROTHWELL V. PONTFRAC.

The return match was played at Pontfract between teams representing the above clubs on Saturday last. The visitors were only poorly represented, and at the conclusion of the game were defeated by three goals to one goal. The only points registered by Rothwell, was scored by Harrison.

ROTHWELL V. LEEDS CLERGY.

A mid-week encounter was arranged between the above clubs, and played at Rothwell yesterday. The home team having won the match, choose to play at home, with the exception of the wind, which was in the Park goal. Rothwell soon commenced to exhibit their superiority over their opponents, when T. Taylor scored a goal in the first half. The game was then a very close one, but Rothwell came out of the ordeal, easy winners by 4 goals to Leeds Clergy nil.

ROTHWELL 2ND V. OULTON.

A match between the above was played at Rothwell, on Saturday last, in a victory for Oulton, who scored three goals to one.

COMING EVENTS.

TO-MORROW'S FOOTBALL MATCHES.

At Rothwell.—Thwaite Gate v. Woodhouse Hill Juniors. 3.30 p.m.

At Stourton.—Thwaite Gate v. Woodhouse Hill Juniors. 3.30 p.m.

At Stourton.—Thwaite Gate v. Woodhouse Hill Juniors. 3.30 p.m.

FOOTBALL.

ROTHWELL V. LEEDS INSTITUTE.

The Rothwell team journeyed to Leeds to play the Institute in the second qualifying round of the Yorkshire Challenge Cup Competition. Considerable interest was manifested in the game, there being at least 150 supporters of the Rothwell side who paid a visit to Leeds to witness the encounter.

Rothwell were the first to attack, and played with the wind in their favour. Leeds kicked the ball into the Rothwell half, and the Rothwell players were very active in the defence.

On the game being re-commenced, Rothwell were the first to attack, and played with the wind in their favour. Leeds kicked the ball into the Rothwell half, and the Rothwell players were very active in the defence.

ROTHWELL WORKING MEN'S CLUB ANNUAL MEETING.

In connection with the above organisation, the annual general meeting was held at the Club house on Monday evening last. There were about 30 members present, and the following business was transacted:—The report of the committee for the year ending 31st Dec. 1892, was read and approved. The report was of a very encouraging nature; the Club has a membership of about 50, while the expenditure amounted to £21 10s. 1d. There was a balance of £23 10s. 1d. The committee for the year ending 31st Dec. 1893, was elected as follows:—President, Rev. J. B. Palmer; Secretary, Mr. W. Bodley; Treasurer, Mr. Walter Wormald; Librarian, Mr. T. Bowley; and Committee members, Mr. S. Harris, Mr. A. Sanderson, Mr. W. R. Lewis, Mr. H. Harrison, Mr. Dobson, T. Steiner, H. Firth, W. Wormald, and J. Verry.

INSPECTION OF MINES BY WORKMEN.

To the Editor of the Rothwell Times.

Dear Sir,

MILNARD T. FROTHKIN, Esq.

Through a misunderstanding the report of this visit did not appear at the time of inspection as the other reports; we, the undersigned, have been very much interested in the visit.

JAMES WOOD, Workmen's Representative.

STOURTON PRIMITIVES.

On Thursday evening, a well-attended tea and entertainment were held in the Primitive Chapel, Stourton.

Songs were given by Messrs. C. Archdale and W. Rogers, and the choir, consisting of Messrs. C. Archdale, W. Rogers, J. W. M. Malt, Walter F. C. Malt and Mr. A. Burrell. Two dialogues were also rendered; one by Mr. C. Archdale and Mr. W. Rogers, and the other by Mr. C. Archdale and Mr. W. Rogers.

The choir also was in attendance, and rendered three choruses. The proceeds are to be devoted towards the Chapel funds.

CONCERT AT LOFHOUSE.

On Saturday night last, the Lofhouse Wesleyan School-room was packed on the occasion of a concert given by the Co-operative Music Society, Mr. S. Harris was the conductor, and solos were rendered by Miss E. Peake, Miss L. Brock, Mr. Haigh and Mr. Wormald. Address was also delivered by Mr. C. G. Green (chairman) and Mr. J. Hall.

WAKEFIELD CASES.

At the West Riding Court House, Wakefield, on Monday, Tom Longley and Joe Whittetters, miners, were charged with stealing a quantity of coal by lighting, on Saturday, the 4th inst. Evidence was given by P. C. Walsh; Longley was fined 5s. and 10s. for costs; Whittetters having a like sum to pay for expenses, and a fine of 3s. 6d.

John Jackson (alias Taddy), and John Mangham, were charged with stealing a quantity of coal by lighting, on Saturday, the 4th inst. Evidence was given by P. C. Walsh; Jackson was fined 5s. and 10s. for costs

THE ROTHWELL SCHOOL BOARD invite Tenders for alterations of galleries in the Boys' and Girls' Class-rooms, Stourton school. Specifications may be seen at Mr. Nicholson's on Saturday. Tenders (addressed) to reach me by Wednesday morning next.

A. MARSHALL,
Clerk to the Board.

THE ROTHWELL LOCAL BOARD invite Tenders for the leading of the following Road material, viz.:—800 Tons of Granite from Rothwell High Slings on to the Leeds and Wakefield and Leeds and Barnsley Main Roads; 700 Tons of Granite from Stanley Station on to the Wakefield and Barnsley Main Roads; 1700 Tons of Granite from Robin Hood Slings on to the Leeds, Carlton and Thorpe Main Roads; 800 Tons of Dross from Rothwell Station on to 800 Tons of Limestone from Rothwell Station on to the Leeds, Louthouse and Carlton Highways.

For particulars apply to the Surveyor, Mr. Greenwood.

Tenders to be sent to the undersigned not later than Tuesday, the 4th April next.

Lowest or any tender not necessarily accepted.

SAM. HARGREAVES,
March 24th 1893.
Acting Clerk.

APPOINTMENT OF A COLLECTOR.—Mr. J. Oliver, pursuant to notice, proposed that Mr. B. Marshall, be appointed collector for the new district, at a salary of £45 per annum.

Mr. J. Armitage seconded, and several members spoke of Mr. Marshall as being a very good collector, and capable of carrying out his duties as an engineer.

Mr. J. Hargreaves said at last meeting he had opposed the appointment upon principle. No Committee had a right to appoint any permanent officer without bringing the matter before the Board. Each member who was elected ought to have notice when any appointment was to be made, and because this notice had not been given he opposed the appointment being made at last meeting.

LOST.
TEN SHILLINGS REWARD.—Lost in Carlton, on Monday, March 21st, 6 months old Fawn terrier bitch, black patch over one eye and on back; name on collar, "Bess, Hillary Place." Above reward to anyone bringing same to Dr. James Oulton.

GOOD FRIDAY.
As the Rothwell Times will be published on Thursday next week, we would urge our readers to send in News and Advertisements not later than Tuesday evening.

ROTHWELL LOCAL BOARD MEETING.

The usual meeting of the above Board was held on Wednesday night, present:—Messrs. W. Hargreaves (chairman), J. Hargreaves, Walter Hargreaves, C. Armitage, J. Oliver, T. Oliver, G. Lockwood, T. Hargreaves, H. P. Newcome, J. Armitage, F. E. Middleton, J. Sted, W. Sykes, with the clerk (Mr. S. Hargreaves), medical officer (Dr. Stevenson), collector (Mr. Marshall), and surveyor (Mr. Greenwood).

Mr. Oliver:—The minutes of the previous meeting were read and confirmed.

At a meeting of the Highways Committee it was decided that the Clerk inform Messrs. Carter, Ramond and Carter, solicitors to the Hunslet Railway Co., that the Board cannot allow the closure respecting the width of road to be left on the Leeds and Wakefield road. It was also agreed that the workmen employed on the roads shall work the following hours:—commence at 7 o'clock, have an hour for dinner, and finish at five o'clock at night:—Saturdays commence at 7 o'clock and finish at two.

Before the minutes of the Highways Committee were passed, Mr. Lockwood said he was in favour of the workmen ceasing work at one o'clock on Saturdays.

A letter had been received from the Great Northern Railway Company, advising to the Clerk's letter re-repairs near their new bridge at Thorpe, the company intimating that they also were putting on a bridge, and will complete the new road satisfactorily.

WATER SUPPLY.—The Clerk read a letter from the Wakefield Sanitary Authority, re the water supply to Louthouse and Carlton district, the Board having previously asked for a supply of water from the district. The Authority is now paying attention to the matter, and asked the Board, seeing that it is impossible to fix terms at present, if they would agree to pay at the price per thousand gallons, of what may hereafter be fixed, or in the event of no arrangement being come to, to pay upon the same terms as previously agreed on by the Louthouse township.

Mr. T. Oliver:—"It is only a question of half-an-hour."

Mr. Oliver thought it would be better to work through without any time for lunch, and give up at half-past twelve.

The minutes of the Committee were eventually confirmed, Mr. Sted voting against.

A special meeting of the Board had been held, at which the Clerk's resignation was accepted, on the motion of Messrs. J. Hargreaves and Lockwood. It was agreed to advertise for a successor to Mr. S. Hargreaves, at a salary of £70 per annum, the Board deciding that it should be left open, to any suitors or any other gentlemen to make application.

HEALTH REPORT.—The medical officer, in presenting his monthly report, stated that the figures submitted only related to the old district, as he was not able as yet to give a return of the births and deaths in the newly-added area, as such were only returned once per quarter. The number of births registered in the Rothwell portion of the district was 16 (9 males and 7 females), and 8 deaths (3 males and 5 females); the causes of death were, two each from bronchitis, convulsions, and apoplexy, and one each from phthisis and scarlet fever. The Doctor also reported another case of scarlet fever occurring at Stourton. Several nuisances were also spoken of, particularly that which exists on the premises lately occupied by Mr. T. Barrett, in Commercial Street. This nuisance had previously been complained of, and instead of getting better it was daily growing worse. There were three houses without a proper ashpit, the privy was not in proper order, there was an open cesspool and other irregularities.

Upon the suggestion of the Chairman, it was agreed that the Sanitary and Sewage Committee inspect these nuisances at an early date.

Referring to the Tiled Houses, the medical officer remarked that the house which had been previously spoken of during the time of the old Board, had been occupied for some time, but was now occupied, the surveyor informing him that the house was in a habitable condition.

DRAINAGE.—Mr. Walter Hargreaves, according to notice, proposed that a scheme of drainage for Louthouse, Carlton and Thorpe, be devised and proceeded with; he only moved the resolution so that the Sanitary and Sewage Committee would have some ground to move on.

Mr. Newcome asked if they had got the plans yet from Mr. Masie; Mr. Lockwood also enquired if Mr. Hargreaves was asking for power to engage an engineer.

Mr. Walter Hargreaves said that these matters would be taken up afterwards.

The resolution was seconded by Mr. Thos. Hargreaves, supported by Mr. T. Oliver, and unanimously carried.

APPOINTMENT OF A COLLECTOR.—Mr. J. Oliver, pursuant to notice, proposed that Mr. B. Marshall, be appointed collector for the new district, at a salary of £45 per annum.

Mr. J. Armitage seconded, and several members spoke of Mr. Marshall as being a very good collector, and capable of carrying out his duties as an engineer.

Mr. J. Hargreaves said at last meeting he had opposed the appointment upon principle. No Committee had a right to appoint any permanent officer without bringing the matter before the Board. Each member who was elected ought to have notice when any appointment was to be made, and because this notice had not been given he opposed the appointment being made at last meeting.

LOST.
TEN SHILLINGS REWARD.—Lost in Carlton, on Monday, March 21st, 6 months old Fawn terrier bitch, black patch over one eye and on back; name on collar, "Bess, Hillary Place." Above reward to anyone bringing same to Dr. James Oulton.

IN MEMORIAM.
RAVENSTON.—On Thursday, March 23rd, at Oulton Paragon, the wife of the Rev. A. G. Ravenston, of a son.

IN MEMORIAM.
In loving memory of our dear father, James Smith, of Rothwell, who died March 25th, 1892.
"Not lost, but gone before."

ADVICE.—In loving remembrance of my dear aunt, Francis Ann, of Oulton, who died March 21st, 1893.
"Though lost to sight, to memory dear."

MARSHALL.—In loving memory of Francis Andrew (Frank) Marshall, who died March 22nd, 1893.
"He shall gather the lamb with his arm."

GOOD FRIDAY.
As the Rothwell Times will be published on Thursday next week, we would urge our readers to send in News and Advertisements not later than Tuesday evening.

ROTHWELL LOCAL BOARD MEETING.

The usual meeting of the above Board was held on Wednesday night, present:—Messrs. W. Hargreaves (chairman), J. Hargreaves, Walter Hargreaves, C. Armitage, J. Oliver, T. Oliver, G. Lockwood, T. Hargreaves, H. P. Newcome, J. Armitage, F. E. Middleton, J. Sted, W. Sykes, with the clerk (Mr. S. Hargreaves), medical officer (Dr. Stevenson), collector (Mr. Marshall), and surveyor (Mr. Greenwood).

Mr. Oliver:—The minutes of the previous meeting were read and confirmed.

At a meeting of the Highways Committee it was decided that the Clerk inform Messrs. Carter, Ramond and Carter, solicitors to the Hunslet Railway Co., that the Board cannot allow the closure respecting the width of road to be left on the Leeds and Wakefield road. It was also agreed that the workmen employed on the roads shall work the following hours:—commence at 7 o'clock, have an hour for dinner, and finish at five o'clock at night:—Saturdays commence at 7 o'clock and finish at two.

Before the minutes of the Highways Committee were passed, Mr. Lockwood said he was in favour of the workmen ceasing work at one o'clock on Saturdays.

A letter had been received from the Great Northern Railway Company, advising to the Clerk's letter re-repairs near their new bridge at Thorpe, the company intimating that they also were putting on a bridge, and will complete the new road satisfactorily.

WATER SUPPLY.—The Clerk read a letter from the Wakefield Sanitary Authority, re the water supply to Louthouse and Carlton district, the Board having previously asked for a supply of water from the district. The Authority is now paying attention to the matter, and asked the Board, seeing that it is impossible to fix terms at present, if they would agree to pay at the price per thousand gallons, of what may hereafter be fixed, or in the event of no arrangement being come to, to pay upon the same terms as previously agreed on by the Louthouse township.

They would agree to pay at the price per thousand gallons, of what may hereafter be fixed, or in the event of no arrangement being come to, to pay upon the same terms as previously agreed on by the Louthouse township.

These terms the Board consented to.

ROTHWELL GREEN WATER SUPPLY.—The following letter from Mr. Cheetham was read, viz. his characteristic originality and plain-speaking provoking much laughter:—

Gentlemen,

I am anxious to know if you have sent the water question into arbitration. Why not let's have it in the proper way? It's as long as there were no limit to our patience. I wonder if it was with us to do as the women of Rothwell High did, come in a body number. It's something very promising to know that it only rests with you, for it's no money question, it's a show duty that you got to do. I must put a restraint on my writing, hoping you'll understand and do your duty.

Yours truly,
A. CHEETHAM.
Patrick Green.

It appears from subsequent remarks by the Clerk, that the agreement with the Wakefield Authority is now ready, and the Waterworks Committee were asked to hasten the completion of the scheme as soon as possible.

THE NEW BOARD OFFICERS.—A letter was read from Messrs. Ward and Sons relative to the above, stating that they are prepared to sell the land in Marsh Street for £475, they also undertake to build the division wall, the wall hereafter to remain their property; ten per cent of the purchase money is also to be paid on or before March 23rd, 1893, and five per cent on the remaining balance. After some discussion, the Board decided that the purchase be made upon the same terms as previously agreed upon by the Board.

MISCELLANEOUS.—Mr. J. A. Steel, in answer to the Board's advertisement, offered to purchase the land in Gillet Lane for £8.

This is the only offer made, and several of the members considered the price ridiculously low.

Mr. Newcome suggested the advisability of erecting on this spare land, a public slaughter-house, and arrangements were made for the Sanitary and Sewage Committee visiting the spot and considering the suggestion.

Mr. J. A. Hargreaves proposed that the Board take steps for securing payment of half of the Medical Officer's salary from the Local Government Board.

Arrangements had been made for Mr. Binns interviewing the Board relative to the proposed buildings at Thorpe.

A telegram from this gentleman was received, stating that he had misaid his train.

As Mr. Binns has not yet submitted any plans, the Board could not take any further steps in the matter.

HUNSLY RURAL SANITARY AUTHORITY.

The usual meeting of the above Board was held on Wednesday afternoon, present: Mr. J. Gravelly, (chairman) Rev. G. M. Platt, Mr. Grosvenor, Mr. Smith, with the clerk (Mr. Schofield) and the medical officer (Dr. Buck).

HALTON WATER SUPPLY.—The Clerk and Mr. Smith, according to arrangement at last meeting, had had an interview with Mr. J. H. Rhodes, engineer, respecting the above water supply, and a letter was read at last meeting, in which Mr. Rhodes brings down his estimate for the scheme from £2188 to £3000.

The Authority thought the first estimate excessive, but Mr. Rhodes, in reducing the size of the pipes, and thus bringing down the estimate, relieves himself from the responsibility of any failure in the scheme, on account of this alteration.

The Chairman remarked that he would not like the pipes to be too small.

After some discussion on Mr. Rhodes' letter, the amended plans were approved, and it was proposed by Mr. Grosvenor, seconded by Mr. Smith, and agreed, that application be made to the Local Government Board for power to borrow a sum not exceeding £3800, for the expenses of the Halton Water Supply.

MEDICAL OFFICER'S ANNUAL REPORT.—Dr. Buck, the medical officer, submitted the annual report on the health of the district from which it appears there have been 227 births (127 males and 100 females), two more than during the preceding year, the respective percentages for the two years being 30.8 and 30.7 per thousand. The deaths number 78 (47 males and 31 females) 12.4 per thousand, a remarkably low figure, and highly satisfactory to the Authority, it being the lowest death rate known during the present decade. Two deaths were of persons not belonging to the district. The mortality of infants, as compared with the preceding year, was very favourable. Only one case of diarrhoea had been registered, and there had been 5 deaths from zymotic diseases. In conclusion, the report goes on to say that "the Authority are to be congratulated upon the high birth rate in proportion to deaths; the unusually low death rate; the diminished infant mortality; the satisfactory condition of the small-pox outbreak; the steps taken to bring about a reliable supply of water at Templenew and Middleton, and the absence of any necessity for appeal to the law for the abatement of nuisances."

The deputation appointed to visit and inspect the Sewage Outfall Works had not been down to Lemonroyd, the day set apart being most unfavourable.

The tender of Mr. S. Banks for the grass and manure at Lemonroyd was accepted, £5 being the amount as against £8 last year.

KEVIN'S COGS.—Gentlemen and Countrymen:—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the new method of preparing pure Food, I have obtained my breakfast table with a delicately flavoured beverage which may save many heavy doctors' bills. It is the foundation of all health and vitality, and it is the only food which can be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack us at any moment. We may escape many a fatal ailment by drinking this pure Food. **"Gill's Food."**—Gentlemen and Countrymen:—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the new method of preparing pure Food, I have obtained my breakfast table with a delicately flavoured beverage which may save many heavy doctors' bills. ROTHWELL LOCAL BOARD MEETING.

The fortnightly meeting of the above
Board was held on Wednesday night, present:
Messrs. W. Hargreaves (chairman), J.
Armistead, G. Lockwood, W. Hargreaves,
H. J. Martin, J. E. Hargreaves, J. Turner,
J. Stodd, Thos. Hargreaves, F. Middleton, J.
Hargreaves, and the clerk (Mr. S. Har-
greaves), the recently-appointed clerk (Mr.
Winbush), collector (Mr. Marshall), and
surveyor (Mr. Greenwood).

MINUTES.—The minutes of the previous
meeting were read and confirmed.

From the minutes of the Sanitary and
Sewage Committee, we learn that it was
agreed to serve notice upon several property
owners in the district, to abate nuisances
with regard to ashpits and drains. The
Committee had also prepared an estimate of
probable expense during the year, for ordi-
nary expenses on sanitation account, amount-
ing to £700.

Mr. Turner said he did not know that it
was usual for the Committee to prepare such
an estimate.

The Chairman of the Committee explained
that this was only an estimate of probable

cost prepared for the guidance of the Finance
Committee in preparing the estimate for the
new rate. The Committee's minutes were
approved.

A meeting of the Water Works Committee
had been held, when the draft agreement
with the Wakefield Rural Sanitary Authority
was considered; the further consideration
was taken in Committee.

ESTIMATES FOR ROAD MATERIAL.—The
consideration of the estimates for the supply
of road material occupied considerable time,
it being finally decided to accept the follow-
ing tenders:—Thurfield Granite Co. for
3,200 tons 10s. 6d. per ton. Mr. Delaney
of Horton Limestone Works, 850 tons of
limestone at 6s. 3d. per ton. Mr. Lynch,
Hunslet, 800 tons black stone to be led into
Hoyds lane at 7s. per ton. It was also
agreed to purchase a quantity of stone at 4s.
per ton, from the Wakefield White Iron Co.
for use on the Louthouse "other" roads.

In discussing the above tenders, Mr.
Turner advocated the use of limestone on all
the roads, instead of such costly material as
granite. This he had urged upon the Roth-
well Local Board for half a dozen years, but
he had not got the Board to adopt his idea,
nor even to give it a trial. The Board was
about to purchase over three thousand tons
of granite, and if the cheaper material could
be used it would be a saving of something
like five hundred pounds. He would not
particularly urge it upon the Board at the
present time, but for the opinion of a
practical engineer, who says that it is worth-
less covering road material with road
cinders and ashes, as it made the roads dusty
in summer and dirty in winter. He, Mr.
Turner, would suggest that the Board should
try their methods of road making, by using
cheaper material and binding it together with
new material, such as chippings and a little
lime. He knew some districts in Bradford
where the material used only cost 6s. per
ton, and the roads were excellent condition.
He supposed it would be more than he could
hope for the Board to come purchasing
granite, but they might try some few yards
on the methods which he had recommended.

The Chairman said he had it on the
authority of the County Surveyor as to what
would be the consequence, if anything but
granite was used upon the main roads.

Mr. Thos. Oliver, chairman of the High-
way Committee, said he would be in favour
of giving Mr. Turner's system a fair trial, by
laying down at least 100 yards according to
his suggestions. The matter was left with
the Highway Committee.

TENDERS FOR LAYING.—Mr. W. Fakin's
tender for the leading of 850 tons of material
on to the Leeds and Barnsley and Leeds
and Wakefield Roads, was accepted, the
figure being 1s. 3d. per ton.

For the leading on to the Wakefield and
Aberford Roads, Messrs. T. Baine and J.
Cooper tendered at 1s. per ton, and were
accepted at that figure.

For the 1700 tons leading from Robin
Hood Sidings to where required on the Louth-
house, Carlton and Thorpe roads, the follow-
ing tenders were received:—Mr. T. Gunn,
Louthouse, 11d. per ton. Mr. T. Gunn,
Thorpe, 11d. per ton. Mr. T. Gunn,
Carlton, 10d. per ton. The tender of
Mr. W. Brown at 1s. 1d. per ton was
accepted for the leading on to the Roth-
well Station on to the Rothwell road.

NEW CAUSEWAYS.—Mr. Newsome proposed
that it be an instruction to the Highway
Committee to lay down 100 yards or more of
new causeway in the Board's district this
year. He thought that the worst piece of
causeway was in the lower end of the Board's
district, and he thought it would be a great
improvement to the Board's district to have
a new causeway laid down there.

Mr. Turner seconded the resolution, he
being strongly in favour of laying down
better causeways.

Mr. Newsome thought that 400 yards
would be a better figure, and the Highway
Committee had considered this question, and
thought it would be hardly fair not to do a
little bit of flagging throughout the district.
He proposed that 400 yards of new causeway
be laid throughout the whole district.

Mr. Lockwood seconded the amendment.
Mr. Newsome thought that 400 yards
would not be very much, and the whole
question might very well be left with the
Highway Committee.

Mr. J. Armistead said there was a piece
of causeway between the Board School and
Middlebourne, that needed repairing.

Mr. Oliver also said that the Highway
Committee had this under their consideration
and also the causeway on the other side of
the mill. The question was left with the
Committee.

NEW FOOTBRIDGE.—The Clerk said that
in reply to his letter to Mr. Farrer respecting
the request for a bridge over the beck at
Windmill Field, Mr. Farrer had stated that
he had made inquiry, and was informed that
there had not been a bridge there before.
Several of the members said they remembered
a bridge being there themselves, and it was
agreed to point this out to Mr. Farrer, and
renew the request.

THE MEDICAL OFFICER.—Mr. J. Har-
greaves proposed that the Board ask the
Local Government Board for half the salary
of the Medical Officer, and that his salary
be fixed at £70 per year.

Mr. J. Armistead thought that the
question of the Medical Officer's salary
should be referred to Committee. £70 he
believed, was much more in proportion than
the Wakefield Rural Sanitary Authority
were paying. It should be left with a Com-
mittee to get some facts before them.

Mr. Walter Hargreaves believed that at
Wakefield, the salary included several
appointments.

Mr. Newsome seconded the resolution.

Mr. J. Armistead proposed as an amend-
ment, that a Committee be appointed to go
into the question of salary.

Mr. Lockwood seconded.

The amendment after some discussion was
carried, and the matter left in the hands of
the Sanitary and Sewage Committee.

The Clerk wrote to the Local Govern-
ment Board, asking if they would
sanction the payment of the charges for
attendance on small pox cases, by Dr.
Stevenson, the Board's Medical Officer.

A reply had been received asking under
what circumstances Dr. Stevenson had
attended the patient. It was no part of the

Medical Officer's duties, as such, to attend
the cases in the Hospital.

The Chairman said this information
cleared up a point upon which the Board
had been uncertain for some time.

On the motion of Mr. J. Hargreaves,
seconded by Mr. Turner, it was agreed that
Dr. Stevenson be appointed temporary
medical officer at the same salary as may
be decided upon for the permanent officer.

THE NEW ROAD OFFICER.—Mr. Geo.
Armistead proposed that a cheque for 10 per
cent of the purchase money (£2475) be
granted Messrs. Ward and Son, for the land
in Marsh Street.

Mr. Middleton seconded.
Mr. Thos. Oliver moved that was the inten-
tion of the Board in purchasing this land.
It had been made a great point during the
election that the Board was going in for
very unreasonable extravagance, in building
the new Board offices.

THE READY MONEY STORES.

ROTHWELL LOCAL BOARD MEETING.

The fortnightly meeting of the above Board was held on Wednesday evening, present:—Messrs. Wm. Hargreaves (chairman), J. Hargreaves, E. Oliver, J. Turner, T. Hargreaves, H. P. Newnham, E. Lockwood, J. Armistead, J. Oliver, G. Armistead, W. Sykes, J. Stead, and the clerk (Mr. Wimbush), medical officer (Dr. Stevenson), and surgeon (Mr. Greenwood).

Mrs. Turner.—The minutes of the previous meeting were read and confirmed.

A meeting of the Sanitary, Sewage and Building Committees had been held, at which it was recommended that Mr. T. H. Richardson be appointed engineer to carry out the drainage scheme for Lothhouse and Carlton.

It was also decided to advertise for an Inspector of Nuisances, Food and Drugs, and Cow Sheds, at a salary of £80 per annum, the same officer to carry out the duty of Water Works Inspector, and Inspector of Canal Boats at an additional salary of £10 per annum.

The Committee also decided to advertise for a Medical Officer for a term of five years, at a salary of £60 per annum.

It was also agreed that a letter be written to Mr. J. Newnham, of Woodlford, calling upon him to discontinue forthwith his building operations on Holmesfield, until the plans of such buildings have been approved by the Board; and that in default of not so doing, proceedings would be at once taken against him.

It was agreed that a letter be written to Mr. B. B. Bradford, requesting him not to encroach beyond his boundary line in Fall Lane. The Committee would also, if desired, sell him a strip of land in Dolphin Lane at 2s. per yard, to enable him to carry out his plans, which, with sections of the drainage of the Board's district, be not entertained.

The Committee also decided that no further negotiations be entered into with the Wakefield Authority, in relation to the drainage of houses at Thorpe, and that the suggestion made by that Authority for the re-transfer to them of the Thorpe portion of the Board's district, be not entertained.

At a second meeting of the above Committee, it was decided that Mr. B. B. Bradford be allowed to build according to his plans, as now delivered, so far as regards the building line only, provided that at no point shall any

street (including carways) be narrower than 30 feet.

MEDICAL OFFICER'S REPORT.—Dr. Stevenson reported that in the Board's old district, there had been during the past four weeks, 18 births (9 males and 9 females) and 6 deaths (5 males and 1 female). The death rate was abnormally low, three of the deaths being in infants, one over 65 years of age, and two deaths by accident, in which case inquests had been held. The Medical Officer was very sorry to report that in the new district there had been no less than five cases of infectious disease, one case of diphtheria, and four cases of scarlet fever. The case of diphtheria had occurred in a child in the case of scarlet fever (North Field), the Medical Officer attributed the disease to the faulty construction of the sink pipe, which was not trapped, and the sewage was finding its way into the cellar.

In this case, the Board decided that a letter be written to the owner, asking that the drain be properly trapped and cleaned.

ANOTHER CASE OF OVERCROWDING.—The Medical Officer reported a case of overcrowding at Lothhouse, in the house occupied by Mr. E. Ward, near the Pinfold. Ward has lived in this house for the past twelve years. The house consists of kitchen and one bedroom. There is no fire-place in the sleeping room, which holds three beds. The family consists of father and mother, and 8 children, one of the sons being 19 years of age, another 17, and one of the daughters 15 years of age. Three of the sons are working. The family of 10 occupy one bedroom.

Mr. J. Hargreaves:—"It is a question of health, and morality as well."

Mr. Newnham proposed that notice be given to the nuisance at once.

Mr. J. A. Hargreaves seconded, and the resolution was carried unanimously.

IN COMMITTEE.—The Board went into Committee on the Infectious Diseases Hospital question, and no further public business was taken up, the meeting being adjourned until to-night.

Mr. J. A. Hargreaves seconded, and the resolution was carried unanimously.

township. This £3,000 to be repayable in 30 years would cost £163 3s 6d per annum.

On the other hand, the Authority utilize Mrs. Ingram's plan, at a yearly rent, this, along with the interest, on the amount to be borrowed for pipes, and payment to Leeds, would bring up the annual cost to £194 3s 9d, or £30 more than the proposal for new works, with the additional advantage that the pipes in the latter case will remain the property of the Authority.

A series of lengthy and important letters were then read, between Messrs. Dibb & Co. (the solicitors to Mrs. Maynell Ingram) and the Solicitor and Clerk to the Authority, showing how matters had led up to the appeal already referred to, and which now stands adjourned until after the Local Government Inquiry.

NEW LOAN.—In reply to the Authority's application for powers to borrow £3500 to carry out the proposed water scheme for the Lothhouse, the Local Government Board state that an Inquiry will be held at the earliest possible date. It was then asked whether, notwithstanding this letter, the Clerk should again urge the Department to hold this Inquiry as early as possible.

On the motion of the Chairman, seconded by Mr. Groves, it was agreed that Mr. Enay, solicitor, be instructed to prepare evidence for the Inquiry. Mr. Groves suggested that Mr. Schofield, their clerk, was fully competent to do this work; it was thought, however, that he would be better employed in preparing such information as was necessary, and in giving assistance during the hearing of the case.

CONTRACT WITH LEEDS CORPORATION.—The Clerk read a draft of the proposed agreement with the Corporation for the supply of water to Halton, the main items of which comprise the payment of £800 towards the cost of laying pipes, &c., to the boundary of the city, an undertaking to pay for at least 10,000 gallons per day, and sundry conditions as to the custody of meters, pipes, &c. The draft is now in the hands of the Town Clerk for his perusal and approval.

SAVING BRASS TACKS.—Dr. Buck presented a report on the condition of a house in Oulton, in which the well-known character, Sarah Harnard, has lived for some years. He pronounces the house altogether uninhabitable and most filthy. Letters were read in which Mr. Farrer expresses his inability to get rid of her, except by ejectment, from which he shrinks, and asks the Authority to try their hand. The Clerk, however, stated that it was not in the province of the Authority to force her into the Workhouse, so long as she is sheltered. And so the matter ended. Mr. Groves, in declining to get rid of her, except by ejectment, and could "beast her."

TELL TALK.—The following list of attendances was read. There have been 28 meetings called, of which Mr. Groves has attended all, Mr. Platt 30, Mr. Groveson 18, Mr. Smith 18, Mr. Watkinson 4. Mr. Hargreaves was summoned to 9, of which he attended 1, and Mr. Jewson was present at 4, out of a possible 6.

THE HULL DOCKERS' STRIKE.
MASS MEETING AT ROTHWELL.

Last Friday night, the working men of Rothwell, who have evinced considerable interest in the Dockers' Strike at Hull, organized an open-air meeting, and with the assistance of the united hands of the town, gathered a large crowd at the Cross, where a very successful and enthusiastic meeting was held. Mr. Reuben Wade presided, and addressed the meeting at some length.

Mr. J. Smith proposed, and Mr. A. B. seconded, the following resolution:—"That this meeting condemn the action of the authorities in sending the military and extra police as an intimidation to the Hull Dockers, during their present struggle against the Shipping Federation, and Messrs. T. Wilson, Son and Co., who are trying to put in their power to smother the organisation of Dockers and general Federation Union."

The resolution was carried, and was followed by another proposed by Mr. W. W. Harrison, and seconded by Mr. Jos. Wade, which was as follows:—"That this meeting, recognising the fact that nine thousand dockers, all of whom are Unionists, having a just cause in hand, pledges itself to do all in its power to financially support them by some means, the scheme to be determined at this meeting."

The resolution having been carried, it was decided that collection be made at the pits in the district and in the town, the result of which, we learn realised £9 9s, which has been forwarded to and gratefully acknowledged by Alderman Ben Fillet, the Dockers' representative.

RE-OPENING OF ROTHWELL PRIMITIVE CHAPEL.

The much-needed painting and cleaning of the above place of worship has just been completed, the chapel having been reopened for divine worship last Sunday, after being closed for several weeks. The work of painting and decorating has been very satisfactorily carried out by Messrs. Wood and Sons, of Hunslat, the estimated cost being about £200.

THE READY MONEY STORES.

CATARRE

RAT FEVER, CATARRH, DEAFNESS

A NEW HOME TREATMENT.

Readers are not generally aware that these diseases

are contagious, or that they are due to the

presence of living parasites in the lining membrane of

the nose and catarrh of the throat.

Microscopic research, however, has proved this to

be a fact, and the result is that a simple remedy has

been formulated whereby these distressing diseases

are rapidly and permanently cured by a few simple

applications made at home by the patient once in two

weeks. A pamphlet explaining this new treatment is

sent on receipt of 3d stamp by A. HUTTON DIXON,

43 & 45, East Bloor St., Toronto, Canada. Scientific

Address.

Friday, June 9, 1893.

WESLEYAN FANCY DRESS BAZAAR.

The scheme for the enlargement of the Rothwell Wesleyan Sunday School has already been before the public for some time, and in order to raise funds towards the expense, the members of the Ladies' Sewing Committee and the Teachers of the Sunday School have long been preparing for a large Bazaar, which was opened in the Mechanics' Hall, on Wednesday last.

The present school was built in 1872, and for some time past, the accommodation has been inadequate. The number of scholars is yearly increasing, and it is becoming more and more difficult to conduct the school under present conditions. In 1890, a plot of land adjoining the present premises was purchased, to provide for the much-needed enlargement of the school. The plan is to erect additional buildings, thus providing a larger Assembly Hall, with extra classrooms, infants' school and ladies' parlour, with heating apparatus and accommodation for cooking. Plans are now under consideration, and the probable expenditure will be something like £500.

The whole of the rooms in the Mechanics' Hall had been taken for the Bazaar, and since the previous Wednesday, the large hall has been occupied with joiners and a band of decorators, who did not finish their arduous task of erecting the stalls, and decorating the hall, until noon on the day of the opening.

Seeing that the proceedings were to be of a novel character, the decorating Committee determined that this part of the work should be in keeping with the fancy dresses of the stall-holders, and carried out their plans most energetically.

On approaching the vicinity of the Mechanics' Hall, it was soon apparent that something of an unusual character was taking place, by the banners fluttering from the windows, whilst over the approach to the entrance, tall, well-dressed ladies, in their bold blue letters, on white ground, with decorations in the shape of bright coloured flags and streamers, with art muslin and ivory as drapery for the uprights.

On entering the hall, the first stall to attract attention was the 'Ladies' No. 1, which was built in the early English style, and something after the pattern of the old White house at Oulton.

The Fanny stall consisted of a light wooden framework, beautifully draped with various tints of art-muslin, and surmounted with a very large Japanese umbrella, from the points of which were suspended a number of lanterns.

Number 2 Ladies' stall was also made attractive by one of these huge umbrellas, arranged in different style to its neighbour, with a large quantity of art-muslin drapery on the surrounding woodwork.

Occupying the far end of the room was the refreshment counter, which towered up almost to the ceiling, the framework being beautifully draped, whilst surmounting the whole was an elaborate trophy of flags, which gave it a still more finished appearance.

The young ladies' occupied a miniature castle with tower and embellishments, marked out as in large blocks of stone, with a flag flying from the tower flagstaff, and suitable drapery around the openings in the front of the castle left for the exhibition of a large quantity of useful and fancy wares.

The children exposed their collection of goods under a large umbrella, and did a fair trade in sweets and fancy wares.

One of the greatest novelties in the shape of stalls and the most difficult to construct, was that adopted by the young men, who represented a ship's crew, and offered their saleable articles from a well-built full-rigged ship's smack or yacht, christened after the name of the founder of Methodism. The ships exceedingly well designed and suitably coloured, and must have cost a small degree of careful work on the part of Mr. Wm. Young (of Messrs. Senor & Sons), who has been responsible for the construction of this very attractive and unique craft.

The flower stall occupied the front of the platform, the plants and flowers adding materially to the appearance of the decorations. Messrs. Clayton & Sons kindly lent, besides other things a bouquet stand, from which the young ladies dispensed 'butter holes' to gentlemen young and old, realising thereby a handsome sum.

The ante-room was prepared round for the accommodation of the stock, which included poultry, pigeons, rabbits, guinea pigs, ducks, and a young goat, which promised the large hall several times during the afternoon. The pens were kindly lent by Mr. C. H. Hutchings, butcher, of Leeds, who thereupon effected a considerable saving in the expenses of this department. The various exhibits were judged by Mr. H. J. Martin, who awarded the first prize to Mr. James Howarth, and the second to Mr. Robert Orm.

The platform was also elaborately decorated, three Japanese umbrellas, covering conspicuous positions, the arch being suitably draped with red and blue art muslin.

whilst scenery representing a road side cottage, occupied the space under the arch.

The opening ceremony took place shortly after two o'clock, when the hymn commenced, 'Praise ye the Lord, his good to raise,' was heartily sung by many local Methodists, there being a very encouraging attendance to join in the opening ceremonial.

Prayer was offered by the Rev. Herbert Nicholls, after which the Rev. Wm. Stewart said that the long-looked for day had at last arrived, after many months of patient working and preparation. He was very glad that in opening the bazaar they met together under a tinge of sadness, on account of recent bereavements that had come upon the church, which was only another proof that in this world sorrow and joy are inseparably blended together. Most of those assembled were familiar with the object of the Bazaar—the enlargement of the Sunday School. The present premises were already insufficient to accommodate the number of children that were sent to them, which fact pointed to the consideration of the Bazaar had in the good intentions of the officers and teachers of the school. More room was needed, but the scheme had not been properly formulated as yet, but it was probable that £800 would be required to clear the whole expense. After looking in vain outside for one or two suitable lady or gentleman to open the Bazaar, the Committee ultimately decided to ask Mr. Senor, of Churchfield, to accept the honour, and he was sure that there was no lady in connection with the Church, that was more worthy than she, being eminent for her generosity and for her anxiety to all the best interests of the Church.

Mrs. Senor, in responding to the invitation to open the Bazaar, said the object of the gathering had already been laid before them, and expressed her pleasure in doing the Bazaar open. (Applause.)

The Rev. Mr. Stewart then announced that Mr. Senor had placed in his hands two five-pound notes. He also stated that their efforts to secure an outsider had not been altogether unsuccessful, as J. Charlesworth, Esq., to whom they applied in the first instance, had sent a personal contribution of £15, and a further contribution of £10 from the firm. (Applause) so that the total contributions amounted to £235.

Mrs. J. Hargreaves then proposed a vote of thanks, in very eulogistic terms, to Mrs. Senor, for her services. The resolution, being ably seconded by Mr. J. Butterick, was carried with hearty applause.

Mr. Senor suitably responded on behalf of his wife, expressing in his remarks, his strong

ROTHWELL LOCAL BOARD

MEETING.

The fortnightly meeting of the above

Board, for the improvement of the Drain, subject to an agreement with the Morley Corporation, for the supply of water to the Board's district.

It was also proposed by Mr. Newsome, seconded by Mr. Sykes and carried, that falling an amicable arrangement, the Clerk be empowered to institute proceedings against the Wakefield Rural Sanitary Authority, to restrain them from cutting off the existing water supply for the Lofthouse, Carlton and Thorpe portion of the Board's district, on the expiration of the 14 days notice, contained in their letter of the 26th inst.

The water rents throughout the whole of the Board's district, were also made payable half-yearly, on the 25th March and the 29th September, instead of quarterly, as has been customary in the Rothwell portion of the Board's district.

At a meeting of the Sanitary and Sewage Committee, it was decided to ask Mr. Wm. Brown for conditions upon which he would allow the Board to erect hospital tents in St. Mary's Bank.

The Water Works Committee had decided to lay water pipes from Law Bones to the junction of the Carlton mains on the Leeds and Wakefield road.

This matter, Mr. Newsome said, the Committee considered urgent, and they had already taken steps in order to have the trench dug and the pipes laid. The tender of Mr. Middleton to supply 600 yards of water pipes at 4s 15s. per ton, had been accepted by the Committee, the pipes to be delivered at Rothwell Haigh sidings.

Mr. Newsome said that Mr. Rymer had been asked to estimate for the digging of the trench, and was prepared to execute the work at 4d per yard, 6 inch deep

YORKSHIRE MINERS' DEMONSTRATION.

The annual miners' demonstration this year, was held at Barnsley, on Monday last, and was again favoured with fine weather.

The contingents from Rothwell and neighbourhood was not as large as in previous years, the miners' trips for the Rothwell High, Robin Hood, and Newmarket Collieries, and the great cricket match at Headingley, no doubt being sufficient reason for the absence of a large number.

The Rothwell Temperance Band journeyed to Barnsley previously, and on Sunday afternoon gave a series of performances. In the evening a similar programme to that of Barnsley. On Monday, they headed the Carlton Main Branch of the Union, in the procession.

Nearly the whole of the 159 lodges into which the Association is divided were represented. It was calculated that out of a membership of 60,000 about 40,000 miners were present, with no fewer than 70 bands of music.

With regard to the association's present position financially, it was stated in the course of the day's proceedings that last year's income was a little over £70,000, which, with the balance in hand, made a total of £101,007—being an increase of £5,700 on the preceding year. The amount paid in consequence of strikes and lock-outs had amounted to £2,541, while the expenses had reached to £2,941, while the amount of death payments was stated to be £24,489. According to the financial statement made, the banking account of the society at the present time, after meeting all claims, amounted to £151,879 7s. 2d. In referring to the financial position of the association, some of the speakers of the union said special stress on the good work that had been accomplished by the Contingent Fund, and on the benefits that were likely to accrue from it. After the lodges had paraded the thoroughfares of the town, with bands and banners, the members of the association assembled in the hall of the Raco Commercial, Sir Charles Dilke, Bart., M.P., was the principal speaker at one, and Mr. Benj. Pickard, M.P., and Mr. R. Woods, M.P., at the other. At the second platform, from which Sir Charles Dilke spoke, the chair was occupied by the Mayor of Barnsley (Dr. Hulton), who, in his opening address, congratulated the miners of Yorkshire on the vastness of the demonstration they had made that day. He also referred in approving terms to the advantages likely to accrue from international congresses of miners.

Mr. William Parrott moved the following resolution:—"That this annual demonstration congratulates the miners of Yorkshire, the Federation of Great Britain, and other miners' associations in this and other countries, at the success of their efforts in establishing an International Miners' Federation. Also the preservation of the 40 per cent. by the Federation of Great Britain, increased volume of trade, and continued high dividends, as exemplified by those declared up to date. This annual demonstration is heartily supported, and the miners' association of members and funds of the association continue to increase, and hereby determine to follow on the same lines in union matters as adopted by the Miners' Federation of Great Britain, and in our opinion such action is the best method of maintaining their rights and of securing their equitable and just rights."

In moving the above motion, the proposer dwelt on the advantages that had been derived from the preservation of the 40 per cent. and at the same time referred to the drawbacks that had been encountered owing to the Northumberland and Durham miners not taking common action with the Federation.

Mr. J. Murray, in seconding, spoke strongly in commendation of the resolution, which was afterwards adopted without opposition.

Mr. D. Burnley moved the second resolution, which was seconded by Mr. J. Walsh. Mr. Burnley supported the resolution, which was afterwards adopted without opposition.

Mr. D. Burnley moved the second resolution, which was seconded by Mr. J. Walsh. Mr. Burnley supported the resolution, which was afterwards adopted without opposition.

The resolution was supported by Sir Charles Dilke, who spoke at some length on the advantages accruing from an Eight Hours Bill, and thanks those members of Parliament who supported the bill on its second reading, and which passed by such a large majority, during the session in the year 1892.

The resolution was supported by Sir Charles Dilke, who spoke at some length on the advantages accruing from an Eight Hours Bill, and thanks those members of Parliament who supported the bill on its second reading, and which passed by such a large majority, during the session in the year 1892.

The resolution was then carried.

At the other platform, at which Mr. Pickard presided, similar resolutions were proposed and adopted.

The proceedings terminated with the customary vote of the Association (Mr. E. Cowry), was unable to be present owing to indisposition.

The last NIGHT-CAP—Have your sheets washed with Hudson's Soap, and they will always be sweet as roses from an antiseptic. There is no disagreeable smell, no objectionable after-scent. A pure dry skin in fine powder.

As a safe, permanent and warranted cure of Piles, Hemorrhoids, Bad Legs, Skin and Blood Diseases, and all other ailments, see the advertisement of CLARK'S WOUND-FAMED BLOOD MIXTURE—Sold by Chemists everywhere.

WESLEYAN QUARTERLY MEETING.

The quarterly meeting of the ministers and officials connected with the Rothwell Wesleyan Circuit, was held on Monday evening, at seven o'clock, the friends having previously taken tea together at the Rev. Wm. Scott's residence, and there were also present the Rev. Herbert Nicholls, Mr. Hargreaves and Mr. Jos. Marden (circuit stewards), and a good attendance of other gentlemen from all parts of the circuit.

After devotional exercises, the secretary read the minutes of last meeting, which were confirmed and signed.

The quarterly contributions amount to £106 10s. 1d., which, after deducting the £25 towards a reserve fund, is somewhat short of the expenditure. As it is anticipated, however, that some special donations will be subscribed at the end of the year, a financial statement may be considered satisfactory, especially in the present state of trade.

The Chairman reported that the circuit stood well at the recent District Synod, all the connexional funds being in advance, except one.

There are 501 full members in the circuit, an increase of seven, with 90 junior members. The Chairman very fittingly referred to the severe loss sustained by the Church at Rothwell and by the Circuit generally, in the death of Mr. Samuel Batt, whose self-sacrificing labours were known and admired throughout the circuit. A resolution of condolence and sympathy with the bereaved children and relatives was feelingly proposed by Mr. J. R. Seaton, and seconded by Mr. J. Hargreaves, and was carried in a loud and unanimous voice.

The following is a list of the speakers at the meeting:—"That this Quarterly Meeting of the Rothwell Wesleyan Methodist Circuit deeply deplores the removal by death of Mr. Samuel Batt, for many years the father and leading member of this society in Rothwell. The Association of the Great Head of the Church, how long and faithfully he laboured for the spread of the gospel, and the advancement of every good object. For fifty years, Mr. Batt was a standard-bearer in our Israel; as a local preacher, he travelled, kept appointments punctually, and preaching with great acceptance and power; as a class leader, he was loved and esteemed by hundreds that have been under his oversight; as a visitor of the sick, he was always welcome, and ever ready to attend the call of every class of suffering people; and his guidance being greatly blessed in fact, before a resident minister was appointed, there were few sick beds which he was not asked to visit; while he was foremost in every good work, whether connected with this Church or the wider sphere of the Christian community. The meeting with the bereaved children and relatives of father Batt, and points with much thankfulness to his long and useful life, his unwavering fidelity to God and to Methodism, and the fragrant memory of his good deeds, as characteristics of which they will feel proud; while we confidently commend his sorrowing friends to the heavenly consolation which supported him, and to the unerring wisdom and boundless love in which he so firmly trusted."

The Rev. H. Nicholls gave the statistics relating to Sunday School, and also mentioned the successful Saturday afternoon children's services, which he has been enabled to conduct at Norton.

This being the last quarterly meeting he will attend, a very hearty vote of thanks was passed to Sunday School, and the motion of Mr. Jas. Hargreaves, seconded by Mr. Marden, and supported by other friends. Reference was made to Mr. Stewart's general ability and courtesy, to his services as a preacher, and especially to his success in undertaking the superintendence of the new circuit in the year 1892, and to the great revival, expressing the kindest feelings towards all with whom he had come in contact.

A letter was read from the Rev. H. Nicholls, containing his resolve to withdraw his acceptance of the invitation to remain another year, and his decision that whatever the meeting might do, he was determined to leave at the ensuing Conference. After some conversation, the resignation was accepted, followed by a unanimous vote of thanks to Mr. Nicholls for his services.

The meeting shortly afterwards concluded in the usual manner.

FATAL ACCIDENT AT WHITWOOD.

On Tuesday afternoon a young unmarried girl, named Mary Ann, living in lodgings at Allerton, was taken to the Leeds Infirmary, on Tuesday afternoon, suffering from a fractured leg, received at the Allerton Silicoon Colliery, by a fall of rock, which she was working.

METHLEY READING ROOM.

The new reading room in Methley is now finished, and people are wondering whether it is going to be opened soon or not, as its usefulness must be restored much better than to have it kept shut up. As a committee is waiting for the new building to be held in the parish, and a committee, caretaker, and general secretary be elected, and the new building be opened, it is a valuable and elegant building in appearance, and the people will be delighted to have it opened, and the benefits of culture and education will be shared by the people who have the pleasure of witnessing what an advantage the room will be to working men, and of receiving thanks for this practical proof of his kindly feelings.

CATARRH.

HAY FEVER, CATARRH, DEAFNESS.

A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and throat. Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been discovered, which cures these diseases rapidly and permanently cured by a few simple applications made at home by the patient once in two days, and the next day the cure is complete. See receipt of 214 stamp at A. HUTTON DRUG, 43 & 45, East Road St. Toronto, Canada. Scientific American.

DEATH OF MR. T. GOULD.

For some weeks past, the public mind has been much concerned respecting the health of Mr. T. Gould, of Thorpe House, who for several weeks has been dangerously ill, and whose ailment we are sorry to record, proved fatal, on Tuesday night, the eve of his thirty-sixth birthday. It is about five years since Mr. Gould left the Manor Farm, Rothwell, and took up his abode at Thorpe, where he has successfully carried on his farming industry, for which he seemed to have developed special abilities. Since taking up his abode at Thorpe, Mr. Gould has been a surveyor for that district, which office he had at the time the Lofthouse Colliery and Thorpe townships were amalgamated with the Rothwell Local Board. He has also represented Thorpe as Churchwarden at the Rothwell Parish Church, and has taken a lively interest in all public matters affecting the welfare of his country. His illness started about two weeks ago, when he was the subject of a bad bilious attack, followed by pneumonia, and abscess of the liver, the latter being the primary cause of death. Dr. Stevenson, along with Dr. Barr and Dr. Brown, of Leeds, have exerted their utmost skill in order to arrest the progress of the disease, but without avail. The critical condition of Mr. Gould on Sunday last, was made the subject of special prayer at the Parish Church, and the Vicar, during the protracted illness, has been most assiduous throughout the illness, and has shown the greatest kindness towards the family in their severe and crushing trial.

During his life, Mr. Gould won the esteem and respect of those amongst whom he moved in daily life, and in death, one has been removed from us who was a true and loving friend. The interment took place this afternoon, when marked respect was shown towards the deceased, and much sympathy expressed towards the sorrowing wife and young children.

The funeral procession arrived at the church just after one o'clock, the bell solemnly tolling as it approached. Most of the leading residents were present as mourners. The service was conducted by the Vicar, the Rev. J. B. Palmer, and being of a choral description, was deeply impressive. The choir, composed of the church, the organist, preceded by the surpliced choir, the organist playing the *Dead March*, after which the 39th Psalm was sung in a minor key. Before leaving the church, the favourite hymn "Rock of Ages" was sung with beautiful effect, and the service being brought to a close by the singing of the *Te Deum*, which was also attended by the choir, at the close, sang with much taste and sweetness the well-known hymn "Now the labourer's task is o'er."

The deceased leaves four children, the youngest being only ten weeks old, and much sympathy was manifested towards Mrs. Gould, whose bereavement has been of a specially painful description. The memory of Mr. Gould's life and death, however, are a source of comfort and hope to those who have lost him.

A BASTARDLY FELLOW.

A most cowardly assault was made last Monday evening, on a young person acting as Sunday school teacher, at Spring Head. Mrs. Ella had been helping her to do the washing, and shortly after ten o'clock, the young woman accompanied Mrs. Ellatowards home. Mrs. Ella afterwards came part way back to Spring Head, where Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. When only a few yards from her home, however, a blackguardly fellow seized her by the throat and threw her down. She shrieked loudly, and was immediately helped up by Mr. and Mrs. Atkinson, who from their home, having met Mrs. Atkinson, who was waiting for her, saw her in the street. COOK WANTED at the Union Workhouse, Hun-
slet, Leeds, for 240 per annum, with Board,
Lodging and Washing, but without Beer. Appli-
cations must be single women, or widows without
children, and between 25 and 40 years of age.
Information as to duties may be obtained on
application to the Matron.
Applications in candidates' own hand-writing,
with recent testimonials as to character, ability, and
general fitness, to be sent by noon on Tuesday, July
4th, to
T. CHORFIELD,
Clerk to the Guardians,
Glasshouse Street, Hunslet.

HUNSLY UNION.
RURAL SANITARY AUTHORITY.
The Guardians acting as the Rural Sanitary
Authority of the Hunslet Union, are prepared to
receive Tenders from parties willing to contract for
the emptying and cleansing of all sewers, middens,
privies, cesspools, and other places of a like nature
in that part of the Township of Templewasm, which
is outside the City of Leeds, and in the Townships of
Thorpe Stapleton and Middleton, and the surrounding
disposal of the contents, for one year, from the 1st
day of August next.
Specification of the Conditions and Regulations
under which the work is to be done, may be seen, and
copies obtained, at the Union Offices, Glasshouse
Street, Hunslet.
Tenders to be sent to me, the undersigned, not
later than Monday, the 10th day of July, 1893.
Union Offices. By order, T. CHORFIELD,
20th June, 1893. Clerk.

THE ROTHWELL LOCAL BOARD is prepared to
receive Tenders for team labour for the following
works of the Board District separately, viz.:—
Rothwell, Stourton, Lothhouse, Carlton, Thorpe,
and Ryea Green.
The Agreement to expire on the 25th day of
March 1894.
The Board does not bind itself to accept the
lowest or any tender.
For particulars apply to the surveyor, Mr. P.
Greenwood.
By order, J. BOURCHEIM WIMBUSH,
Clerk.

PUBLIC NOTICE.
RE the game trespass at Templewasm, which
appeared in your last week's issue, I, the
undersigned, wish to state that it was not Tom King
of the Midland Hotel, Woodhouse, who was fined
40s. and costs.
Yours faithfully,
TOM KING.

Circulating in Rothwell, Woodhouse,
Oulton, Carlton, Lothhouse, Middleton,
Leeds, Hunslet, Stourton and Methley.
Friday, June 30, 1893.
ROTHWELL LOCAL BOARD
MEETING.
The fortnightly meeting of the above
Board was held on Wednesday evening, 29th
June, at 8 p.m., at the Lothhouse, present
Messrs. W. Hargreaves (chairman), J. Har-
greaves, T. Oliver, J. Oliver, T. Hargreaves,
Newsome, G. Armistead, Walter Hargreaves,
J. Armistead, Middleton, Stead, Sykes, and
the clerk (Mr. Wimbush), surveyor (Mr.
Greenwood), and nuisance inspector (Mr.
Jones).
From the minutes of the previous meeting
it appears that the Board decided that the
reporters should not be allowed to inspect
the minute book, but that a statement of
accounts should be prepared for them, if
required.
A meeting of the Sanitary and Sewage
Committee had been held, when it was
decided to request Messrs. Baylis and Baylis
to comply within three days with the Board's
notice, respecting nuisance on their property
in Commercial Street.
The tender of Messrs. J. and S. Dobson to
remove house refuse, in Carlton, Leadwell
Lane, and North Fields, was accepted, the
price being 6d. per load for a period of
twelve months.
Notice had been served on several rate-
payers to put their privies and ashpits in a
proper and satisfactory state of repair.
Mr. T. Oliver being affected by the above
notice, said that he wanted to know, before
doing anything, whether the whole of the
owners in the Board's district were to be
requested to put their privies and ashpits
into proper repair. He did not wish to be
there more than twelve such buildings
in the newly-added district, that complied
with the Board's bye-laws.
Mr. Walter Hargreaves said that the
Nuisance Inspector had been round the
district, and had pointed out the worst cases.
Mr. Newsome remarked that it had been
customary to take the worst cases first.
In the Lothhouse and Carlton district they
found that the privies and ashpits had been
somewhat neglected.
THE ROYAL WEDDING.—The Chairman
said that there had been part talk in the
town respecting the above, and he would like
to know what the feeling of the Board was
respecting any festivities on Thursday week.
Several subscriptions had already been
promised. Messrs. Charlesworth had im-
dicated their willingness to subscribe £10,
which was also another subscription of £5,
and he was also willing to give £2. He had
no doubt but that other subscriptions would
be forthcoming, if the Board decided to take
any active part in preparing a tea for the
widows, old people and children living in the
Board's district.
The question was again taken up later on,
when Mr. Newsome said that he did not feel
any special interest in the Royal Wedding,
or in the couple who were about to be
married. (Laughter). Continuing, he said
"I believe they are able to take care of
themselves, and I think that the people of the
country are intensely loyal, and seeing that
the young man is the presumptive heir to the
Crown, it may be a proper occasion to give
the children and women a treat. As money has
already been promised, I think it a little mis-
take to let it all slip, and I think that the
people of the country are intensely loyal, and
seeing that the young man is the presumptive
heir to the Crown, it may be a proper occa-
sion to give the children and women a treat.
As money has already been promised, I think
it a little mistake to let it all slip, and I think
that the people of the country are intensely
loyal, and seeing that the young man is the
presumptive heir to the Crown, it may be a
proper occasion to give the children and women
a treat. As money has already been promised,
I think it a little mistake to let it all slip, and
I think that the people of the country are
intensely loyal, and seeing that the young man
is the presumptive heir to the Crown, it may
be a proper occasion to give the children and
women a treat. As money has already been
promised, I think it a little mistake to let it
all slip, and I think that the people of the
country are intensely loyal, and seeing that
the young man is the presumptive heir to the
Crown, it may be a proper occasion to give
the children and women a treat. As money has

HUNSLY ROAD.
RURAL SANITARY AUTHORITY.
THE Guardians acting as the Rural Sanitary
Authority, of the Hunslay Road, are prepared to
receive Tenders from parties willing to contract for
the emptying and cleansing of all ash pits, middens,
privies, cesspools, and other places of a like nature
situated within the limits of the Hunslay Road Sanitary
District, which is situated in the City of Leeds, and in the Townships of
Thorp Stapleton and Middleton, and removing and
disposing of the contents, for one year, from the 1st
day of August next.

Specification of the Conditions and Regulations
under which the work is to be done may be seen, and
copies obtained, at the Union Office, Glasshouse
Street, Hunslet.

Tenders to be sent to me, the undersigned, not
later than Monday, the 10th day of July, 1893.
Union Office, By order,
Glasshouse St., Hunslet. T. SCHOFIELD,
25th June, 1893.

THE ROTHWELL LOCAL BOARD is prepared to
receive tenders for the labour for the following
portions of the Board's District separately, viz:—
Rothwell, Stourton, Lothhouse, Carlton, Thorpe,
and Leeds.

The Agreement to expire on the 25th day of
March, 1894.
The Board does not bind itself to accept the
lowest or any tender.
For particulars apply to the surveyor, Mr. F.
Greenwood.

By order,
J. BOURCHIER WIMBUSH,
Clerk.

Rothwell Times,
Circulating in Rothwell, Woodlesford,
Olton, Carlton, Lothhouse, Middleton,
Leeds, Hunslet, Stourton and Methley.
Friday, July 7, 1893.

AMID much congratulations and much
enthusiasm on the part of all sections of the
public, the popular sailor son of the Prince
of Wales, and the equally popular daughter
of the Princess Mary of Teck, have been
made man and wife. We may truly say and
re-echo the sentiment of one of the
various wedding ode writers: "Eastward"
westward—wide as the ocean rolls, Under
the sunset and over the sunrise, Britainward,
homeward, a wave of devotion rolls; heaven-
ward and earthward, the love-life begun is life.
Welcome and well-wishing, service of loyalty,
Lifted not only in speech, but in spirit;
King to be, Queen to be, heirs to the crown
they inherit; King to be, Queen to be,
George and Victoria." In the humblest, as in
the highest rank, there is no event, that is
not of the lives of most of us, such
all-absorbing interest as a wedding. In this
country, it is true, there is commonly a
certain shamefacedness—particularly on the
part of the male participant—in figuring in
the character of principal at a wedding.

But that custom of being, as it is called,
little given to posing, and aware, rather than
otherwise, to encountering the public gaze at
critical moments of our lives. Few things,
indeed, mark the racial difference between the
well-bred Englishman and the French-
man of similar rank so sharply as the *travaux*
of such a wedding, particularly his own.
The customary self-possession of the Gallic
bridegroom, not to say his obvious enjoyment,
stands out in marked contrast to the equally
customary awkwardness of the Anglo-Saxon.
But the interest of the public is almost the
same, and whether the wedding is celebrated
at St. George's, Hanover-square, or in some
poor church or chapel in a dingy provincial
street, the stir it creates in the vicinity and
among the passers-by is relatively the same.

When a wedding is of the kind celebrated
at the Chapel Royal, St. James's, this week,
it attains the magnitude of a national—
indeed, of an international—event. For
weeks past it has been the staple topic of
conversation in Mayfair and Belgrave, and in
suburban and provincial drawing-rooms, as it
has been in parlours and in the rooms of less
select quarters. The doings of the bride and
bridegroom elect, the wedding presents, and
the many circumstances attending the joining
of these two young lives have been discussed
by all classes, and in the remotest corners of
the Empire. And, truly, as an able writer
expresses it, there is plenty to interest the
interest. The marriage of a direct heir to
the throne cannot come very often in the
life of any people. Its celebration, there-
fore, is an event to be marked and
remembered, even though Parliament may
decline to pay it, as it does in the case of
royal marriages. The doings of the bride and
bridegroom elect, the wedding presents, and
the many circumstances attending the joining
of these two young lives have been discussed
by all classes, and in the remotest corners of
the Empire. And, truly, as an able writer
expresses it, there is plenty to interest the
interest. The marriage of a direct heir to
the throne cannot come very often in the
life of any people. Its celebration, there-
fore, is an event to be marked and
remembered, even though Parliament may
decline to pay it, as it does in the case of
royal marriages.

The happy pair left for Sandringham,
at five o'clock, and met with the most loyal
reception all along the line, culminating
with the loud hurrahs of the crowds as-
sembled at Lynn and Wollerton, the journey
being completed at half-past eight, when
they reached York, where, which for the
present will be their home.

LOCAL FESTIVITIES.
Although it was not until the last Local
Board meeting that tentative steps were
contemplated with regard to the local
celebrations in commemoration of the Royal
Marriage, the arrangements for a "kick up"
have been rapidly made, and were very
successfully consummated yesterday in brilliant
weather.

In consequence of the conversation that
took place at the last meeting of our local
parliament, the Chairman thereof, called a
public meeting in the Mechanics' Hall, last
Friday night, when it was eventually decided
to provide a free tea for the old people and
children living in the district, and a working
Committee was formed to carry this decision
into effect.

The various townships under the Rothwell
Board decided to separately carry out their
individual schemes, and some of the contribu-
tions to the fund were consequently divided
proportionately.

The Rothwell executive decided on pro-
viding in the Mechanics' Hall, a tea for the
old and poor people, and in the National
and Board Schools a treat of buns and tea
for the school children.

Early yesterday morning, a band of
decorators were engaged in festooning the
walls of the National School with garlands
of flowers, collected by the children, banners,
lampions and streamers being also used to
adorn the building, which lends itself well to
the decorator's art. In other parts of the
town the loyalty of the inhabitants was
expressed by the flying and fluttering of
the Union Jacks, and by other flags that
indicated more of the individual's fantastic
taste than his knowledge of the country's
emblems. From the church tower the red,
white and blue flag was floating from early
morn, when at the Mechanics' Institute and the
Board School it was hoisted, and the town
intended keeping high festival.

Both the Rothwell Bands being engaged
outside the town, it was thought at first that
the festivities would suffer for the lack of
the ever-cheering and invigorating strains of
our local musicians, but during the morning
it was made known that what was termed
the "Royal Band" was to furnish the need-
ful musical element. This band consisted of
a number of veteran players who figured
prominently in our local bands several years
ago, and although the music was not up to
the standard of the regular players, the
"Royal Wedding Band" contributed much to
the success and enjoyment of the day's
proceedings.

The school children paraded the streets
during the afternoon, headed by the band of
the National School, and followed by the
as, in their gay attire, they merrily marched
in the long procession. Tea (provided
by subscription) was served in the National
and Board Schools, and a band of red
helpers soon satisfied the cravings of the

THE ROYAL WEDDING
OF THE
DUKE OF YORK
AND
PRINCESS MAY OF GLOUCESTER.

Favoured with brilliant 'Queen's weather',
and surrounded by all the pomp and splendour
of the British Court, the long-con-
templated marriage of the heir-presumptive
of the throne has taken place, and nothing
seemed wanting in surrounding circumstances
nor in the execution of the many delicate

arrangements, in order to crown the im-
portant event with entire success and eclat.
Although a single day was necessarily
entered into the earlier preparation for the
 betrothal of the Royal personages concerned,
owing to the sad death of the bride's first
bridegroom, the Duke of Clarence, this feeling
gradually passed away, and both in
London and the provinces, but one sentiment
has prevailed as to the propriety of the
match.

The scene in London must have been
almost past description; the great city loves
a show, and here was such a show, as has
not been witnessed since the Prince of Wales
married over his bride from across the sea.
The father and mother of the hero of the
present event. To understand anything of
the crush of this crowd, the beauty and the
variety of the decorations, the wild enthusiasm
of the people, the gorgeous processions of
high and noble grandees, the serried lines of
brilliantly dressed Guards, the wondrous
dress of the ladies, the brilliant flash of
precious stones, the hurrahs of the multitude,
and the gracious acknowledgements of the
Queen and the Princess; for all these we
must refer to our daily contemporaries, while
sketches of the chapel, in which the ceremony
took place, and many interesting items
relating to the marriage, will be found in
various pages of our present issue.

Briefly described, the route of the wedding
procession from Buckingham Palace, was
kept by 5000 police, while many thousands
of volunteers guarded the entrance and court
yards. About eleven o'clock, there arrived
a troop of the Horse Guards Band, followed
by other regiments of high military.

At twelve minutes to twelve, the first pro-
cession emerged from the palace, the carriages
containing the Princess of Wales, and the
other members of the Royal Family and
Royal guests.

Then came the bridegroom's procession,
with the Prince of Wales and the Duke of
Edinburgh.

This was followed by the bride, and her
bridesmaids, the countess of beholding the
Just about twelve o'clock the Queen's
procession emerged, Her Majesty being vocifer-
ously cheered, and appearing to be in
excellent health and spirits.

Inside the Chapel Royal, was a scene of
marvellous beauty, all the great people of
the land, with the royalties and ambassadors
of other lands being present. At half-past
twelve everybody was ready, the Archbishop
of Canterbury being at his post with the
clergy and choir. Five minutes later, the
Queen was heralded in, followed very shortly
by the bridegroom, and in a moment after,
by the happy bride, with her ten young
bridesmaids.

The marriage service, in the form laid
down in the book of Common Prayer, was
then proceeded with, aided by full musical
accompaniment, and at one o'clock, the
blessing of archbishop, in a moment after,
the myriad of waiting Londoners that the
nuptial knot was tied. Then followed the
return through the city, welcomed by ever-
renewed cheers, and waving of handkerchiefs,
arriving at Buckingham Palace shortly before
two o'clock.

The happy pair left for Sandringham,
at five o'clock, and met with the most loyal
reception all along the line, culminating
with the loud hurrahs of the crowds as-
sembled at Lynn and Wollerton, the journey
being completed at half-past eight, when
they reached York, where, which for the
present will be their home.

ROTHWELL LOCAL BOARD MEETING.
MR. TURNER'S ROAD-MAKING SYSTEM.
A COSTLY EXPERIMENT.
The fortnightly meeting of the above Board was held on Wednesday evening,

present:—Messrs. W. Hargreaves (chairman), J. Oliver, T. Oliver, G. Lockwood, F. E. Middleton, T. Hargreaves, J. Armitage, J. Turner, and the clerk (Mr. Wimbush), surveyor (Mr. Greenwood), deputy medical officer (Dr. Hargreaves), and nuisance inspector (Mr. Jones).
The minutes of the previous meeting were read and confirmed.

At a meeting of the Sanitary Committee it was decided to send to the West Riding Solicitor a copy of the correspondence that had taken place between the Board and the Hunsllet Rural Sanitary Authority, relating to the sewage treatment.
Mr. Richardson, the architect for the Lothhouse-with-Carlton Sewage Works, had prepared plans for the same, which were considered satisfactory.

The specifications were not quite ready yet, but in a fortnight's time Mr. J. Hargreaves said the Committee had to be ready for laying before the Board an estimate of the cost of the undertaking.

SMALL POX.—Dr. Hargreaves reported that on the 18th inst. a case of small pox had been reported at 27, Springfield Place, Stourton. The patient, Mrs. Sykes, was removed to Lothhouse, and is now progressing favourably.

Messrs. Whitaker were reported to be complying with the Board's wishes respecting better privy accommodation for the property at Rothwell Haigh.
It was decided to send an ambulance to the property at Mr. Spurr, Mr. J. Hargreaves said that as it was very near the public road, the place should be covered in.

The Inspector stated that he had seen Mr. Spurr, who was repairing the asphalt, but he declined to cover it in, although it was very much complained of by the neighbours.
ISOLATION HOSPITAL.—The correspondence that had taken place between the Board and the Local Government Board, with regard to the joint occupation of the Isolation Hospital by the Hunsllet Rural Sanitary Authority, was read by the Clerk. The Local Government Board decline to interfere in the matter, as there appears to be a legal point of difference between the parties concerned.

No action is at present to be taken, but the Board decided to secure payment from the Authority as soon as possible for their share of the expenses of the Hospital.

The following accounts were passed for payment:—
W. Brown .. 21 0 0
J. and S. Dobson .. 15 0 0

715 8 9

The Highway Committee were granted power to purchase 100 tons of road material for use in Thorpe Lane.

With regard to the tenders for team labour, Mr. J. Cooper and Mr. Wm. Armitage had accepted the Board's offer, but Mr. W. Brown was not willing to accept the terms offered by the Board.

Mr. T. Oliver said he did not see his way clear to move his motion to rescind the resolution passed at last meeting re Mr. W. Fakin's tender. He also considered that Mr. Brown ought to be satisfied with the Board's offer.

The question of team labour for the Rothwell district was left with the Highway Committee.
THE NEW SYSTEM OF ROAD-MAKING.—Mr. Turner asked the Chairman of the Highway Committee if the statements which had been placed on the table were to be circulated and nothing said about them. If the statement was to be withheld from the reporters, he was prepared to leave the matter for the present, but if it was going to be made public property, he intimated to the Chairman that he would require to deal with the figures printed minutely.

Mr. T. Oliver said that the Surveyor had prepared the statement, and was responsible for it.
After some discussion a copy of the statement was handed to the reporters, which we give below:—
MR. JOHN TURNER'S EXPERIMENT, COMMERCIAL ST., ROTHWELL. 29 YARDS BY 7 YARDS. 19s. 10d.

PER YARD.
Manual Labour .. 2 10 0
Team .. 2 10 0

The above 57 yards by Mr. Turner's method would have cost .. 250 10 8
100 Yards Mr. Turner's method .. 99 3 8
100 .. Ordinary Way .. 30 10 8
Difference in cost .. 250 6 0
F. GARRARD

Mr. Turner said he had had nothing to do with the preparation of the statement, and he thought that the Surveyor might have submitted it to him before it had been placed before the Board. He did not admit any of the items, which were entirely untrue. For instance, he was debited with 21 days for the road roller. It should be remembered, he said, that in trying an experiment on such a short piece of ground, they might have the engine stopping any length of time. The smaller the piece of road, and the longer would the engine be standing, and as a matter of fact, the engine in this case was standing five-sixths of its time.

The Chairman:—"I said Mr. Turner charged the road roller 21 days."
Mr. T. Oliver:—"Yes Sir."
Mr. Turner continuing, said that at the last meeting of the Board he had only urged the principle of road-making upon the Board, and as this was the first experimental trial, he considered it extremely unfair to compare the two processes. He was solely responsible for the principle, but did not expect that a first trial would prove as cheap as the old method. Engineers had expressed their views strongly against binding with soft greases, and the Local Government Board Government Board Inspectors had been asked to conduct the inquiry before purchasing the road roller, he had directed his attention to the binding that was being used on the road in Marsh Street, and he (Mr. Turner) had said that they might as well try and bind the material with marmalade. The Insulation Hospital, and is now progressing favourably.

Mr. Hargreaves said that he was not prepared to say that the engine was standing five-sixths of its time, but he was not prepared to say that it was standing one-sixth of its time. He was not prepared to say that it was standing one-sixth of its time, but he was not prepared to say that it was standing one-sixth of its time.

Mr. Turner continuing, said that at the last meeting of the Board he had only urged the principle of road-making upon the Board, and as this was the first experimental trial, he considered it extremely unfair to compare the two processes. He was solely responsible for the principle, but did not expect that a first trial would prove as cheap as the old method.

Engineers had expressed their views strongly against binding with soft greases, and the Local Government Board Government Board Inspectors had been asked to conduct the inquiry before purchasing the road roller, he had directed his attention to the binding that was being used on the road in Marsh Street, and he (Mr. Turner) had said that they might as well try and bind the material with marmalade.

The Insulation Hospital, and is now progressing favourably.

Messrs. Whitaker were reported to be complying with the Board's wishes respecting better privy accommodation for the property at Rothwell Haigh.

It was decided to send an ambulance to the property at Mr. Spurr, Mr. J. Hargreaves said that as it was very near the public road, the place should be covered in.

The Inspector stated that he had seen Mr. Spurr, who was repairing the asphalt, but he declined to cover it in, although it was very much complained of by the neighbours.

ISOLATION HOSPITAL.—The correspondence that had taken place between the Board and the Local Government Board, with regard to the joint occupation of the Isolation Hospital by the Hunsllet Rural Sanitary Authority, was read by the Clerk.

The Local Government Board decline to interfere in the matter, as there appears to be a legal point of difference between the parties concerned.

No action is at present to be taken, but the Board decided to secure payment from the Authority as soon as possible for their share of the expenses of the Hospital.

The following accounts were passed for payment:—

The Highway Committee were granted power to purchase 100 tons of road material for use in Thorpe Lane.

With regard to the tenders for team labour, Mr. J. Cooper and Mr. Wm. Armitage had accepted the Board's offer, but Mr. W. Brown was not willing to accept the terms offered by the Board.

Mr. T. Oliver said he did not see his way clear to move his motion to rescind the resolution passed at last meeting re Mr. W. Fakin's tender. He also considered that Mr. Brown ought to be satisfied with the Board's offer.

The question of team labour for the Rothwell district was left with the Highway Committee.

THE NEW SYSTEM OF ROAD-MAKING.—Mr. Turner asked the Chairman of the Highway Committee if the statements which had been placed on the table were to be circulated and nothing said about them. If the statement was to be withheld from the reporters, he was prepared to leave the matter for the present, but if it was going to be made public property, he intimated to the Chairman that he would require to deal with the figures printed minutely.

Mr. T. Oliver said that the Surveyor had prepared the statement, and was responsible for it.
After some discussion a copy of the statement was handed to the reporters, which we give below:—

HUNSLLET RURAL SANITARY AUTHORITY.
A special meeting of the above Board was held on Wednesday afternoon, present:—Messrs. R. J. Smith (chairman), J. Gravely, T. W. Jewison, C. Grosvenor, the Rev. G. M. Platt, and the clerk (Mr. Sebnahol), and medical officer (Dr. Hargreaves).

REPORT OF DEPUTATION TO BALDON.
NEW SYSTEM OF SEWAGE WORKS PROPOSED FOR LEMONROYD.—The Chairman stated that the members of the Authority had visited Balidon on Friday last, and had inspected the new system of sewage treatment now being carried out by the Balidon Local Board. The new works are now completed, and have been in operation for about two months. The members of the Authority who went on the deputation, appeared to be very well satisfied. The treatment was simple, efficient, and economical. It was a system that could easily be adapted to the Authority's works at Lemonroyd. They could not reasonably expect to have a better effluent than what they saw at Balidon; several of the members of the Authority had even ventured to taste the effluent without detecting any taste or odour, and it was seen that the fish could live and thrive in the water that came from the works. The members of the deputation were so far satisfied with the works, that they instructed Mr. Duncan to examine their works at Lemonroyd, and prepare an estimate of the cost with a view to converting the Authority's works to the new system.

The Clerk had received a letter from Messrs. Duncan and Pickard, saying that they had pleasure in stating that they were able to have an estimate and report ready for the 9th August.

The Chairman said he thought the new system would work very satisfactorily, if constant and conscientious attention was paid to the works on the part of the workmen.

The Rev. G. M. Platt:—"You say great stress upon the works being conscientiously attended to. This seems the weak point in the present system, and if we can get over this, there does not seem to be any great reason for making the change."

The Chairman:—"We are bound to do something; we have been spending about £400 per year, and we cannot stand that."

Mr. Jewison:—"This Balidon place only requires one man."

The Chairman:—"But ours will require more than one man, as we have more sewage to treat, and our works are on flat land, whereas Balidon works are on a gradient."

Mr. Jewison:—"It will be a saving of labour under any circumstances."

The Chairman:—"Two men should be able to carry the work through, but instead of that, we have had to have six to ten."

Mr. Grosvenor:—"For my own part, I don't think there is so much blame to be laid to the men as to the system. The system is defective, or becomes defective during the working."

After further discussion, it was proposed by Mr. Gravely, seconded by Mr. Jewison, and unanimously agreed, that formal sanction be given to Messrs. Duncan & Pickard to inspect the works at Lemonroyd, report to the Authority, and give terms for carrying out the work.

ISOLATION HOSPITAL.—In reply to the Clerk's enquiry re price of land in Barrowby Road, Mr. Farnham replied stating that he would like to know what quantity of land the Authority were likely to require.

The Clerk replied saying that he could hardly give a definite quantity, but supposing they required an acre, he would like to know what the Hon. Mr. Meynell Ingram would require for it.

To the latter communication, no definite reply as to price had yet been received.

The Chairman intimated that Mr. Morrell, of Horseshoe Lodge, had serious objections to the Hospital being erected on the above-named site, and, during a subsequent discussion, the advisability of erecting the Hospital on a site in Ball's Lane was considered.

It was ultimately decided to inspect more sites at Manston, Killingbeck, and Halton.

METHLEY SCHOOL BOARD.
MR. RICHARDSON STILL A MEMBER.
In the Chancery Court on Friday last, Mr. Warrington applied to Mr. Justice Kekewich for an injunction, restraining the defendants in the action Richardson v. Methley School Board, from holding a meeting of the Board for the purpose of electing a new member in lieu of the plaintiff.

The election for members of the Board took place in December, 1892, when, plaintiff was in ill-health and had continued so since. The Act provided that if a member absented himself for six successive months without excuse, he should cease to be a member of the Board. Mr. Richardson was absent for five months, but on the 29th May he attended a meeting, and was present while two resolutions were passed, but took no part in the proceedings. This the Board set to construe as an absence, and desired to declare the vacancy.

The plaintiff contended that the minute book clearly showed that it was an attendance, while in the correspondence with the Educational Department, it was admitted that Mr. Richardson was present at the meeting. The plaintiff submitted that in previous absences, he was due to ill-health. The Board disputed the illness, but he had the affidavit of a medical man. He therefore, was entitled to the injunction.

WOODLESFORD, OULTON & DISTRICT

HORTICULTURAL SHOW.
The second annual show of plants, flowers, fruits, agricultural produce &c., was held in the Garden Field, Hoop Lane, on Saturday last. The weather was again dull and threatening, but the rain kept off until late in the evening. There was a fair number of exhibits, and some of the cut flowers were especially fine, as also were the groups of miscellaneous plants arranged for effect, and

The show was opened shortly after one o'clock, by the Rev. A. J. Irvin, who has been deputed to take the place of the president (I. W. H. White, Esq.) who was prevented by business arrangements from

opening the show as announced. He (Mr. Irvin) regretted Mr. White's absence, inasmuch as their president had lent his aid to the Committee in many ways, and had worked energetically in order to make the show a success.

success. As regards the show itself, the looked upon the flowers with gratitude and appreciation, but as there were so many present, competent of judging of their excellencies, he was not going to make any keen criticisms upon the products. There

There were undoubtedly more competitors than last year, which went to prove that the show was increasing in popularity. (Applause). He had much pleasure in declaring the show open.

A vote of thanks was then accorded Mr. Irvin, the resolution being proposed by Mr. Trieler, seconded by Mr. W. Higgins and

The exhibit were shown in a large marquee which was visited by a large number of local residents during the afternoon. The following are particulars of the awards:—

SECTION 1. (OPEN TO ALL)

H. BERRY, first for group of miscellaneous plants six ornamental foliage plants, ferns, liliaceae, group of ferns in half circle, white grapes, french beans

French and African malvifid, African malvifuge, pear.
 1. **STARDIST**, first for greenhouse plants, foliage and pear stems, second for fruit, colors, French malvifid, numbers.
 1. **STARDIST**, first for greenhouse plant, crop of stems, second for groups of mixed apple plants, greenhouse, color, foliage, and third for tray of green, blue, and foliage plants.
 B. **STARDIST**, first for roses, dahlias, asters, stocks, French and African malvifid, tomatoes, ranunculifuge, and celery (African); second for gooseberries, taxifolius, apple, beans, French beans.
 J. **LUXURY**, first for spikes of greenhouse plants, cucumbers, baking apple, beans; second for foliage plants, stocks, tall a bouquet, black grapes, red currants

T. HAGER. First for red currants, desert apples.

white cutnents, scarlet runners tray of vegetables;
second for dahlias, asters.

On Monday, August 16th,
THE ANNUAL TEA AND PUBLIC MEETING
will be held at 8 p.m.
Tea in the School-room at 7 p.m. Tickets 9d. each.
Public Meeting in the Chapel at 8.30.

Chairman—**MR. Wm. Flockton.**
Mr. Sykes here to inform the Board, were going to allow the new houses in Gilles Lane to be occupied, which are in close proximity to some cow sheds, and if they were allowed to be occupied, would the cow sheds be allowed to remain where they were.

Mr. Leck said: "They allow these things in the borough of Leeds, Mr. Sykes."

Several members said that if there was anything objectionable about the premises, the Inspector would report thereon before allowing the houses to be occupied.

WATER CHARGES ON PLACES OF WORSHIP.
A letter was read from the Rev. G. H. Clark, curate-in-charge at Stourton, complaining that the water charges for the Stourton church were far too high for the quantity used. It was used only for cleansing and drinking purposes, and 10s per year, was he considered too heavy a charge.

Mr. Sykes said: "It is plenty for what they use, a house at half-a-crown per week, only pays 8s. per year."

The Chairman: "If you do anything, you will have to reduce the whole of the chapels and churches."

The matter was referred to Committee.

LOTHOUSE AND CARLTON LOAN.—The Clerk said that in the list of accounts passed at last meeting, there was a cheque passed for the Public Works Loan Commissioners, amounting to £113 17s 6d. Before he forwarded the cheque, he wished the Board to be acquainted with the correspondence that he had taken place between himself and the Loan Commissioners. From the correspondence that was read, it appears that the loan was obtained by the Wakefield Rural Sanitary Authority, for the water supply of Lothhouse, Carlton and Thorpe, and amounted to £2370. This amount has yet been reduced to as the money had been borrowed by the Wakefield Authority, and some of the pipes are laid outside the Lothhouse and Carlton district, the Clerk contended that some adjustment in the loan should be brought about.

Mr. Jas. Hargreaves said that the Clerk had taken a right course in inquiring into the particulars, and the Board ought to fight for the adjustment of the loan.

The questions again to be taken up along with other matters that are pending settlement between the two authorities.

LOTHOUSE & CARLTON SEWER SCHEME.—There was nothing particular to report under this head; the forms in connection with the proposed application for a loan had been received, and it was expected that Mr. Nicholson would be prepared to meet the Committee next Monday, with plans of the scheme.

ROTHWELL LOCAL BOARD MEETING.

The fortnightly meeting of the above Board was held on Wednesday night, August 5th, 1899.

Present:—Messrs. T. Oliver, J. Hargreaves, Mr. Nicholson, Walter Hargreaves, J. F. Leck, J. Oliver, J. Turner, G. Armistead, and R. Middleton, J. Stead, W. Sykes, and the

clerk (Mr. Wimbush), deputy medical officer (Dr. Hargreaves), surveyor (Mr. F. Greenwood), and nuisance inspector (Mr. Jones).

In the absence of the chairman, Mr. Wm. Hargreaves, Mr. Thomas Oliver was asked to preside, the motion of Messrs. T. and J. Hargreaves.

The minutes of the previous meeting were read and confirmed.

The minutes of special meetings were also read, from which it appears that the question of water supply for the Lothhouse and Carlton district, had been under consideration, and a deputation formed to wait upon the Morley Town Council, with regard to a water supply to the above-named district.

Mr. Thomas Hargreaves said that the deputation (of which he was a member), had not as yet been able to arrange for an interview with the Morley Council.

The proposed terms of agreement between the Wakefield Sanitary Authority and the Board, relative to the water supply were also considered, and a resolution passed, rejecting the proposals made by Wakefield.

Mr. Thomas Hargreaves and the Clerk were deputed to go up to London, and support the legal proceedings that were being taken in order to prevent the Wakefield Authority cutting off the Board's water supply to the Lothhouse and Carlton district.

Extensive notice of the case was here read by the Clerk, which showed that Mr. Justice Kewich was asked by Mr. Warrington, Q.C. to grant an injunction restraining the defendants from cutting off the supply of water to the plaintiffs' district. An Order had been made by the Local Government Board constituting a new district, extending to the plaintiffs' district, and the new Authority according to their case, arranged with defendants to continue their supply of water, but some difference having arisen, they had threatened to cut the supply off.

Mr. Thomas Hargreaves said that all they wanted was to get terms arranged. Ultimately, the parties arrived at an agreement extending the proceedings until the 31st of December, when, unless terms are arranged, defendants will be at liberty to cut off the supply.

Mr. James Hargreaves: "Then if we don't make arrangements with some other Authority before the end of December, they can cut off our supply."

The Clerk: "Yes, or after that time the water will be supplied at such a price as the Wakefield Authority think fit to charge."

Mr. Sykes: "Then it is for the Board to make arrangements with the Morley Corporation as soon as possible."

Mr. Turner: "Have we no idea as to how we stand with the Morley Corporation? We should know what is causing the delay."

Mr. Thomas Hargreaves: "It is those Mr. Clerk's any legal objection to the Morley Corporation selling us the water."

The Clerk: "There are several difficulties in the way; for instance, we have to go through another Union."

Mr. Walter Hargreaves: "The Water Committee have gone through all this before, I think."

The deputation appointed to meet the Morley Corporation are hoping soon to arrange for an interview, and although there are several technical objections in the way, it is thought that arrangements for a permanent supply of water for the Lothhouse and Carlton townships will eventually be brought about.

HEALTH REPORT.—Dr. Hargreaves, the deputy medical officer, reported that during the past four weeks, there had been 14 deaths (14 males and 25 females), and 14 deaths (6 males and 8 females). There had also been four cases of infectious diseases, two cases of small-pox, (one at Stourton and the other at the Isolation Hospital), a case of scarlet fever, and a case of typhoid fever.

Mr. Sykes here to inform the Board, were going to allow the new houses in Gilles Lane to be occupied, which are in close proximity to some cow sheds, and if they were allowed to be occupied, would the cow sheds be allowed to remain where they were.

Mr. Leck said: "They allow these things in the borough of Leeds, Mr. Sykes."

Several members said that if there was anything objectionable about the premises, the Inspector would report thereon before allowing the houses to be occupied.

WATER CHARGES ON PLACES OF WORSHIP.
A letter was read from the Rev. G. H. Clark, curate-in-charge at Stourton, complaining that the water charges for the Stourton church were far too high for the quantity used. It was used only for cleansing and drinking purposes, and 10s per year, was he considered too heavy a charge.

Mr. Sykes said: "It is plenty for what they use, a house at half-a-crown per week, only pays 8s. per year."

The Chairman: "If you do anything, you will have to reduce the whole of the chapels and churches."

The matter was referred to Committee.

LOTHOUSE AND CARLTON LOAN.—The Clerk said that in the list of accounts passed at last meeting, there was a cheque passed for the Public Works Loan Commissioners, amounting to £113 17s 6d. Before he forwarded the cheque, he wished the Board to be acquainted with the correspondence that he had taken place between himself and the Loan Commissioners. From the correspondence that was read, it appears that the loan was obtained by the Wakefield Rural Sanitary Authority, for the water supply of Lothhouse, Carlton and Thorpe, and amounted to £2370. This amount has yet been reduced to as the money had been borrowed by the Wakefield Authority, and some of the pipes are laid outside the Lothhouse and Carlton district, the Clerk contended that some adjustment in the loan should be brought about.

Mr. Jas. Hargreaves said that the Clerk had taken a right course in inquiring into the particulars, and the Board ought to fight for the adjustment of the loan.

The questions again to be taken up along with other matters that are pending settlement between the two authorities.

LOTHOUSE & CARLTON SEWER SCHEME.—There was nothing particular to report under this head; the forms in connection with the proposed application for a loan had been received, and it was expected that Mr. Nicholson would be prepared to meet the Committee next Monday, with plans of the scheme.

ROTHWELL LOCAL BOARD MEETING.

The fortnightly meeting of the above Board was held on Wednesday night, August 5th, 1899.

Present:—Messrs. T. Oliver, J. Hargreaves, Mr. Nicholson, Walter Hargreaves, J. F. Leck, J. Oliver, J. Turner, G. Armistead, and R. Middleton, J. Stead, W. Sykes, and the

clerk (Mr. Wimbush), deputy medical officer (Dr. Hargreaves), surveyor (Mr. F. Greenwood), and nuisance inspector (Mr. Jones).

In the absence of the chairman, Mr. Wm. Hargreaves, Mr. Thomas Oliver was asked to preside, the motion of Messrs. T. and J. Hargreaves.

The minutes of the previous meeting were read and confirmed.

The minutes of special meetings were also read, from which it appears that the question of water supply for the Lothhouse and Carlton district, had been under consideration, and a deputation formed to wait upon the Morley Town Council, with regard to a water supply to the above-named district.

Mr. Thomas Hargreaves said that the deputation (of which he was a member), had not as yet been able to arrange for an interview with the Morley Council.

The proposed terms of agreement between the Wakefield Sanitary Authority and the Board, relative to the water supply were also considered, and a resolution passed, rejecting the proposals made by Wakefield.

Mr. Thomas Hargreaves and the Clerk were deputed to go up to London, and support the legal proceedings that were being taken in order to prevent the Wakefield Authority cutting off the Board's water supply to the Lothhouse and Carlton district.

Extensive notice of the case was here read by the Clerk, which showed that Mr. Justice Kewich was asked by Mr. Warrington, Q.C. to grant an injunction restraining the defendants from cutting off the supply of water to the plaintiffs' district. An Order had been made by the Local Government Board constituting a new district, extending to the plaintiffs' district, and the new Authority according to their case, arranged with defendants to continue their supply of water, but some difference having arisen, they had threatened to cut the supply off.

Mr. Thomas Hargreaves said that all they wanted was to get terms arranged. Ultimately, the parties arrived at an agreement extending the proceedings until the 31st of December, when, unless terms are arranged, defendants will be at liberty to cut off the supply.

Mr. James Hargreaves: "Then if we don't make arrangements with some other Authority before the end of December, they can cut off our supply."

The Clerk: "Yes, or after that time the water will be supplied at such a price as the Wakefield Authority think fit to charge."

Mr. Sykes: "Then it is for the Board to make arrangements with the Morley Corporation as soon as possible."

Mr. Turner: "Have we no idea as to how we stand with the Morley Corporation? We should know what is causing the delay."

Mr. Thomas Hargreaves: "It is those Mr. Clerk's any legal objection to the Morley Corporation selling us the water."

The Clerk: "There are several difficulties in the way; for instance, we have to go through another Union."

Mr. Walter Hargreaves: "The Water Committee have gone through all this before, I think."

The deputation appointed to meet the Morley Corporation are hoping soon to arrange for an interview, and although there are several technical objections in the way, it is thought that arrangements for a permanent supply of water for the Lothhouse and Carlton townships will eventually be brought about.

HEALTH REPORT.—Dr. Hargreaves, the deputy medical officer, reported that during the past four weeks, there had been 14 deaths (14 males and 25 females), and 14 deaths (6 males and 8 females). There had also been four cases of infectious diseases, two cases of small-pox, (one at Stourton and the other at the Isolation Hospital), a case of scarlet fever, and a case of typhoid fever.

Mr. Sykes here to inform the Board, were going to allow the new houses in Gilles Lane to be occupied, which are in close proximity to some cow sheds, and if they were allowed to be occupied, would the cow sheds be allowed to

CATABRA.
HAT FEVER, CATABRAL DEAFNESS
A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nasal and eustachian tubes.

Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated whereby these distressing ailments are rapidly and permanently cured by a few simple applications made at home by the patient once in ten days. A pamphlet explaining the treatment is enclosed with a copy of this stamp by A. HUTTON DRUGS 63 & 65, East Broad St., Toronto, Canada. Scientific American.

ROTHWELL LOCAL BOARD MEETING.
The fortnightly meeting of the above Board was held on Wednesday night, present:—Messrs. Wm. Hargreaves (Chairman), J. Oliver, Thos. Hargreaves, G. Armistead, T. Oliver, F. E. Hargreaves, W. Sykes, Walter Hargreaves, J. Turner, and the clerk (Mr. Wimbush), surveyor (Mr. Greenwood), collector (Mr. Marshall), and nuisance inspector (Mr. Jones).

The minutes of the previous meeting were read and confirmed.

At a meeting of the Sanitary and Sewage and Building Committee, plans for the new Board Officers were submitted and a resolution passed suggesting certain alterations in the material to be used in the erection of the buildings. The architect was also asked to submit completed plans and estimates as soon as possible.

The Board Officers were also considered plans for privy and ash-pit accommodation for premises belonging to Messrs. H. Bentley & Co., Mr. S. Broadbent, Carlton, and Mr. J. Turner, Rothwell.

Mr. Walter Binnis also submitted plans for the erection of 33 houses to be built at Thorpe.

The minutes of the Building Committee were approved, with the exception of Mr. Turner's, Messrs. Bentley's, and Mr. Binnis's plans.

A meeting of the Sanitary and Sewage Committee, the specifications and estimate of cost for the Lothhouse, Carlton and Thorpe drainage scheme, were submitted by Messrs. Richardson, and approved.

The Finance Committee had sanctioned the following payments:—

The Leeds Granite Co., £171 15 5
J. C. Jackson, £8 7 0
J. W. Jackson, £12 0 0
Newton Chambers & Co., £1 0 0

Brooks & Sons, 20 14 7
Two Lathes, 10 0 0

Two Lathes and Gas Committee.
In order to test the feeling of the Board with respect to the lighting of the Lothhouse and Carlton district this season, proposed that the Board purchase 100 lamps at a probable cost of £200, for erection in the above-named district; the amount to be borrowed for 30 years.

The Committee, he said, had not decided where the lamps should be placed, as they first of all desired to know whether the Board approved of the scheme.

Mr. T. Oliver said that it would be a good thing if the Board could see their way clear to erect two lamps near Carlton Bridge, where a deep ditch has been dug.

The resolution of Mr. Middleton's found no second, and the matter dropped.

Mr. Middleton said he supposed it was now time for fixing the price to be paid to the Rothwell Gas Light Co. for the Lothhouse, for gas to be supplied to the Rothwell and Lothhouse lamps during the coming lighting season. He proposed that the Committee be empowered to see what arrangements could be made with the two bodies concerned, and report to the next Board meeting.

The Chairman said that it had now gone too far for arrangements being made to have the lamps lighted at the usual time, the 1st September.

Mr. G. Armistead said he hoped such arrangements would be made, so that the Lothhouse would not be lighted, whilst Rothwell was left in the dark.

After some discussion, Mr. Middleton altered his resolution, and proposed that the Committee ask the Rothwell Gas Co. for a price per thousand feet.

The resolution was seconded and unanimously carried.

THE LOTHHOUSE AND CARLTON DRAINAGE.
Mr. Walter Hargreaves reported that the Committee for the above had gone into the plans and estimate of cost for the drainage scheme. The various details coming under this head were taken in Committee, and a resolution was passed by Mr. Walter Hargreaves, seconded by Mr. Geo. Armistead, and carried unanimously, that the plans, specifications and estimates of Messrs. T. H. and W. E. Richardson, for the carrying out of the Sewage Scheme for the drainage of Lothhouse with Carlton and Thorpe, at an estimated cost of £2814 8s. 6d. be approved, and that the Clerk be instructed to make an application to the Local Government Board as soon as possible, for their sanction to borrow that amount.

POLLUTION OF RIVERS AND STREAMS.
A letter was read from the County Council relating to the pollution of rivers and streams by the deposit of solid refuse therein. The streams had been shockingly abused, and the County Council called the Board's attention to the serious state of affairs.

In order to encourage the Board to take action in such cases as came under the Board's notice, the County Council had passed a resolution to the effect that they would pay one half of the costs of any legal proceedings that might be taken by the Board, to prevent the pollution of the rivers and streams in the Board's district.

BUILDINGS.—Mr. Byns had written to the Clerk, asking when a deputation from the Board could meet him, in order to decide on the building line for his proposed new houses at Thorpe.

No arrangement had been made to comply with Mr. Binnis's request, several members considering that the Board could not always be running about on deputation.

The property of Mr. R. Stringer's at Stourton, it appears, has not been altered sufficiently to meet with the Board approval, and a resolution was passed to take legal proceedings in seven days if the Byelaws of the Board are not complied with.

The remaining business was taken in Committee.

THE ICE-CREAM NUISANCE.
The customary Sunday morning call of "Now, for your ice cream," has recently developed into such a nuisance, that at the last meeting of the Rothwell Local Board, several members expressed themselves on the impropriety of the Sunday-selling that went on in the town from week to week, and asked that something should be done to put a stop to it. It has been surprising to many, to observe what such audacity this vendor of ice-cream has perpetrated on streets, on what should be a quiet and peaceful Sabbath morning, and equally surprising and annoying to see the mothers of the children send their little ones to make small purchases. This is not the first time that an attempt has been made to institute a nuisance, and it is to be hoped that we are glad to know that the public generally react such demoralizing practices, and that the police are doing their best to keep our streets in satisfactory order during the hours of the Day of Rest. At the meeting of the Local Board above referred to, Mr. Sykes said that he had mentioned the matter to the police, and we are glad that we can now report a successful prosecution. The case was heard at Wakefield last Friday, when Ernest Calvert, 14 years of age, son of John Calvert, of Hunslet, was charged by P. C. Fox, with following his ordinary calling, and selling ice cream, on Sunday, in this district on Sunday. The constable said that on Sunday the 6th inst, he was at his station, when the defendant drove up with his pony and trap, and shouted "Now, for your ice cream," and he saw a boy go up to the cart and buy some from him. He called to the boy to get down, and the defendant said that his father did not know that he was selling outside his own borough. The bench ordered a fine of 10s., or an imprisonment for 7 days. We trust that our local police authorities will keep a sharp look out for all Sunday traders, and thus rid our streets of what at times has been likely to prove a permanent and serious nuisance.

CADBERY'S COCOA.—A full strength of a highly economical article, and free from added starch and sugar.—*Frederick.*

ROTHWELL SCHOOL BOARD.

The ordinary meeting of this Board took place on Friday evening at Stourton, presided over by Messrs. J. Butterick (chairman), W. Wright, J. Stead, W. Fattkin, J. Seddon, J. Lunn, and the clerk (Mr. Marshall).

The minutes of the various Committee meetings and the last ordinary meeting having been read, were confirmed.

TIME OF MEETING.—According to notice given, Mr. Stead moved that the time of the ordinary meeting of the Board be altered from Friday at six o'clock, to Wednesday at five. He did not intend saying very much in support of his proposal, but that, that the present arrangement made it very difficult for him to attend regularly, and that he had often to come away without something to eat, or had to get someone else to do his work.

Mr. Lunn, without making any remarks, seconded the resolution.

The Chairman expressed his objection to Wednesday, although he would like to have the meetings so arranged that Mr. Stead could attend. He was well aware, also, that Mr. Stead could not be depended on for Wednesday. He suggested, as an amendment, that the meetings be held on Friday, at seven.

Mr. Seddon cordially seconded this, rather than Wednesday, when he could not be present; he would have preferred to let things remain as they are, however.

Mr. Wright also preferred to make no alteration.

On being put, there voted for Wednesday Mr. Stead and Mr. Lunn; for seven o'clock on Friday, Messrs. Butterick, Seddon and Fattkin; Mr. Wright neutral.

EVERY-SCHOOLING.—Mr. Seddon, having given notice of his intention, now moved that an evening school be commenced at Stourton on the first of October. He had had several persons urging him to bring this matter forward, and he believed such a school could be made successful.

Mr. Wright fully concurred with Mr. Seddon's proposal, if it simply meant continuing the same ordinary studies as were being taken in the day school. If it was intended to go in for shorthand, modelling, and all the other subjects possible under this new code, he should want time to consider the matter, as there would be a vast amount of time and expense involved.

After some conversation on the proposals recently issued by the County Council, and the inducements now offered, it was eventually agreed, on the motion of Mr. Seddon and Mr. Wright, that an Evening School be opened at Stourton on the 1st October, and that the details be referred to the Rothwell High Management Committee.

The question of evening continuation schools generally, especially as relates to Rothwell, was deferred to another meeting.

THE GAS LAMP.—As the position of the Lothhouse school arrangements, does not meet with the approval of the Inspector, it has been decided to have it removed, and Mr. Seddon reported having made the necessary arrangements with Messrs. Abson and Hing for the removal of the school.

NEED FOR ACCOMMODATION.—The absolute need for more accommodation for the scholars attending the Stourton School has been felt for a twelve-month, and the subject was introduced at this meeting. Several plans were suggested, and it was finally agreed to meet on Thursday, the 31st, in order to go into the matter as fully as possible.

NEW TEACHER WANTED.—A letter was read from Miss E. A. Marshall, assistant at Rothwell, giving one month's notice of her intention to leave, having obtained another appointment.

Regret having been expressed at losing her services, it was proposed by Mr. Stead that Miss Marshall's resignation be accepted; also that the Clerk be instructed to advertise for a successor at £50 per annum.

This was seconded by Mr. Fattkin, and carried.

CONCRETING PLAYTHAMES.—The Rothwell Management Committee have recommended the concreting of the ground beneath the two playsheds in the Mixed School; it was resolved on the motion of Mr. Stead and Mr. Lunn, that this suggestion be carried out, and that estimates be obtained from various contractors.

Mr. Fattkin expressed his objection, and voted against.

ACCOUNTS & SALARIES.—The following list of accounts and salaries was passed, and cheques signed for their payment, on the motion of Messrs. Seddon and Fattkin:—

Public Works Loan Board £ 4 4
Rothwell School (teachers) 40 11 11
Rothwell High School (teachers) 103 10 10
Lothhouse School (teachers) 17 11 11
Hingworth & Ingham & Co. 3 6 6
Leeds Corporation (gas) 3 10 7
Abson & Hill, joiners 3 11 9
Jas. Wormald, grocer 2 4 0
Perry Cash 5 0 0
R. Wain, (painting) 10 0 1

EXAMINATION RESULTS.—The following are the results of the recent examinations of teachers under this Board, at the Science and Art Classes last May:—Miss Lilian Barber, 1st model, 2nd light and shade; Miss Marianne Barber, 1st model, 2nd in geometry; Miss E. A. Marshall, 2nd free-hand, past in geometry; Miss Alice Seddon, 2nd free-hand, 2nd model; Miss E. M. Batty, 2nd, in model.

THE PONTYPRIDD RAILWAY DISASTER.
A claim for £1,000 has been received by the Cassell & Co. Company from the representatives of Mr. W. A. Williams, of Llanfair, Main, out-gate, Llanfair, who met with his death in this accident. It is the first time that a claim has been made at Whithy in a few days' time. He had with him his little boy, who is suffering from a severe scalp wound, whilst Mr. Williams is near his confinement.

As a safe, permanent and warranted cure of Piles, Hemorrhoids, Pains, and Blood Disorders, and of all kinds of skin eruptions, see the "CHAMBERLAIN'S PAIN EXPELLER," and "CHAMBERLAIN'S PLEASANT PLEASANT MIXTURE," Sold by Chemists everywhere.

Overlooking in Rothwell, Woodlesford,

Outton, Oarston, Lofthouse, Middleton,

Leeds, Hunslet, Stourton and Methley.

Friday, September 1, 1893.

The weary weeks of enforced idleness

still continue, and it is a common salutation

just now, between miners, "Has't he gotten

rested yet, Bill?" There seems every prob-

ability of the stoppage going on for some

time yet, both parties remaining stiffer than

ever. The owners manifested no inclination

to alter their conditions in the slightest, at

their meeting on Tuesday, and some of the

pit are filling with water, which will occupy

a considerable time in clearing even after all

is settled, whenever that may be. The men

are found at every street corner, wandering

in every lane, and uttering the terms of their

Union rules, are not allowed to carry on in

any way during the strike. Those that

have gardens, have diligently applied them-

selves to the healthful occupation of tending

them; others of a mechanical turn, employ

their time in improving their own homes;

when necessary the loving young husbands

helps his wife with the bairns, or on washing

day, and in various other ways. The majority,

however, find time hang heavy, and their

attitude is most determined, they

would all be glad to get to work again, but

only on the old terms. During the week

several cases have been discovered, and

working at certain pits, and it has been a

source of general interest to trace these men

out and give them such a warning as would

be sufficient to cow the most sturdy. These

men processions to Middleton and to Ardsley,

and open-air meetings for mutual encourage-

ment, have filled up part of the spare time.

The future is anticipated with serious fears

by the general public.

METHLEY LOCAL BOARD.

The monthly meeting of the above Board

was held on Monday at the Red House,

present: Messrs. Jackson, (chairman), J. B.

Phillips, A. Atkinson, A. Denison, J. B.

Ripley, and the clerk (Mr. Wign), medical

officer (Dr. Wign), road surveyor (Mr.

Thompson), collector (Mr. Charlesworth),

and the water inspector (Mr. Taylor).

Several communications were read from

the Local Government Board, with regard to

regulations as to cholera and the pollution of

rivers and streams.

The collector reported having received on

account of district rate £90 11s. 9d., and for

water rents £12 6s. 4d.

Several lots of road material were ordered

to be purchased.

Bad Water.—The water inspector said

that the water that was now being supplied

to the village was not as good as it should be.

He could not tell what was the cause, unless

it was an accident of the reservoir being low.

The water had a little bit of a smell with it,

and was a bit "unpleasant." Mr. Atkinson

said that there had been another case of lead

poisoning at Ardsley, where the water from

the same Authority is used, but he did not

think that many people in Methley used it for

drinking purposes.

The Chairman:—"Even my cattle don't like

to drink it."

The Medical Officer: "It is very milky, and

length; of a highly
to added stretch and
possessing valuable
writing strength and
as such perfect were
Sloop. — *The Lady*

Friday, September 15, 1893.

It is both difficult and dangerous for
those who are outside a trade dispute, and
are still painfully in the very midst of the
conflict, to speak or write so as to bring about
a better state of affairs than the many voices
who are inside the dispute.

But the coal crisis has now reached such
an acute stage that humanity ought to step in,
and endeavour to save the women and
children from starving, by no fault of theirs.
How far the masters are compelled to seek a
reduction of wages we cannot tell, neither is
it easy to decide, amid the many voices, how
many miners have a just and "living" wage.
This is certain, that had our men not been
in the Union, and the masters kept out of
the Federation, we, in this district, would
not have been suffering as we are. But work
and food would have been plentiful. On the
other hand, had the miners' wages been raised
throughout the country, and had some vast
amount of financial good in that way, while
the opposite extreme is just now counter-
balancing the "good times" of the last year or
two. It is for the miners themselves to
settle how far they are to be benefited by
the regular pay up its calls, and further its
success. At the same time, one cannot but
feel that if a man objects to the regulations of
a Society, his queries should be met, and
of his opinions considered; but this great point
should be kept in view, that as long as he
declines to become a member of such Society
and declines to subscribe to its funds, he
shall not receive any advantage the Society
may win for his class or trade. In other
words, if a miner prefers to sell his labour at
his own price, and declines to become a
member of the Union, he must not partici-
pate in any benefits the Society may gain,
nor suffer any loss they may incur.

The general public have been anticipating
with some satisfaction, that yesterday's
ballot on the third question
would bring about an early solution of the
present difficulty. We regret that those
hoping, supported as they were by the advice
of Mr. Rickard, their trusted leader, have
been dashed to the ground. The great Mid-
land counties have distinctly said "No," we
will not go in, unless all the masters take us
back on the old terms.

The men who are now so painfully experi-
encing the adventures of the dispute, ought
to know best, but the public cannot be
wiser than the miners in this position. We
are fully persuaded that a large number of
miners share in this feeling. Many of the
masters would gladly resume work at the
old rates, and have never given notice of
their intention to reduce the wages. They
have been allowed to resume work, and as
you were, you shall draw your money regu-
larly; food, clothes and comfort shall again
rejoice your hearts and those of your chil-
dren. But these men say "No, we shant go
back, until you and all the employers
promise to let us all go back at the old
wages."

Would it not be the wisest plan, to accept
wages instead of relief; well-earned food
instead of begged crumbs; a plentiful table
instead of free breakfasts. We know that
many men would rather starve to death, than
submit to ask for food for themselves, but

their crying children force them to do it, and who can refuse to feed the children? But why should they, when work is to be had, and food to be purchased in abundance?

It is a very common mistake to suppose
the offer to go at the old prices, will they not
thereby relieve the Union funds? Will they
not be able to say to their friends, who have
not the good fortune of having such a propo-
sal, "Never mind, keep your spirits up,
we'll pay an extra levy for your benefit, out
of our good wages." By this means, the
workers would be both helping themselves,
and helping their less fortunate neighbours.

Our object in placing this view before our
readers, is simply and purely, to secure what
seems to us the best means of restoring our
miners to work, peace and plenty. We can
fully realise their strong determination not
to accept any lower wages than they have
been recently receiving; we can see their
objection to the arbitration suggestion,
although it ought to be possible to have a
clear above-board investigation, that would
remove the suspicion at present existing;
but we do trust that the doggedness so
characteristic of Yorkshiremen, will not
stand in the way of bringing about a satis-
factory termination of this struggle, by
securing to the men the chance of going back
at the same rate of wages as when they
came out.

THE COAL CRISIS.

The principal meeting of the week, was
held on Tuesday, when the Rev. Mr. Oulton
preached at Oulton, at the head of a large
procession of miners from this district.
These were joined by others from Lothhouse
and Newton way, and on reaching the field
adjoining the Victoria Hotel, there must
have been something like 3,000.

The service was opened by Mr. Charles
Holden, chaplain at Stanley, who,
having taken the chair, congratulated the
men on the peaceful attitude they had
assumed during this crisis, and said that
those who took any part in the disturbances
were enemies to the cause of labour. (Heard
heart.) It was a war, but a war between
capital and labour, between right and right;
war not of their seeking, but one that had
been forced upon them by their employers.
The day had gone by, when the working
men would sit quietly by their fire-sides,
and now their employers try to cut off
their wages without compensation.

Mr. T. Finning, chaplain at Lothhouse,
the Lothhouse Colliery, moved "That this meet-
ing expresses its loyalty to the Miners'
Federation of Great Britain, and reaffirms
its determination to resist to the utmost
the proposed reduction of 25 per cent. on the
part thereof." They had fought on empty
stomachs, he said, before, and they would
fight on empty stomachs again. (Applause.)

Mr. Amos Beeton (Robin Hood Colliery)
in accordance with the resolution, stigmatised
the men of Durham as the "black sheep" of the
Federation, who were weakening the organi-
zation and doing great harm to the cause.

After Mr. John Smith, Secretary of the
Trades' Council, and Councillor Melnes had
spoken, Mr. James Walsh addressed the
meeting. He said that there was no fault
to be found in Yorkshire. Yorkshire
stood as a giant brother of the great federation,
and it was going to stand out and show
that the miners here had a vitality of which
any other county would be proud. The
first blow had been struck in Yorkshire, and
they as Yorkshiremen, would stand firm
and other members of the Federation
against unjust demands. The resolution
was carried unanimously. Before the gathering
dispersed, it was announced that Mr.
Elijah Farrer, of Lothhouse Gate, who has
already contributed largely to the relief
of distressed miners, had arranged for
5,000 children to be provided
with tea next Saturday.

Except the village constable, not a police-
man was to be seen, nor were they required,
as everything settled off in a most orderly
manner, and the speeches were marked by
the absence of anything of an inflammatory
or improper character.

RESULT OF THE BALLOT.

The Miners' Federation Conference met at
Nottingham yesterday, to ascertain the
result of the ballot on the three ques-
tions propounded to members of the Union last
week. The final result is not yet known,
but there is no doubt of there being a very
emphatic "No" as regards submitting to any
reduction of wages, and as to placing the
dispute in the hands of arbitrators.

In view of the fact that the men who
will resume work at the old wages, the men
masters are willing to accept them, there is
great uncertainty. Yorkshire has voted
thus:—

For resuming work ... 16,029
Against ... 25,039

Lancashire and Derbyshire are also against,
but Staffordshire has not only voted for going
in, but has actually commenced work.

A feeling is growing amongst the men
that the crisis will soon be over, and it is not
at all improbable, that even if (as is
expected) the men are to go back on the
partial resumption of work, another ballot
will be ordered on the special point, and the
result will be in favour of going in.

STOURTON WESLEYAN CHAPEL.

The first anniversary services in connection
with the above place of worship was held on
Sunday last, when two sermons were pre-
ached by the Rev. J. B. Charles, of Wokington,
and formerly superintendent of the Hunstall
Circuit. There were good congregations,
especially in the evening, when the chapel
was nearly filled. A two-man pipe organ
had been purchased, and also donated, by
Mr. F. Fakin preaching. On Monday evening,
a meeting was held, when Mr. J. Swales
occupied the chair. The report, which was
very favourable, was read by the Rev. T. D.
Anderson, who offered an encouraging re-
sponse, and said he delighted to see the
Stourton friends in such a flourishing
state. Stirring addresses were also given by
the Revs. W. Stewart and J. B. Charles.
Collections were taken at each service in aid
of the fund.

CARNEY'S COALS.—A Coals possessing valuable
fuel-forming qualities, and imparting strength and
staying power.—Health.

HUNSLY BOARD OF GUARDIANS.

The fortnightly meeting of the Board was
held on Wednesday, presided over by Mr.
Bury (chairman), Messrs. W. R. Ingalls
and Rev. J. M. Platt (vice-chairmen);
Messrs. J. Gravelly, J. Hargreaves, R. J.
Smith, C. Grosvenor, T. W. Jewison, J.
Barby, A. Charlesworth, W. Sutcliffe, G.
W. Flockton, J. Smith, and the clerk (Mr.
Schofield).

The minutes having been read, were duly
confirmed.

BOARD'S RIGHTS.—In connection with the
recent sale of property formerly belonging to
Messrs. Gould and Stevenson, and adjoining
the Workhouse premises, a question rose as
to the right of road to the Workhouse, and
which is affected by this transaction. After
some conversation, the necessary instructions
were given to the Clerk, to preserve all the
rights of road belonging to the Board.

OUR CHAIR.—It was arranged that the
list of persons inmates be overhauled on
Tuesday, the 26th inst.; and that the half-
yearly visits to Rothwell and Oulton, be
made on Friday, the 29th inst.

The children who are boarded out, were
all reported as satisfactorily cared for.

APPOINTMENT.—The Visiting Committee
reported having selected Alfred and Edith
Witherington, of Altringham, as porter and
portress, at a salary of £25 and £10 respec-
tively, and the Board confirmed the appoint-
ment.

The Ladies' Visiting Committee expressed
themselves highly satisfied with the ar-
rangements made for the comfort of the
inmates.

SITUATIONS FOR BOYS.—In order to secure
suitable situations for boys, it was resolved,
on the motion of Mr. Grosvenor and Mr.
Hirst, that the Clerk advertise in the *Rock-
ingdale Times* and *Leeds Mercury* for a place
for a likely boy, as a farm servant.

ASTLEY.—A letter was read from the
Governor of Wakefield Asylum, stating that
that establishment is full, so far as relates to
the male Department.

Mr. Bury, who had named John Brown,
aged twenty years, was brought to the Work-
house by a policeman, at a quarter to one on
Saturday morning. He had been taken by
his mother to Doncaster, where their home
was sold up for 20s. She then left him to
look after himself, and he had tramped from
Doncaster to here.

A man named Cuthbert, with his wife and
four children, applied for admission to the
Workhouse; they hail from Arbroath, in
Scotland.

Another lad has turned up, whose native
place is in Monmouthshire.

All these cases were ordered to be re-
turned to their proper Unions, but their trans-
ference will be seriously expensive.

The usual returns from the medical officers
were presented; also the monthly statements
from the various collectors.

ROTHWELL & WOODLESFORD
SCHOOL BOARD.

A special meeting of the Board was held
on Monday evening, at which there were
present, the Rev. A. J. Irvin, (chairman),
Mr. W. Downes, (vice-chairman), and Mr.
B. Trinder, with the clerk (Mr. B. J. Smith).

The meeting was held for the purpose of
settling the arrangements respecting the pro-
posed opening of the new School, which is
to be opened on Monday, the 2nd October
next, and continued every Monday, Wednes-
day and Thursday until the end of April,
1894, between the hours of seven and nine
o'clock, under the direction of Mr. Parkin,
who will be paid 2s. 6d. per night for his
services.

The syllabus will include reading, writing,
arithmetic, mensuration, history, geography,
and the "Life and duties of the citizen," with
recreative classes in addition.

The Board sincerely hope that every
advantage will be taken of the proposed
effort for the benefit of the locality.

Messrs. Kendall and Hampshire attended
as a deputation from the Mechanics' Institute
to ask for the use of rooms in the School for
reading and other purposes. Two of the
members of the Board being absent, and the
subject not being included in the agenda for
the meeting, it is deferred for consideration
at the next meeting.

ROTHWELL & DISTRICT PAXTON
SOCIETY.

On Saturday last, Mr. B. Wilkinson, head
gardener to the Mayor of Leeds, read a
paper before this Society, on the "Adamant,
or Maiden-hair Fern." There

at key will unlock key.

Friday, September 22, 1893.
**ROTHWELL LOCAL BOARD
MEETING.**
MR. SYKES & HIS RATES.
BUILDING IRREGULARITIES.

The fortnightly meeting of the above
Board was held on Wednesday night, pre-
sented by Messrs. W. Hargreaves (chairman),
T. Hargreaves, J. Oliver, P. E. Middleton,
J. Hargreaves, T. Oliver, G. Armistead, J.
Armistead, W. Sykes, J. Stead, and the clerk
(Mr. Wimbush), collector (Mr. Marshall),
surveyor (Mr. Greenwood), and nuisance
inspector (Mr. Jones).
The minutes of the previous meeting were
read, but before being confirmed, Mr. Jas.
Hargreaves referred to the resolution passed
at last meeting, with regard to the lighting
the lamps, and said that there was consider-
able talk outside, on account of the lamp-
lighters making overtime, thereby earning
from 28 to 30 shillings per week. The rate-
payers at present had plenty to do to pay
the rates, and he believed that the resolution
at last meeting, with regard to lamp-lighting,
had been passed with a view to saving
any extra expenditure. The Surveyor, he
thought, should arrange the work so that the
lamp-lighting might be done without any
overtime for anybody.

The Surveyor said that the same arrange-
ments for lamp-lighting had been made some
last year, and were the same as when Mr.
Starkie had management.
The minutes were approved, and the Sur-
veyor was instructed to look off all over-
time for lamp-lighting.
Several Committee meeting minutes were
read and approved, from which we learn
that several plans had been passed, and
nuisances ordered to be abated.

The Finance Committee approved of the
following accounts being paid:—
Wm. Armistead, team labour .. 1 12 6
E. Davis, water supply .. 3 3 0
J. W. Wimbush, R.R. & other roads .. 3 3 0
Garforth Colliery Co. .. 2 6 0
Leeds Town Council, Isolation Hospital .. 10 10 0
J. W. Wimbush, Isolation Hospital .. 1 8 0
Wm. Fildes, team labour .. 9 16 0
J. Wimbush, nuisance removal .. 10 10 0
J. Wimbush, team labour .. 3 3 0
A. Ely .. 3 10 0
S. Wilkinson .. 1 14 0
Wm. Brown .. 3 3 0
J. Stead, establishment charges .. 2 13 0
A. Marshall & Co. .. 10 10 0
W. Armistead, poor rates .. 1 8 0
B. Marshall .. 4 10 0
A. Baily .. 1 10 0
F. Greenwood, surveyor's account .. 80 0 0
Salary .. 12 0 0
B. R. Jones .. 5 8 0

The Clerk reported the receipt of £14 8s.
4d. from the Guardians of the Hunslet
Union, being the balance of the share of
the cost of the Isolation Hospital.
Why MR. SYKES WILL NOT PAY HIS
RATES.—Mr. Sykes, in addressing the Chair-
man, said that he had a question he would
like to bring before the Board, with regard
to the Board's collector. He would like to
know who was the Board's collector. Mr. A.
Marshall, he contended had not been elected
by this Board, and until he was, he would
not pay his rates. That was the reason why
he had not paid his rates already.

The Chairman, on asking the Clerk's
opinion on the matter referred to, replied to the
effect that the Board was a continuing one.
Mr. Sykes:—"Well, I shall contest the point."
The Chairman, on asking the Clerk's
opinion on the matter referred to, replied to the
effect that the Board was a continuing one.

Mr. Sykes:—"I don't know before
that anybody objected to Mr. Marshall."
The Chairman:—"I take it that it is a
continuing Board."
Mr. Sykes:—"It is a newly-constituted
Board, and we are all new members."
The Clerk:—"Then how was it that the
boundaries were not all marked out again?"
Mr. G. Armistead:—"I take it then, that
Mr. Greenwood also is not a servant of the
Board."

The Chairman:—"If Mr. Sykes likes, he
can give notice to bring the matter before
the next meeting, but I should advise him
to let it drop."
Mr. Sykes:—"I shall tell the question,
Sir."
Mr. Jas. Hargreaves said that the 20th
September would be past before another
meeting, and he could not see that one rate-
payer had a right to withhold payment after
that date any more than another.

Mr. G. Armistead said that he expected the
Collector would take the usual course, and
in order to complete the payment of rates. He
would proceed against defaulters in the
ordinary way.
Mr. Stead drew attention to a few in-
dividuals whom he understood were not to
be compelled to pay on account of inability.
Mr. Hargreaves said that he was not aware
of the same position; they had power
however, as also had the Board, with the
consent of the magistrates, to excuse rates
on account of poverty, and they (the Over-
seers) did not intend to press such cases.

Mr. Sykes:—"Well, I am going to plead
the same excuse, that I cannot get any
rents!" (Laughter).
Several members expressed themselves in
favour of all the persons failing to pay their
rates being summoned, and then any who
were not able, could be allowed a little more
time than the rest.

A resolution was finally passed, that any
such action as Mr. Sykes had proposed,
should be defended by the Board's clerk,
and that he should also conduct all the cases
of prosecution for the recovery of rates.
Mr. Marshall, who was not present, re-
sponding afterwards stated that with a
few small exceptions, all the therate would
be paid by Saturday, except Mr. Sykes, and
Messrs. Elmore's Wife Co., whose works
have been standing since May (and awaited
the Board's consideration).

BUILDING IRREGULARITIES.
The Surveyor said the plans were sub-
mitted before, and he was not present
when they were considered. He was not
in 94 per 1000 gallons from the one source, and 11d.
per 1000 gallons from the other source. You know
quite well that the price of water was 10d. for
the first 1000 gallons, were agreed to be 10d.
subject to confirmation by the Rothwell Local Board.
You also know that the price was 10d. for the
first 1000 gallons, were agreed to be 10d.
subject to confirmation by the Rothwell Local Board.
You also know that the price was 10d. for the
first 1000 gallons, were agreed to be 10d.
subject to confirmation by the Rothwell Local Board.

Mr. G. Armistead to Mr. Greenwood—
"You have had your attention drawn to
these houses, but is it that you didn't report
to the Committee, you have no plans, is the
case, and I consider it a gross neglect of
duty. There are other builders who are
acting similarly."
The Chairman:—"Mr. Greenwood, this
is a serious state of affairs. It is a disgrace
that the Building Committee should not
know anything of the matter whatever. It
is getting you across with the Board, and in
the future, I hope you will report all these
matters to the Committee, and thus take all
the responsibility off your own shoulders. I
hope and trust for the sake of yourself that
it will not occur again."

With regard to Mr. Stringer's houses, Mr.
Sykes said he believed Mr. Stringer had been
to Mr. Starkie, who had told him to go on,
and take no notice of the Board.
The Chairman:—"We don't know Mr.
Starkie here."
Mr. G. Armistead:—"But that is only
Mr. Stringer's statement."
Mr. Sykes:—"At any rate, this Board
ought to take measures at once to stop him."
Mr. Jas. Hargreaves:—"I should like to
say something about this matter; the Build-
ing Committee, ever since the Board was
formed, has been a disappointment. The
nights have been monopolized by various
other Committee, and the meetings have
been knocked about from one night to
another, and consequently the Committee
has not got time to work. This of
Stringer's is a vexed question, the houses
are built of rubbish, and he is still allowed
to go on. The houses, I am told, are dis-
graceful hovels, and if the Board has power,
we ought to use it."

Mr. J. Armistead:—"We have not ap-
proved any plans; I think they were incom-
plete."
Mr. G. Armistead:—"Have you inspected
the houses, Mr. Greenwood?"
The Surveyor:—"Yes, and there is an
objection to the material used; it is not of a
proper quality."

After further discussion, the question was
referred to the Building Committee for their
special consideration.
The new buildings of Mr. Binna's at
Thorpe, were next referred to. Mr. Geo.
Armistead reported that the Committee had
visited the houses, and found that the state-
ment that had been brought before the Board
to the effect that the houses were not in accord-
ance with the plans, was quite correct. As
the Surveyor had reported, the attics were
not the proper height. Eight of these
houses it appears, are now occupied, without
certification from the Board's Surveyor.

It was agreed that notice be served upon
Mr. Binna, and that the necessary legal
action be taken in order to make Mr. Binna
comply with the Board's demands.
Notice was here given by Mr. Geo.
Armistead of the necessity of the necessary
time had elapsed (since the resolution was
brought up previously), of proposing that an
Inspector of Plans be appointed by the
Board. This, unless Mr. Turner takes it up
again.

The Clerk read a letter from Mr. Binna,
who claims a right to some common land
opposite his cottages, and intimates his
intention of building his boundary wall,
leaving a six-foot causeway to the highway.
The Clerk had replied, asking Mr. Binna
to show his title to the land. Several of the
members expressed a wish to oppose Mr.
Binna in his attempt to enclose land that
had been in public use so many years.

A resolution was passed to summon
Messrs. Whittaker's, of Rothwell Haigh, for
erecting and occupying a wooden hut, con-
trary to the Bye-laws of the Board.
The completed plans for the new Board
Office, along with specifications, were laid
before the Board for examination, but no
resolution was passed thereon.

WATER SUPPLY.—The Wakefield Rural
Sanitary Authority having sent in a demand
to the Board for £138 12s. 4d. for the
price of water (at the rate of 10d. and 1s.
per 1000 gallons from the two sources),
supplied to Louthouse-with-Carlton and
Thorpe, during the quarter ending the 24th
June last, and the Clerk to the Board having
replied to the effect that the price for 1000
gallons properly payable by the Board,
according to the Authority's letter of the
21st March last, was at the rate of 9d. and
11d. per 1000 gallons from the two sources
respectively; and not 10d. and 1s. per 1000
gallons, as now charged by the Authority,
the following correspondence between the
two bodies was read to the Board:—
Tetley House, Kirkstall,
Wakefield, Sept. 19th, 1893.
J. B. Wimbush, Esq., Clerk to the Rothwell Local
Board, Rothwell, Leeds.

Dear Sir,
I beg to acknowledge receipt of your letter of
the 10th, enclosing cheque for £138 12s. 4d., and
enclose you receipt therefor, which I accept on account
of the amount due to the Authority. This leaves a
balance due to the Authority of £54 9s. 4d., for
which please send, and as you have a meeting tomorrow night,
I must ask you to get a cheque there, and let me have
it by post, so that I may be able to cash it. I will
not without further notice, unless this amount is
paid, the Authority will discontinue the supply of
water to the houses supplied by the Authority by the
Board in this particular matter, and it is to the least of
it, most extraordinary, and it is a distinct breach of
faith on a transaction of this kind, and it is not
for the Board to be of the water was to be paid
on behalf of Messrs. Whittaker's. I am, Sir,
very truly yours,
H. BEAUMONT.

Dear Sir,
I have received your letter of yesterday's date,
the tone of which is as unbecoming as it is offensive.
The price which the Rothwell Local Board is liable to
pay to the Wakefield Rural Sanitary Authority for
water supplied to the houses supplied by the Board
is 9d. per 1000 gallons from the one source, and 11d.
per 1000 gallons from the other source. You know
quite well that the price of water was 10d. for the
first 1000 gallons, were agreed to be 10d.
subject to confirmation by the Rothwell Local Board.
You also know that the price was 10d. for the
first 1000 gallons, were agreed to be 10d.
subject to confirmation by the Rothwell Local Board.

ROTHWELL SCHOOL BOARD.
The monthly meeting of this Board took
place on Friday, present:—Messrs. J. Butter-
ick, (chairman), J. R. Seaton, W. Wright,
J. Stead, W. Fildes, J. Seddon, J. Lunn
with the clerk (Mr. Marshall) and attendance
officer (Mr. Denton).
The minutes of previous meetings having
been read and approved.

EXERCISE CLASSES.—It having been as-
certained that Mr. Martin and Mr. Nicholson
are prepared, under satisfactory conditions,
to undertake the conduct of Evening Con-
tinuation Schools at Rothwell and Stourton,
considerable difficulty has been experienced in
regard to their remuneration.
The grants according to the new code, are
calculated according to the total number of
hours during which persons are receiving
instruction, and consist of a Fixed Grant
at 1d. per hour per student; and variable
grant of 1d. or 1 1/2d. per hour as the case may
be; there are other grants for Cookery, &c.,
which do not apply in this case. If there-
fore, the school is open say 60 nights, 12
hours per night; that is 105 hours at 21d. or
nearly 22s. grant for each student who at-
tends every time.

This was thought to leave a large margin
for any leakage, and it was proposed by Mr.
Stead, seconded by Mr. Lunn, and carried,
that an Evening Continuation School be opened
under Mr. Martin, in the Rothwell Board
School, on Monday, Wednesday and Friday
evenings from 7.30 to 9.15, for the teaching
of Reading, Composition, Arithmetic, Geo-
graphy, Shorthand, The Life and Duties of a
Citizen, &c. It was further agreed that the
fee be 3s. for this session (October 1st to
April 30th), payable within four weeks, and
returnable in price to those who have at-
tended best. It was further agreed that the
school be inaugurated by a public meeting
next Monday.

The Board is very anxious that success
attend this effort, and Mr. W. M. Mar-
shall will give his best services, the Board
offers the room, fuel, gas, books, apparatus,
free to all comers.
On the motion of the Chairman and Mr.
Fildes, the Clerk was instructed to write Mr.
Nicholson to the same effect, and it is ex-
pected to be replied to within four weeks, and
the following salaries and accounts were
passed on the motion of Mr. Seaton and Mr.
Seddon:—

Rothwell High Schools (teachers) 2 s. 6
Rothwell Schools (teachers) 24 s. 6
A. Marshall, clerk 7 10 0
W. Denton, attendance officer 6 0 0
A. G. Barker 21 0 0
ATTENDANCE.—The attendance officer
referred to several cases of neglect, and also
mentioned two or three families where the
children are hardly having any food at all.
No doubt these cases will be dealt with by
the relief committee now being formed.

**ANNUAL VEGETABLE FLOWER,
AND PLANT SHOW.**
The members of the Paxton Society, in
promoting the objects of their society, held
another show of plants, vegetables, &c., in
the Mechanics' Hall on Saturday last. The
show in the first instance was more for
the purpose of raising money for the school,
but it has been thought desirable to include vegetable and greenhouse
produce, and thus give to a larger number
of members the opportunity of competing
for prizes. There was a fair attendance
at the Show, on Saturday last, and a good
number of fine exhibits, the following being
particulars of the awards:

MA R. WARD—First for red celery, asparagus, kidney
potatoes, tray of vegetables, marrow; second for
spring onion, flower bouquet, French marigolds;
third for red pot, and red cabbage.
MA T. CAMPBELL—First for beet,
turnips, white eggplant, potatoes, herbs, bouquet
second for vegetable marrow, white and red potatoes,
red cabbage; third for spring onions, asparagus
and French marigolds.
MA J. CLAYTON, Westcliffe—First for carrots;
second for potatoes, and cabbage; third for red
potatoes.
MA G. WILSON—Second for turnips; and third for
potatoes.
MA W. BAWLING—Second for black grapes.
MR. JOSEPH B. BAWLING—First for red cabbage;
second for cabbage, third for bouquet and greenhouse
plants.

MR. J. B. PALMER—First for asparagus, corn-
cobs; second for asparagus, corn-cobs; third for white
cabbages.
MR. G. GODDARD—First for asparagus.
MR. M. HOLLEY—First for dish of parsley, white
cabbage; second for red celery; third for peas and
asparagus.
MRS. A. G. PARKER—First for white potatoes.
MR. J. CLAYTON, "Black Bull"—First for turnips,
kidney beans, and potatoes; second for white
potatoes.
MR. J. BAWLING—Second for asparagus, French
marigolds; third for asparagus.
MR. G. WILSON—First for asparagus, French
marigolds; second for asparagus, French marigolds;
third for asparagus, French marigolds.
MR. W. BAWLING—First for asparagus, French
marigolds; second for asparagus, French marigolds;
third for asparagus, French marigolds.

MR. J. B. PALMER—First for asparagus, corn-
cobs; second for asparagus, corn-cobs; third for white
cabbages.
MR. G. GODDARD—First for asparagus.
MR. M. HOLLEY—First for dish of parsley, white
cabbage; second for red celery; third for peas and
asparagus.
MRS. A. G. PARKER—First for white potatoes.
MR. J. CLAYTON, "Black Bull"—First for turnips,
kidney beans, and potatoes; second for white
potatoes.
MR. J. BAWLING—Second for asparagus, French
marigolds; third for asparagus.
MR. G. WILSON—First for asparagus, French
marigolds; second for asparagus, French marigolds;
third for asparagus, French marigolds.
MR. W. BAWLING—First for asparagus, French
marigolds; second for asparagus, French marigolds;
third for asparagus, French marigolds.

MR. J. B. PALMER—First for asparagus, corn-
cobs; second for asparagus, corn-cobs; third for white
cabbages.
MR. G. GODDARD—First for asparagus.
MR. M. HOLLEY—First for dish of parsley, white
cabbage; second for red celery; third for peas and
asparagus.
MRS. A. G. PARKER—First for white potatoes.
MR. J. CLAYTON, "Black

ROTHWELL LOCAL BOARD MEETING.

The fortnightly meeting of the above
Board was held on Wednesday night, present:
Messrs. J. Hargreaves, T. Hargreaves, J.
Turner, G. Arncliffe, Walter Hargreaves, J.
Armitage, J. Oliver, T. Oliver, J. Stead, F.
B. Middleton, W. Sykes, and the clerk (Mr.
Wimbush), medical officer (Dr. Stevenson),
collector (Mr. A. Marshall), surveyor (Mr.
Greenwood), and inspector (Mr. Jones).

In the absence of the Chairman, Mr. J.
Hargreaves took the chair, on the motion of
Messrs. Turner and Middleton.

The Sanitary and Sewage Committee had
given instructions to the Medical Officer
and Inspector, to get samples of milk from
the local dealers for submission to the County
analyst.

The same Committee at its meeting,
ordered a letter to be sent to the Hunsllet
Rural Sanitary Authority, stating that they
did not see any reason at present for altering
the arrangement of payment, on account of
the severe treatment at Lennard, as such
an alteration would be breaking through the
agreement.

HEALTH REPORT.—The Medical Officer
reported during the past four weeks, 24
births (9 males and 15 females), and 8 deaths
(4 males and 4 females). He also reported
three cases of scarlet fever at Haigh-side
farm, Open View and Smithson Street.

BUILDINGS.—With reference to the new
houses in Carlton Lane, a letter was read
from Mr. Squire, stating that the houses
were built according to plans submitted to
the Board, but not being in possession of
the plans, he had built the houses, believing
that they were shown on the plan.

In the building of these houses, there
appears to be no violation of either the old
or new bye-laws. Mr. Sykes, however, pro-
posed that the houses should not be allowed
to be occupied until the necessary certificate
of the Surveyor be obtained. The resolution was
not seconded.

The plans for the erection of a shop in
Commercial Street, belonging to Mr. H.
Sheldon, were approved.

It was decided that the motion of Mr. G.
Armitage's, re the appointment of an Ins-
pector of Rates be taken in Committee.

RE-APPOINTMENT OF OFFICERS.—On the
motion of Mr. Sykes and Mr. J. Oliver, Mr.
A. Marshall was re-appointed collector of
rates for Rothwell under the recently formed
Board, and notice was given of the re-appoint-
ment of the Surveyor at the next meeting, was also
given.

LAMPS AND GAS.—At last meeting, it
appears a resolution was passed to erect a
lamp at the junction of the road near the
"Moss and Down" Lothhouse.

Mr. J. Oliver, according to notice given,
proposed the rescinding of this resolution.
In the first place, the resolution had been
passed when the Board was in Committee on
the water question, and consequently no
report of the proceedings would go to the
majority, and another reason was that it
was a distinct breach of faith, inasmuch as
it had been arranged that if the Board would
pay the amalgamation expenses, the Loth-
house and Carlton district would forego the
lighting of the district for this season.

Mr. Turner seconded.
After some discussion, the resolution to
rescind was carried by five votes to four.

A letter was read from the Rothwell Gas
Company, applying for sanction to extend
their mains to Mr. Walter Binns' new pro-
perty at Thorpe, which is outside of the
Rothwell Gas Company's district.

On the motion of Messrs. Sykes and Jas.
Armitage, the necessary sanction was given.
FINANCE.—The following accounts were
passed—

Thirfield Granite Co.	£ 4	0	0
T. Lambart	1	3	4
West Yorkshire Coal and Iron Co.	17	4	6
Dr. Stevenson, salary	11	0	0
J. B. Wimbush	17	0	0
A. Marshall	18	15	0
B. Middleton	11	0	0
Dr. Stevenson	107	15	0
The Clerk reported having received from the County Council the following amounts—	£ 4	0	0

On account of Leeds & Wakefield
"Rothwell proper" 250 15 6
"Rothwell current" 252 0 0
"Rothwell district" 107 15 0
"Thorpe district" 6 5 1
"Leeds & Barncliffe" 12 15 11
"Leeds & Ashford" 48 0 0
4191 16 1

The present balance at the bank was re-
ported as £154 10s 6d.

The County Council had also made several
deductions from the claims of the Board, but
were prepared to make special grants for
several improvements that had been made
on the highways.

Mr. B. Marshall had collected all his rates
and had no arrears, whilst Mr. A. Marshall
had only about 10s. arrears, owing by some
of the miners who had been unable to pay
on account of the 'lock out'.

Relieving the Distress.

BOTHWELL.

Last Friday, a general meeting of all in-
terested in the relief of distressed families,
and in feeding the children, was held in the
Club-room of the Mechanics' Institute, when
it was agreed to amalgamate the
Tradesmen's Committee, and what may be
called the Vicar's Committee, so as to form
one general nucleus for carrying out the
heavy work involved by the present crisis.

In acknowledgement of the past labours of
the Tradesmen in organizing the relief, their
officers were accepted as the officers of the
General Committee. Mr. James Batty,
being president, Mr. Elstob, secretary, and
Mr. R. Batty, treasurer. The committee
include the Rev. J. B. Palmer (vicar), Rev.
S. Workman (Wesleyan), Messrs. W. Har-
greaves, T. W. Jewison, J. R. Senior, J.
Turner, Dr. Buck, Dr. James, W. Wright,
J. B. Wimbush, A. Drew, W. Cawdell, A.
Ward, S. Senior, A. Marshall, J. Hargreaves,
R. Hodley, W. Batty, G. Newton, A. Varley,
W. Underwood, W. Smith, W. W. Harrison,
J. A. J. P. Jones, J. R. O. Dickin-
son, E. Hampson, J. Buxterick, with power
to add to their number.

A special Committee was formed, for the
investigation of families said to be in need,
and their relief by coupons indicating value
in goods to the extent of 2s. 6d., or 6d.,
according to the number of children, to be
presented to the various grocers in the town.

A Children's Dinner Committee was also
appointed, whose duties comprise the pro-
viding of suitable dinners each day for the
children attending school, and for any
youngsters who may be in need of food.

Some willing helpers, including several
ladies who have kindly superintended the
preparation of the food, amongst them being:
—Mrs. Palmer, Mrs. Senior, Mrs. A. Ward,
Miss Woolley, Mrs. Marshall, Mrs. James
Hargreaves, Mrs. Wm. Hargreaves, Mrs. B.
Buck, Mrs. G. Newton, and others.

On Monday night, 474 school children
were regaled at the two day schools, with a
plentiful supply of beautiful soup, (made of
white bread and vegetables), and whole slices
of meat, and a number of young men working
hard in assisting the work of the Com-
mittee, and in preparing the food.

To accomplish the work in time, some of
the bakers were at work by one o'clock in the
morning.

On Tuesday, a similar dinner was given,
in the two day schools, and also other child-
ren were fed in the Wesleyan School-room.

It was agreed to have a change for Wed-
nesday, and the plan was laid upon as the
item for that day's dinner. The ladies
accordingly set to work in the Old Band
practice room, and being supplied with the
necessary ingredients, had three hours hard
work on Tuesday night, and an hour and a
half on Wednesday morning, in preparing
and getting 48 large puddings into the boiler
by half-past eight o'clock. The dinner con-
sumed 8 stones of flour, 22lbs of suet, 22lbs
of currants, 14lbs of treacle, with baking
powder and salt. By a quarter past twelve
o'clock, the puddings were carried to the day
schools, and out, and the work was hot,
and were much enjoyed by the children.

Mrs. Underwood was kind enough to
make and give away about eighteen similar,
though rather puddings, which just served to
fill up the requirements of the children.

Yesterday, the children, to the number of
570 were regaled with the same bread and
dripping, both of which were pronounced
excellent, and were much enjoyed.

To-day, a soup dinner had been prepared.
Mr. Charlesworth having sent a number of
rabbits for the purpose.

The large barrels belonging to the Church
School, and the Wesleyan were willingly
placed at the disposal of the Committee and
were in use every day.

Free breakfast have been generously pro-
vided at the expense of private individuals
for some 60 or 70 children, by Mrs. Borwell
and Mrs. Martin.

It is most gratifying to note how heartily
every one has joined in this truly Christi-
like movement, there being no indication in
word or act, what church or no church the
various workers belonged to, but all seemed
animated by the infectious desire to do good
as well as to help out the work of feeding
the hungry, and showing practical sympathy
with their distressed neighbours. Certainly, one happy result
must flow from this quiet mingling together
of all classes in furthering this good object;
the bonds of sympathy and fellow feeling
will become stronger and more real, and the
differences of class and creed will be more
and more lessened and insignificant.

While we avoid mentioning names of those
actively engaged in carrying out the work
of the food distribution, we feel that general
comment will favour special thanks to Mr. A.
Ward, for his constant and valued services,
while Mr. J. Turner has given almost his
whole time to the work. Mr. Elstob, also,
as the general secretary, has been untiring
in his labours.

WOODHOUSEFORD.

As in all other mining districts at the
present time, a considerable amount of dis-
tress exists here, and vigorous efforts have
been made to meet the need, both individually
and collectively, with a view to the relief of
the distressed.

About a month ago, a fund was established
for the relief of the families of non-union
men, and of the members of the union who,
from one cause or another, were not in receipt
of 'strike pay'; and since that time, some
twenty-five to thirty householders have
received weekly groceries worth, varying from
2s. 6d. to 4s. 6d.

The Rev. A. J. J. P. Jones and Mr. W. H.
Kendall, J. Jones and T. Collin assisted by
Mr. H. Parkin, as secretary, have acted
as the Relief Committee, and their appeal
for financial support has met with a generous
response from the families of the non-union
men, and the children of the miners. They
are, however, greatly to be feared that now
that the union funds are exhausted, it will be
impossible to meet all the claims that will be
made upon the fund, unless a second appeal

can be successfully made to the public. In
addition to the above, much private relief
has been given at the various houses in the
district, and the ladies and the ladies of Wood-
houseford, with that true spirit of Christian
sympathy with those in distress, which al-
ways abounds in the hearts of the women of
England, have formed themselves into a
strong organization for the special purpose
of providing relief at the Board School for
the children of those who are out of work.

A numerous committee has been appointed
with Mrs. E. J. Smith as president, and a
series of meals has been instituted; the first
of which consisted of a soup dinner to about
200 children, was provided on Thursday,
the 28th ult., chiefly through the instrumen-
tality of Mrs. Bowen, of Holmehead.

On Sunday morning last, Mrs. Humphreys
gave a breakfast to 380 children, Mrs.
Smith and Mrs. Langstaff following on
Tuesday with a soup dinner. Mrs. R. H.
Brown, lady of Woodhouseford, gave a dinner
Wednesday, and Mrs. White a soup dinner
on Thursday. On each occasion, a small
army of willing helpers has assembled to
serve out the meals, the ladies leaving their
household duties, and their amiably grum-
bling husbands to look after themselves for the
time being.

Those who privilege it has been to wit-
ness the untiring energy of the ladies in
their labour of love, and to see the evident
and practical appreciation of the children,
will not readily forget their experience.

Next week, commencing with Sunday
morning, a free breakfast will be given by
the Brewery Company; breakfast or dinner
will be provided on several days by Mrs.
Trinder, Mr. F. G. T. Leather and others.

Towards the meals generous gifts of flour
and bread have been given by Mr. J. Jackson,
Mr. Hewitt, Mrs. Myton, Miss Castle, and
other ladies and gentlemen.

When all have worked so heartily it would
be invidious to single out anyone for special
mention, and the list is too long to be given
in full; suffice it to say that one and all
have worked with the greatest loyalty in the
good cause.

In strong contrast to the painful scenes
which have been witnessed at neighbouring
villages during the dispute, it is very plea-
sing to note the quiet and orderly attitude of
the Woodhouseford miners, and their evident
and grateful appreciation of the efforts of the
ladies and others on behalf of their children.

LOULTON.

A soup kitchen was opened by the gentry
of Louth, on Tuesday, at Louth House, and
soup is served at intervals of two hours, and
is in great demand.

The quartermen are still unable to do
work at Messrs. Matthew's quarry, owing
to the scarcity of coal.

STOURTON.

In common with other places, similarly
situated, Stourton has been affected by the
great 'Coal Crisis,' but since the funds of
the Miners' Association have been exhausted,
the signs of distress became apparent. Last
week, a body of energetic miners collected
for the purpose of opening a soup kitchen, and
thanked the Wesleyan friends for the pro-
vided in their School-room on Tuesday, and
Friday for the children, as they came away
from the day school. But only on Friday
last, was a "General Relief Fund" initiated.
Thanks to a generous offer of £5 to start
with, a Committee was formed, with
Rev. G. H. Clarke, president; Mr. E. Nich-
olson, treasurer; and Mr. G. Chapman, sec-
retary; and so long as the funds permit it
is intended to give a good substantial break-
fast to about 420 children every morning,
and also to distribute about 200 pints of soup,
beside at noon on Mondays, Wednesdays
and Fridays, amongst the families of
miners.

On Sunday morning Mr. Walter Wade,
of Althous, generously distributed about
400 bags, each containing three nice buns,
and on Thursday, a lady gave 500 buns to
the children's tea in the Wesleyan School-
Room, which had been placed at the disposal
of the Committee. The Committee have
been heartily supported by the tradespeople
in the neighbourhood and also received hand-
some donations from the Yorkshire Post
and the Leeds Daily News funds.

Following the precedent of last week,
Messrs. Stephenson, of Hunsllet, sent Mr.
Nicholson 60 tickets for soup to distribute
amongst the scholars, and Mr. and Mrs.
Mayhall, of Joseph Street, gave about 40
tickets for a good breakfast at their shop on
the Wednesday morning.

Additional subscriptions have been re-
ceived from Mr. H. Nicholls £3 3s. 0d., who
has also collected the following sums:—Mr.

Friday, October 13, 1893.

The news that a meeting is held to-night between Messrs. Charlesworth and their employees, will be hailed with intense satisfaction and anxious hopes of a speedy settlement of this most calamitous dispute.

While we sympathise with the miners in their endeavour to maintain a living wage, there is no doubt that unnecessarily strong language has been used at some of the men's meetings, who feel severely their dismissal by the Owners' Association, as members of the Miners' Federation.

We trust that mutual forbearance will be shown to-night, however, under the altered circumstances, and that the Rothwell pits will soon be re-opened, and the former happy conditions resumed.

THE COAL CRISIS.

CONFERENCE AT SHEFFIELD.

On Monday afternoon, the Mayors of Leeds, Sheffield, Bradford, Nottingham, Derby, and Barnsley, met at the Town Clerk's office, Sheffield, at one o'clock, and after consultation formulated a number of suggestions. At three o'clock, the representatives of the Coalowners' and Miners' Federations met them, and the Mayor of Sheffield was voted to the chair. He opened the meeting with a few words of welcome, and suggested that it might be desirable for the representatives of the coalowners and miners to have a quiet conversation upon the position of affairs prior to the Mayors' suggestions being laid before the meeting, with a view, if possible, to coming to an agreement without the intervention of the Mayors. That suggestion was adopted, and the Mayors retired.

The representatives of the two bodies discussed the question at issue between them for about two hours. They then requested the Mayors to return to the room, and as it thereupon appeared that the representatives had not agreed upon the basis of settlement, the Mayors were asked to make known their suggestions. The Mayors then laid before them the following suggestions:—

(1) Seeing that the price of coal will not recede (except in cases where contracts are pending) to the prices prevailing prior to the strike, the miners be allowed to commence work at the old rate of wages, and that the miners submit to a reduction of 10, out of the 40 per cent, advanced since 1888, six weeks after the pits are open and free for work, on or after Monday, Dec. 4th, 1893.

(2) That all men be allowed to return where possible, and as far as practicable to their former places.

(3) That the representatives of the Miners' Federation be requested to ballot the men (with the least possible delay) upon the proposed suggestion.

(4) That the Coalowners' Federation be requested to issue at the earliest possible moment, pit-head and other notices that their pits will be opened on the suggested terms.

(5) That representatives of the Miners' and Coalowners' Federations should meet at an early date, to formulate a scheme for the establishment of a tribunal of conciliation with a view of dealing with the question of wages.

(6) That as soon as it is decided to open the pits for the resumption of work, the coalowners be requested, in consideration

of the severe distress now prevailing in the mining districts, to make advances to the men, such advances to be repaid by weekly instalments.

The representatives of the Owners' Federation promise to lay the suggestions before a meeting of their executive to be held at Derby on Tuesday, and the Miners' representatives proceed to bring their case before their executive, with the view of taking an early ballot thereon.

A cordial vote of thanks to the Mayors was adopted, on the motion of Mr. Chambers, seconded by Mr. Pickard: and the Mayors of Sheffield and Leeds replied.

This report was read out by the Town Clerk; the Mayor of Sheffield added: "The discussions were carried on in a very friendly spirit. We had not a jarring word from beginning to the end."

OWNERS' MEETING.

The members of the Coalowners' Association met at Derby, on Monday, as arranged, to discuss the proposals submitted from the Sheffield Conference. Mr. Chambers presided, and there was a very large attendance. The Conference rose at half-past six, and the official report was issued by Mr. T. B. Ellis, Secretary of the Conference.

It was unanimously resolved that the proposal to resume work at the old rate of wages cannot be entertained. The proposals of the Mayors were then considered, and it was unanimously resolved:—

(1) That the coalowners record their grateful acknowledgments to the Mayors of Sheffield, Leeds, Bradford, Nottingham, Derby, and Barnsley for their intervention and suggestion of terms as a basis for the settlement of the present labour dispute.

(2) That whilst reaffirming their conviction that the best remedy for the coal crisis is the reduction asked for, and regarding the inflated prices as entirely artificial, yet with the object and desire to end the wide-spread distress and general dislocation of trade, and in deference to appeals made to them as trustees of the community, they have agreed to the suggestions of the Mayors, they make the following resolutions:—

(a) That the miners be allowed to commence work at a present reduction of 15 per cent. out of the 40 per cent. advanced in 1888, and that pit-head notices be given on Thursday next, that work can be resumed on Monday next, the 16th inst., at that reduction.

(b) That all men be allowed to return where possible, and as far as practicable to their former places.

(c) That the coalowners agree to meet the representatives of the miners at an early date, and to use their best endeavours to formulate and agree upon a scheme for the establishment of a tribunal of conciliation, with the view of dealing with the question of future advances or reductions of wages.

(d) That copies of these resolutions be forwarded to the Mayor of Sheffield, to the Secretary of the Miners' Federation, and to the press.

Notices embodying these resolutions have been issued at each of the pits round here.

MINERS' FEDERATION MEETING.

A special Conference of the Miners' Federation of Great Britain, was held at Birmingham yesterday, to consider the offer of the coalowners to allow the men to return to work at the 15 per cent reduction, and also to receive reports from the delegates who attended the Mayors' Conference at Sheffield. The meeting was private, but the following report was supplied:—

The action of the sub-committee in attending the Mayors' Conference at Sheffield was endorsed, and a vote of thanks to the Mayors for convening the meeting was unanimously passed.

On the motion of Derbyshire, seconded by Lancashire, the following resolution was unanimously agreed to:—"That this Conference, while recognising and appreciating the good intentions of the Mayors, at the same time are still of opinion that no reduction of wages is necessary, and none can be accepted; and, further, we call upon all men to stay away from any colliery unless and until opened at the old rate of wages."

The Conference, which lasted for three hours, adjourned until to-day.

On Wednesday Colonel Seely, M.P. who employs about 7,000 men in Yorkshire, issued a notice intimating his resolve to open his pits at the old rate of wages, and leaving the future rate to be decided by agreement between master and men.

ton, Carlton, Lothhouse, Middleton,

Leeds, Hunslet, Stourton and Methley.

Friday, October 20, 1893.

URGENT APPEAL FOR FUNDS.

A meeting of the General Committee of

the Rothwell Relief Fund, was held on Mon-

day evening, when statements were made as

to the present condition of the funds, and

how the money has been subscribed and

expended.

From the balance sheet presented by the

treasurer, Mr. R. Batty, it appears that the

Trustees had met for the first time on the 19th

September, and subscribed amongst them-

selves £2 4s. 6d. they then solicited help

from their fellow-traders, resulting in a

total of £22 14s. Of this amount they dis-

tributed goods to needy families, to the

extent of £10 19s, leaving £11 15s in the

treasurer's hands.

On the 30th September, the present

amalgamated Committee of the Relief Fund

met, taking over the above balance £11 15s.

0d, and also £1 14s, held by the Vicar from

various sources. In addition to these sums,

various other subscriptions have been paid

amounting to £10 12s 4d, while £10 11s

has been received from the Leeds Mercury, and

£6 from the managers of the Theatre. This

makes a total income to the General Relief

Committee of £43 18s 4d. Coupons were

issued in the week ending

October 9th, for £6 10s 0d; and for last

week, £18 4s 6d, thus leaving £24 3s 1d to

start this week, which is a considerable

sum, considering that the fund is in the

hands of our readers, so that immediate

help is urgently needed for this part of the

work.

The expenditure on behalf of the children's

dinner amounted to £28 4s, for last two

weeks ended October 14th, so that about

£15 a week is required for this part of the

relief. Towards this work, the Committee

have received two donations of £5 each from

the Leeds Mercury, and £25 from the

Committee, £25 from the Wesleyan Sunday

School, £25 from the Leeds Mercury, and

Theatre, and £27 17s 6d in large and small

subscriptions, a total of £40 17s 6d. At

PUBLIC NOTICE.
LOCAL GOVERNMENT BOARD.
SESSION 1894.

**WAKEFIELD UNION RURAL SANITARY
AUTHORITY.**
(PROVISIONAL ORDER).

THE PUBLIC HEALTH ACT 1875.

Application to the Local Government Board for a
Provisional Order for putting in force the Powers of
the Local Government Board with respect to the purchase
and taking of lands containing buildings or other works
for the purposes of drainage and construction of sewage
treatment and disposal works.

NOTICE IS HEREBY GIVEN that the
Guardians of the Poor of the Wakefield Union being
acting as the Local Authority for the Rural Sanitary
District of the said Union, in pursuance of the
Provisions of the Public Health Act 1875, in relation to the
Riding of the County of York (hereinafter referred to
as "the Act") intend under the provisions of the
said Act to purchase and take the lands containing
buildings or other works for the purposes of drainage
and construction of sewage treatment and disposal
works for the purposes of drainage and construction of
sewage treatment and disposal works.

SHITTLINGTON MAIN DRAINAGE.

Relieving the Distress

BOTHWELL.

The Relief Committee met as usual on Monday evening, when Mr. Hargreaves stated that the sum promised by Mr. Joseph Charlesworth and Messrs. J. and J. Charlesworth towards the Relief funds in this district, were almost exhausted, and that the sum which he was now paying, constituted the last instalment for Rothwell. He greatly regretted that the dispute had not been settled before now, but hoped that it would be very soon. Since last meeting the Committee have issued 91 coupons to families requiring help, the amount being £10 4s 4d, this left a balance in hand of £19 18s 7d to commence the present week with.

The children's fund commenced with 51d in hand; during last week there had been £2 11s 1d received, making a total of £2 12s 1d. The expenditure, however, reached £6d, so that the Committee for this week was £5 18s 9d in debt. The subscriptions coming in this week will enable to get through, but by next Monday, the fund will be pretty nearly exhausted, if not completely so.

Mr. Hargreaves proposed a resolution to the effect that in the opinion of the committee, the time had arrived, when the democracy of this country should combine, and form themselves into an Independent Labour Party, pledged to secure the wealth of the community, for the community's benefit. The present time, he said, was most opportune for discussing the advisability of forming themselves into a Labour party, seeing that both the other parties—

E COAL CRISIS.

At midnight last Monday evening, Mr. Hargreaves addressed the House of Commons in reference to the coal crisis. He had, he stated, a letter from the miners' representative, Mr. Hargreaves, who had proposed to hold a conference on the subject, and had stated that Lord Rosebery had consented to undertake the important duty of chairman.

Meetings were held on Tuesday, both of the Owners and the Miners' Federations, and resolutions were passed accepting Mr. Hargreaves' suggestion. Lord Rosebery has fixed to-day (Friday) eleven in the morning, for the proposed meeting, which was to be held at the Foreign Office, London.

ROTHWELL & DISTRICT PATXON SOCIETY.

On Saturday, the 4th inst., the members of this Society met in the Reading Room of the Mechanics' Institute, to hear a paper on "The Chemistry of Plant Life," by Mr. John Turner, B.A. There was a fair good attendance of members, the meeting being presided over by the Rev. J. B. Palmer, B.A., President of the Society.

On coming to respond to the call of the Chairman, the Lecturer was accorded a hearty reception, and in his opening remarks stated that the more complete title of the essay would be "The Mechanics and Chemistry of Plant Life." The paper was divided into two parts: first, the mechanical and second the chemistry of plant life.

Mr. Turner proceeded to show by an interesting experiment that plants obtained their food very largely through the stems rather than their leaves, and remarked that they were incapable of taking up any solid matter, except in the case of insectivorous plants, but that the action of the water on the soil caused it to dissolve and in that way the dissolved matter was taken up by the plants. Another experiment which was very interesting, proved that the leaves water contained a small portion of solid matter. In proceeding to deal with the chemistry of plant life, the lecturer dealt at great length upon carbonic acid gas, which was consumed by the vegetable world, and illustrated this by a practical experiment, in which he poured out of one vessel into another just as one might pour out water. One experiment which elicited much applause was that of blowing a soap bubble which floated on this gas for a minute or two.

Mr. Turner then concluded his paper, Mr. Turner observed that the consumption of the carbonic gas by the vegetable world was one of the most beneficial of Nature's arrangements as was this not so, the whole of the atmosphere in course of time, would become penetrated with the gas, and would make life so difficult for human beings to exist.

The lecturer was listened to with rapid attention throughout, and although the time was nearly gone, a little interesting discussion was taken part in by the Chairman, Mr. Hargreaves, and Mr. B. Senor, and others, no doubt would have done so if it had not been for the lateness of the hour.

A vote of thanks, proposed by Mr. S. Senor and seconded by Mr. Martin, and supported by the Chairman, was carried unanimously, and to this Mr. Turner briefly replied, thereby bringing a very pleasant evening to a close.

At next meeting, Mr. W. Savage will give a paper on "The Potato," and we understand the members are intending bringing specimens for exhibition.

WOODSFORD AND DISTRICT CRICKET LEAGUE.

The last meeting in connection with this year's League was in the large room at the White Hart, Woodford, on Tuesday evening last. The attendance was good. The President (Rev. A. J. F. Irvie) occupied the chair and was supported by Messrs. C. Cockerham and J. Tiltott (Vice Presidents), E. B. Fletcher (Secretary), H. Abbey and P. S. Madden (Quintet H. Hodes and E. Robinson (Woodford), delegates, and Mr. Boothroyd, Hon. Sec. to the League. A report of the year's work was read by the Secretary, which showed the League to have been a successful in every way. The President, in a few well-chosen sentences, commended the League champions (Great Preston Hall) the coats and caps which formed the season's prize. Mr. J. Varley suitably replied. Tenate are songs filled up the programme, and a very pleasant evening was spent. The first meeting of the next year's League was fixed for December 12th next, at Woodford.

ROTHWELL INDEPENDENT LABOUR CLUB.

LECTURE BY MISS ENID STACEY.

On Monday night last, the Rothwell Mechanics' Hall was crowded, on the occasion of the second visit to the town of Miss Enid Stacey, a popular speaker on socialistic and labour subjects. Miss Stacey, on her previous visit, spoke on 'socialism' to a large audience; since that time a Labour club has been formed, and in connection with this organisation, Miss Stacey readily consented to pay a second visit to the town. She had cause to feel flattered by the reception that was held out to her, and by the crowded audience that listened attentively to her words.

Mr. John Smith, president of the club, occupied the chair, and was supported on the platform by nearly all the members of the club's Committee, along with several of their wives.

The Chairman, in his opening remarks, spoke briefly on the coal crisis, and the reasons why a Labour club had been formed for Rothwell and district.

Mr. John Smith then proposed a resolution to the effect that in the opinion of the committee, the time had arrived, when the democracy of this country should combine, and form themselves into an Independent Labour Party, pledged to secure the wealth of the community, for the community's benefit. The present time, he said, was most opportune for discussing the advisability of forming themselves into a Labour party, seeing that both the other parties—

NOTICE TO CORRESPONDENTS.

We would particularly urge our friends to send in their letters and news, as early as possible, as we cannot accept contributions later than Thursday evening at 10 o'clock, except in the case of those occurring on Wednesday or Thursday, which should be forwarded within a short period after.

CORRESPONDENCE.

We do not hold ourselves responsible for the opinions of our correspondents.

SENT EMPTY AWAY.

To the Editor of the Rothwell Times.

I should be very pleased if any of your readers could inform me what Mr. John Turner's views are on the coal crisis, as I have been unable to find out. I have been very much interested in the subject, and have been reading up the matter. I have been very much interested in the subject, and have been reading up the matter.

THE 'GAS' CRISIS.

To the Editor of the Rothwell Times.

Having an hour or two to spare on Monday night, I put in an appearance at the Rothwell Mechanics' Institute, for the purpose of hearing a lecture on the coal crisis, as I have been very much interested in the subject, and have been reading up the matter.

Mr. John Turner, who was the lecturer, was a very good speaker, and his lecture was very interesting. He dealt at great length upon the coal crisis, and the reasons

Friday, December 1, 1893.

ROTHWELL LOCAL BOARD MEETING.
THE SCARLET FEVER.
SUGGESTED BUILDING FOR POST OFFICE, POLICE STATION, AND BOARD OFFICES.

The fortnightly meeting of the above Board was held on Wednesday night, present:—Messrs. W. Hargreaves (chairman), T. Hargreaves, J. Turner, W. Hargreaves, H. P. Newsome, J. Oliver, J. Hargreaves, T. Oliver, G. Armitage, J. Armitage, E. E. Middleton, W. Sykes, and the clerk (Mr. Winbush), medical officer (Dr. Stevenson), surveyor (Mr. Greenwood), nuisance inspector (Mr. Jones), and Lothhouse collector (Mr. B. Marshall).
The minutes of the previous meeting were read and confirmed.
A meeting of the Sanitary and Sewage Committee had been held, and 100 copies of the subject matter referring to cowsheds and dairies, ordered to be printed and circulated amongst the milk dealers in the district.
The Committee also decided that the Clerk write to the West Riding County Council, pointing out the present position of the Board with regard to the treatment of its sewage at Lemonroyd.
Arrangements had been made to pay Mr. Chapman, of Thorpe, 2 per house, per annum, for the removal of house refuse from the new buildings erected by Mr. Binns.
MEDICAL OFFICER'S REPORT.—Dr. Stevenson reported during the past four weeks, 38 births, (21 males and 17 females) and 9 deaths (5 males and 4 females); the causes of death were two each from general debility, bronchitis, heart disease, and one each from gastritis, acute diphtheria, and typhoid fever.
The scarlet fever epidemic, which had given signs of its presence in the district,

was daily increasing; during the month, 12 cases had been registered, and they were not confined to any part of the district, but were scattered throughout the old Board's area, with the exception of one case in Leadwell Lane. The Doctor thought the epidemic had its origin in one or both of the public schools. Several cases of scarlet fever, he said, had been treated by the parents of children for measles, and no medical assistance had been called in. The children had been allowed to go back to school again, when in a state most likely to spread the disease.
In the fatal case of typhoid fever at Leo Moor Common, the Doctor could not attribute any local cause. The deceased had recently been operated upon, and had no doubt, contracted the fever whilst in a debilitated state of health.
Mr. Turner asked if the milk supply had anything to do with the outbreak.
The Medical Officer:—"I don't think so, although it could not be spread more readily than by the milk supply."
Through the Medical Officer, the Nuisance Inspector reported that during the past month, he had noticed a few cases of abattoir nuisances; five for defective privies and abattoirs, two defective drains, and one each for no water supply, and emptying of cesspools. Under the Food and Drugs Acts six samples of milk had been sent to the public analyst.
In cases where infectious diseases have occurred, the houses have been inspected, and disinfectants supplied.
Mr. Turner asked the Inspector to systematically examine the mistle and premises of the milk dealers in the district, until a better state of affairs is brought about.
LOTHOUSE AND CARLTON SURVEYOR.—Mr. T. Hargreaves submitted two samples of water that was being supplied to the Lothhouse and Carlton households. It was very seldom they had a proper supply at the higher level; the water, as could be seen from the cases, was very impure and had been for five or six weeks.
A Member:—"Would you propose that a letter of complaint be written to the Wakefield Authority?" (Laughter).
Mr. T. Hargreaves:—"The report is all I have to submit, Mr. Chairman."
BURROWS.—The Board approved of the plans of Lord Stourton, for privy and ash-pit accommodation, similar plans for Mrs. Clarkson's property in Spibey Lane, and for a blacksmith's shop for Messrs. Wormald Bros., in Hargreaves Street.
Mr. T. Hargreaves said that, during the former wind on Saturday night, the 18th, the houses of Mr. Stringer's, at Stourton, now in course of erection, had been damaged, the wind blowing down a portion of the buildings. Mr. Stringer had repaired the damage, by rebuilding the bottom floor, but the Inspector reported the building to be unsafe, as the wall was unsatisfactory below the bedroom floor. He proposed that notice be served upon Mr. Stringer, to pull down the wall to the damaged part, and make all good and sound.
Plans from Mr. Binns, had also been before the Committee, but as the width of the street was proposed to be 50 feet instead of 30, the plans had been left over.
The passing of the Bill of Mr. Sykes for cutting down Sydney Street, had also been deferred, as the Committee did not feel justified in allowing Mr. Sykes to carry out his plans, and thus block one end of the street completely. These plans have already been before the Board and objected to.
After some discussion, it was proposed by Mr. Newsome, and seconded by the Chairman, that the matter be referred to the Building and Highways Committee.
An amendment was proposed by Mr. G. Armitage, and seconded by Mr. Middleton, that the plans be returned to Mr. Sykes, as they are not in accordance with the Board's By-laws.
Four voted for the motion, and four for the amendment, the Chairman giving his casting vote in favor of the motion being referred to the Joint Committee.

New Board Officers.—Mr. J. Hargreaves said that the Committee appointed to see to the plans being prepared for the above, had approved of plans submitted by Messrs. T. H. and W. E. Richardson, but the full Board had not yet seen its way clear to take them up, and deal with the question. However, he now proposed that the plans be approved, after the loan had been left, and the question was either taken up, or the land sold.
Mr. Turner said he scarcely saw the need for selling the land, as it could be used for a couple of years, as a playground for the children.
Mr. J. Armitage seconded the resolution.
Mr. Sykes proposed as an amendment, that the plans be put away for six months.
Mr. Turner seconded.
Mr. T. Hargreaves said he would like to suggest that a public or town hall be built, where they could have post office, police station and Board offices combined. It might seem at first to mean a big expense, but they might be able to get financial assistance from the County Authorities.
Mr. J. Armitage:—"Is there any possibility of getting money from the County Authority?"
Mr. Sykes:—"In the prepared plans, Mr. Chairman, it is proposed to take up all the frontage for nothing; it is one of the silliest proposals I have seen in my life."

Mr. J. Hargreaves:—"Some of Mr. Sykes' remarks have been altered, and the cost brought down considerably. I am willing for the matter to be deferred, if we can get any assistance from the County Authorities. The present scheme is estimated to cost £2500, including everything."
The Chairman, after Mr. T. Hargreaves' suggestion, thought that the matter might very well be left over for two months. There was something, too, in Mr. Sykes' remarks as to the frontage, and the delay would give time to ventilate the new proposal.
Mr. Turner:—"I would be an easy matter for a deputation to go to the Postmaster of Leeds, as to the Post Office."

Mr. G. Armitage:—"I should like to ask Mr. T. Hargreaves, if he could name a district similar to Rothwell, where they have received assistance from the County Authorities for the erection of the proposed public buildings."

Mr. J. Hargreaves:—"If this suggestion is simply meant to delay the matter we had better know at once. I have no objection to it if it is only to get information. The old Board suggested plans for the Board offices for the district; these plans were not satisfactory to the present Board, who instructed the architect to prepare a new set of plans and specifications, and get out the estimate of cost; and now, after the plans have been before the Board some months, we simply have the same old plans passed to the effect that the plans are the silliest set of plans possible. It is rather late in the day to make such remarks; if they were the silliest set of plans, why didn't the members find it out before? The altered plans are ready to be sent to the Local Government Board for approval. If we intend to hold the office, we had better approve of the motion and take the necessary steps."

Mr. Sykes:—"It is the first time I have seen the plans."

Mr. J. Hargreaves:—"But they have been on the table before."

Mr. Sykes:—"I have not seen them until the eleventh hour."

Mr. Middleton:—"Mr. Sykes could not stay at the meeting when the plans were submitted, and it was a question as to whether Mr. Sykes should be allowed to take the plans home for inspection."

The Chairman:—"Well, gentlemen, I must now put the resolution. I think at any rate, we ought to be able to build Board Offices for ourselves."

For the amendment, there voted Messrs. Sykes and Turner, the resolution approving of the plans being carried. Mr. T. Hargreaves voted against both amendment and resolution.

REPAIR OF FOOTPATHS.—The Inspector reported having inspected the footpaths of the Board's district, and reported them all to be in a good state of repair.
Mr. Sykes:—"I know that before he said it (laughter), that was not what he was instructed to do."

The Chairman:—"They are all bad; I only give you what the Inspector said."

Mr. Newsome:—"Well, I propose we give all the owners notice to put them into proper repair."

Mr. Newsome:—"In addition to those footpaths referred to by Mr. Sykes, there are a very large number also under the Highway Committee in a bad state."

Mr. Oliver:—"Where are they?"
Mr. Newsome:—"If you move a resolution asking the Surveyor to take note of these also, I will support you."

Mr. Turner:—"I will second the resolution."

For the resolution there voted Messrs. Turner and Sykes, against Mr. T. Oliver.

Some of the members naturally concluded that the resolution was carried, but the Clerk said "The resolution is not carried, although there are two for and one against; in order to carry a resolution there must be a majority of the votes, and a majority of those present."

GENERAL DISTRICT RATE.—A resolution was passed, confirming the rate at 1s 2d in the £1 for a period of four months.

WATER SUPPLY.—It was agreed to lay out a series of three-inch water pipes for a supply of water to Mr. Binns' property at Thorpe, Mr. Binns to dig the trench, and the Board to lay the pipes.
Mr. Binns also promised to put the street into satisfactory order, and then dedicate the same to the public.

CONCLUSION OF THE PUBLIC BUSINESS.

ROTHWELL WESLEYAN MUTUAL IMPROVEMENT SOCIETY
In connection with the above, a public lecture had been arranged for last Friday night, on the subject of "The Influence of the weather, there was a good attendance. The chair was occupied by Mr. S. Scanlon, one of the Society's vice-presidents, who introduced the Rev. Alexander Mayes, of Leeds, to deliver his popular lecture on "Distinguishing the Christian."

Mr. Mayes, after his introductory remarks, spoke for some time on the majestic form of St. Patrick, the patron saint of the island, who was born during the third century, and during his life did much to assist in the foundation of the religious church. Jonathan Swift, and Dr. Oliver Goldsmith, writers; Thomas Moore, poet; Daniel O'Connell and Edmund Burke, statesmen; Lord Raglan, Lord Clyde, Lord Napier and Lord Wolseley, military leaders; all found a place in the first ranks of distinguished sons of the Emerald Isle. Stories of Irish wit and humor, however, seemed to suit the audience best of all, and in this line, Mr. Mayes, who is a true Irishman himself, seemed to have an abundant store. The lecture, throughout was highly appreciated. At the close, a hearty vote of thanks was passed to Mr. Mayes for his kindness in coming to Rothwell, the motion being proposed by Mr. J. R. Scanlon, and seconded by Mr. Walter Hargreaves.
A collection was taken in aid of the piano fund, which amounted to £12 2s. 3d.

LOTHOUSE WITH CARLTON SCHOOL BOARD.
The monthly meeting of the above Board was held on Wednesday night, present:—Mr. John Dobson (chairman), Mr. Chambers and Mr. Newton, with the clerk (Mr. Lee).
The attendance at Carlton was reported to have fallen off, and the Attendance Officer was instructed to give warning for the last time to a number of parents, and summons them at once if an improvement is not made.
The money for the enlargement of the two schools has been granted, and the alterations are being carried out.
Other formal business concluded the meeting.

The Editor of the Medical Annual speaks in the highest terms of CARLTON'S COCAINE as a beverage and a food for invalids on account of the absolute purity, high quality, and great solubility; and commends the Medical Profession to remember, in recommending Cocaine, that the NAME CARLTON on any packet is a guarantee of purity.

HUNSLET RURAL SANITARY AUTHORITY.
The monthly meeting of this Authority was held on Wednesday afternoon, present:—Messrs. R. J. Smith, (chairman), T. W. Johnson, Rev. G. M. Platt, J. Gravelly, C. Grovernor, with the clerk (Mr. Schofield) and the medical officer (Dr. Back).
The minutes of the previous meeting were read and approved.

THE SEWAGE TREATMENT AT LEMONROYD.—Arrangements having been made to meet the members of the West Riding Sanitary Committee, on Monday next, re-the treatment of sewage at Lemonroyd, it was proposed by the Chairman, seconded by Mr. Grovernor, and agreed, that the deputation consist of the whole of the members present, with the Clerk and Medical Officer.
The Chairman also suggested that Mr. Duncan accompany the deputation.

The Clerk said that there was hardly any need to go to this expense; the Authority only wanted the Wakefield Committee to see that the Authority were doing their best to improve the sewage treatment.

MEASURES. Duncan and Pickard have undertaken to have the plans ready for Monday next, but it was not finally concluded as to whether Mr. Duncan to be present at the interview.

SCAVENGING AT OULTON & WOODHOUSE.—Mr. Flockton, of Oulton, being the only one to estimate for the scavenging at the above places, the tenders accepted on the motion of the Chairman and Mr. Jewison the amount is £25 less than last year, being £100. He was also prepared to cart ashes to Lemonroyd, at 1d per load.

TREATMENT OF SLUDGE.—In order to temporarily remedy the nuisance at Lemonroyd arising from the sludge at the sewage works, Messrs. Duncan and Pickard wrote to the Authority suggesting that the sludge be decanted by fire. This suggestion is now being acted upon.

HALTON WATER SUPPLY.—The Clerk some time since, having asked the Local Government Board to sanction a scale of water charges for Kemplenham, the Board had replied stating that it would be contrary to the practice of the Board, to dispense with a Local Government Inquiry in such a case. The Board have directed an inquiry to be made, which was arranged to be held in the Halton Board School. A letter was read from Mr. Rhodes, C.E., stating that the whole of the pipes are now laid in connection with the Halton water supply, and would be tested at an early date. If found satisfactory, the sludge would be able to allow property owners to connect their service pipes at once.

CONSUMPTION OF WATER. There is a report of excess of consumption at Oulton and Woodhouse. November 18th, the consumption was 13,000 gallons. On November 20th, 20,000 gallons. No leakage had been reported, and on the latter date Messrs. Bentley's consumption was 26,000 gallons less than the previous week.

YORKSHIRE BILLS FOR NEXT SESSION.
Notices have been given of a further series of bills to be introduced into the next Session of Parliament, which may be summarized as follows:
The South Yorkshire Junction Railway Company propose to abandon some of the railways authorized by the Act of 1890, and to obtain power to release the money deposited as security.
The Joint Committee of the West Riding, appointed for the purpose of enforcing the Rivers Pollution Act, propose to change their name and to obtain powers for preventing obstruction and pollution of rivers by solid matter, liquid sewage and noxious, poisonous, or polluting liquid, and to make further provisions as to the construction of bridges, weirs and other permanent works across the rivers.
The North Eastern Railway Company will ask for additional powers with reference to new and existing railways, roads, footpaths, and other works in the North and West Ridings and other parts of their district. Among the new lines proposed is one in substitution of the North-Eastern and North Yorkshire Railway, a widening of the York and Newcastle line at Shipdon, and in conjunction with the Midland and Lancashire and Yorkshire Companies to make new railways at Normanton and Alkote. The joint companies of the North-Eastern and Yorkshire Railway Company propose to arch London and North Western Railway to arch or bridge over the mill gill at the entrance to the Leeds New Station, and to acquire lands at Holbeck and Leeds. The company also propose to acquire a portion of the Marquess of Londonderry's Railway and the undertaking of the West Valley Extension Railway.
The Leaden Local Board will make application to the Board of Trade for a provisional order to enable them to produce and supply electricity within their district.
The East and West Yorkshire Union Railway Company propose to abandon certain unexecuted works authorized by their Acts, and to release the deposit paid in respect of them. They also propose to repeal unexecuted money power and to raise money by debentures.
Messrs. W. Wilson & Co., solicitors, of Sheffield, give notice of a bill for the incorporation of a company for the Sheffield Central Station and District Railway, in connection with which it is proposed to widen and improve Silver Street Head, Westwater, Camps, Lane, and Broad Lane, Sheffield.
The Sheffield and South Yorkshire Navigation Company will ask for extension of time for compulsory purchase of lands, and to make and alter agreements with the Manchester, Sheffield, and Lincolnshire Company the acquisition of the navigations of the railway company.

Friday, December 22, 1893.

Notwithstanding the severe troubles we
have gone through this year, let us be thank-
ful that we are again in work, and that our
Christmas will have much of the old
savour about it. We very heartily join
in all good wishes for the pleasure and enjoy-
ment of all our readers. We hope those
who have been somewhat relieved during the
time of distress by the self-sacrificing
labours of our tradesmen, both in Rothwell
and every part of the district, will honour-
ably and heartily accept of the presents
purchasing their Christmas goods at home,
and by showing in this and other ways
their appreciation and thanks. We wish one
and all of our friends a very happy
Christmas.

ROTHWELL RELIEF COMMITTEE.

The members of this Committee, and a
few friends celebrated the successful
completion of their labours on Wednesday,
when about 40 ladies and gentlemen met
down to an excellent knife and fork tea in
the Band Room, provided by Mr. Lambert.

The after proceedings were presided over
by Mr. Jas. Baty, the vice-chairman, (the
Chairman, Rev. J. B. Palmer, excusing his
attendance by letter.)

The report of the secretary, Mr. Elstob,
we give in full, and feel that to him is due
special credit for his untiring and conscientious
report, and also for his labours throughout
the year. To his colleague also, Mr. Richard Baty,
who has proved an efficient treasurer, great
credit is due in the preparation of the
balance sheet, of which each subscriber has
received a copy.

Mr. Chairman, Ladies and Gentlemen:—

It is a great pleasure to be
here this evening, to lay before you, a report of the
work undertaken and performed by this Committee,
and to think I shall not be far from the mark, when I
say that I think every member of this Committee is
equally pleased with the results of the year's work,
when such a report should be placed before them.

To make this report as complete as possible, it
will be necessary for me to begin with the formation
of the late Rothwell Relief Fund, and follow on
with the Annual Meeting of the Committee.

The meeting called for the forming of the Rothwell
Relief Fund, was held on Wednesday, the 12th inst.,
at the Band Room, provided by Mr. Lambert. The
object of the meeting was to form a Committee to
raise a fund for the relief of the poor, and to
organize a subscription list was opened, and the
Committee commenced their labours next morning by
visiting the various Committees for investigating cases
for relief, also canvassers for the collection of sub-
scriptions. Meetings were held from time to time,
until Sept. 24th, a period of ten days, and during that
time subscriptions to the amount of £23 14s were
collected. 89 relief tickets were issued, at a cost
of 11s 6d, leaving a balance of £11 12s 6d.

On Sept. 24th, a delegation from a Committee under
the name of the "Rothwell Relief Fund" was sent to
the Leeds Exhibition, to exhibit the work of the
Committee, and to receive the highest award of the
Exhibition, a Silver Medal. The Committee also
received a certificate of appreciation from the Leeds
Exhibition, and a letter from the Leeds Exhibition,
expressing their appreciation of the work of the
Committee. The Committee was also invited to
send a delegation to the Leeds Exhibition, to
receive the highest award of the Exhibition, a
Silver Medal.

With respect to the work done by the two Com-
mittees, I think it is only fair to say that the
only thing done efficiently, but economically. The
Investigation Committee issued 141 relief tickets at
a cost of £18 16s, being an average of 5s 14d each
ticket. These tickets were issued to the poor, and
were used for the purchase of food, and other
necessaries. The Committee was also invited to
send a delegation to the Leeds Exhibition, to
receive the highest award of the Exhibition, a
Silver Medal.

The members of the Relief Committee have not had
a very suitable time in raising for the children; they
implied them with 35 shillings at a cost of £108 2s 6d.
The dinner was varied by giving the children bread
and butter, tea with fruit and bread, cocoa with
bread, and pudding, with milk, and coffee with
bread and butter. The cost of these dinners was
as follows:—Soup, 23 4s 8d; tea, 23 12s 6d;
cocoa, 23 5s 10d; pudding, 21 15s 4d; rice, 1s 2d;
4d each (some at 2d each). The number of
dinners served was 1333, a daily attendance of
128-130 children at a cost of 14s per head; this, of
course, included everything necessary for
protection. The ladies who came forward to this
department, are well worthy the thanks of this
Committee, as without their help, the task would
have been done more slowly.

With respect to the breakfasts, those at the Band
Room were provided by, and at the sole expense of
Mr. and Mrs. J. B. Palmer, under the direction of
Mr. and Mrs. Martin, and are therefore outside the scope
of this Committee.

The breakfasts at the Church Schools, were under
the superintendence of Mr. Russell, and I have been
impressed by the fact that the following particulars
respecting the children and food. The breakfasts
have been supplied on 40 days, at a cost of £2 10s,
being an average attendance of 2,400 children, an
average of 60 per day, the food supplied for these
breakfasts have been varied by giving the children
bread, and jam, bread and marmalade, as
solid; rice, cocoa and coffee as liquids; the cost has
been 23s 6d or less than 6d per child.

This gentleman, in the end of the report I have
given you, you will see that there is a balance in hand
of £14 14s 6d, the disposal of which is stated in foot
of balance sheet.

The number of meetings held has been by the
Amalgamated Committee 12; by the Rothwell
Trade Union Relief Fund Committee, 6; making a
total of 22.

The Balance sheet is most carefully
prepared, and shows an expenditure of £180
15s 2d, and an income of £193 12s 11d, thus
leaving £23 14s 6d, which will be partly used
in paying for printing, postage, &c.

Towards the income, no less than £23 has
been disbursed by newspapers; Mr. Payne's
theatrical performance realised £9 3s 6d;
concert under Mr. Brook's direction £3 17s
6d; the Wesleyan Sunday School £2 10s
6d; Temperance Society £1 10s 6d; Leeds
10s 6d. Mr. Charlesworth's weekly subscrip-
tion amounting to £18, Messrs. Charles-
worth's to £30, and other donations, filled
up the balance, varying from 2s to 6d.

The members of the town show up
splendidly in this report. The 171
subscriptions, and in their constant service
on committees. A large proportion of the

expenditure has been laid out in bread,
the daily supply for 500 children being some-
thing like 11 stones, made up into about 100
loaves.

Being the daily dinners by the relief
Committee, as detailed in the secretary's
report there have been many gifts in kind,
while the Co-operative Society and other
tradespeople have given frequently. There
have been 1888 breakfasts generously pro-
vided at the Board Schools at the expense of
Mr. and Mrs. Seaton, from 50 to 60 children
being present each morning.

Heartily votes of thanks followed to the
officers of the Committee, to the ladies who
have so ably assisted, to Mr. and Mrs. J. B.
Seaton for the breakfasts given, to all who
have kindly subscribed money or food, and
to the teaching staff of both schools who
have so willingly sacrificed their own dinner
time in order to feed the children; also to the
trustees of the Church and Wesleyan schools,
for the use of their rooms and utensils.

A resolution passed by the Miners'
Association, was accepted, expressive of
the appreciation of the Committee's
labours, and hearty thanks for the services
of the ladies and gentlemen who have been
engaged in the work.

The rest of the evening was spent in
an entertainment consisting of several songs
by the Rothwell Harmonic Glee Party,
songs by Miss Beatrice Seaton, Miss Isabel
Seaton, Miss Lillie Marshall, Mr. Brook
and Mr. Underwood, pianoforte pieces by
Miss Gertrude Seaton, and recitations by
Mr. F. Grimshaw.

The thanks of the company were passed
to these friends for their willing efforts, and
the party broke up about ten o'clock.

The balance of £23 14s 6d, after paying
the sundry items for printing, postage, &c.,
postages, &c., was yesterday divided among
the widows of the town.

ROTHWELL SCHOOL BOARD.

The monthly meeting of the above Board
was held on Friday evening, present:—
Messrs. J. Butterick (chairman), J. R.
Seaton, J. Seaton, W. Wright, W. Fatkin,
and J. Lunn were present. (Mr. Marshall
and attendance officer (Mr. Denton).
The minutes of last meeting having been
read, were confirmed on the motion of Mr.
Seaton and Mr. Lunn.

COAL CONTRACT.—In response to an
enquiry by the Clerk, Messrs. Charlesworth
offer to supply coals, delivered at either of
the schools during two months, at 10s 6d
per ton.

A resolution was moved by the Chairman
and Mr. Fatkin, to accept the offer; but an
amendment, by Mr. Seaton and Mr. J.
Seaton, was carried, to purchase for the
present, at current rates, the coals required.

DRAWING.—The results of the recent
Drawing exam. held Nov. 1st and 2nd, were
as follows:—
Rothwell High Boys (Excellent) 144 at 3s 6d.
Rothwell High Boys (Good) 107 at 1s 6d.
Rothwell Boys (Good) 107 at 1s 6d.

The Rothwell High Girls, have advanced
from a 'fair' last year, to 'good'; the other
schools are as before.

LABOUR EXAM.—A letter was read from
the Inspector, stating that the results of
the examination of the children, done to
obtain certificates enabling them to go to
work. The exam will take place in the
Rothwell Board Schools, and comprises
children from the two Board Schools, the
National Schools, and Woodlesford Schools.

ARRANGEMENTS FOR XMAS.—A letter from
Mr. Holroyd, asking for the amount of
salary was read, but the Board felt they
could not accede to the request at present.

PRIZE DISTRIBUTION &c.—A letter was
read from Mr. Martin suggesting January
1894 for the Annual Concert &c., at Rothwell.
A letter was also read from Mr. R.
Nicholson and Miss Macintosh, pointing out
the inconvenience of having the prize
distribution in so crowded a room, as the
School at Stourton, and suggesting the
Wesleyan School-room as a more commodious
and suitable room.

It was afterwards agreed to endeavour to
secure the Wesleyan School-room, by
application to the Trustees.

Arrangements were also made for holding
the concert and prize distributions early in
January.

Communications were unanimously passed,
inviting Mr. Fatkin to present the prizes,
Stourton, and Mr. Wright to preside; also
to ask Mrs. Jas. Hargrave kindly to
present the prizes at Rothwell, and Mr.
Seaton to preside.

FINANCIAL.—On the motion of Mr. Wright
and Mr. Fatkin, the following accounts and
salaries were ordered to be paid:
Rothwell High School (teachers) 340s 15s 6d.
Rothwell Boys' School (teachers) 340s 15s 6d.
W. Brown, school-keeper 1

under the style or firm of A. MAR-
CO., at their Steam Printing Works
the County of York.
